A cleverly executed counterfeit, circulated during WWI in Persia. At the end of the war, Russian refugees poured into Persia seeking refuge from the Communists. Among them were Solomon Smolianoff (of "Operation Bernhard" fame), who made a living counterfeiting British Commonwealth notes. This note was presented to the Imperial Bank of Persia at Resht and bears their stamp at lower left. The note has been stamped "COUNTERFEIT" and is punch cancelled "VOID". The note finally ended up with British Military authorities in London. An important piece of WWI history.

Each sheet contains imprints from 65 notes. One sheet shows only the first stage of printing, the green underprint of the design. The printer smudged the green ink on several notes, so he probably decided not to bother finishing the job. The other sheet was properly printed for the green underprint, but the black overprinting is doubled throughout! In addition, the back of this sheet shows one full vertical column of backwards green obverse underprinting and another partial column of the same. These notes, let us add, were printed locally in Colombia, **not** by ABNCO. A rare, possibly unique, pair of printing errors, extremely interesting. The sheets grade **VF,** with usual assortment of minor edge nicks, short tears, etc.

ANCIENT AND MEDIEVAL COINS

GREECE

366 **Argos Amphilochicum** in Acarnania. **350-370 B.C. Stater. VF/EF. (Photo)** **($200-Up)**
Pegasus flying left, "A" beneath, somewhat off center towards 10:00 / excellent, finely modelled helmeted head of Athena left, legend above, small crested helmet behind. The reverse is one of the nicest we have seen for these Corinthian types.

367 **Athens. 490-430 B.C. Tetradrachm.** Nice **VF. (Photo)** **($500-Up)**
A fine specimen, well centered. Obverse shows signs of some delicate tooling to remove encrustation; reverse shows definite, though light, scratches from a similar tooling to remove that brownish-black encrustation which so often afflicts ancient silver (traces remain on owl's head and between his legs). Deep crystalization of the silver into the flan cracks, especially at 4:00 obverse, excellent proof of the piece's genuineness. The Athenian tetradrachms from this period are among the most popularly sought coins from antiquity, for their beauty as well as their historical associations.

368 **Cappadocia.** Ariobarzanes I (95-62 B.C.) **Drachm,** B.M.C. 21. **Fine.** **($35-Up)**

369 **Carthage. AE23,** ca. 230 B.C. **VG-F.** **($30-Up)**
Head of goddess left / standing horse looking back over shoulder, plant above his hindquarters.

370 **Egypt,** Ptolemy III. **247-222 B.C. AE42. EF.** **($55-Up)**
Large head of Zeus right / large eagle standing left on thunderbolt, draped cornucopiae before him. Nice deep green patination.

371 **Egypt.** Ptolemy IV (222-204 B.C.) **AE, 39mm. Fine. ($40-Up)**
Large head of Zeus right / eagle on thunderbolt, holding palm. Cleaned, as usual, with some red patination remaining.

372 **Egypt.** Ptolemy VIII. **170-117 B.C. Tetradrachm. VF,** porous from cleaning, nice portrait. **($75-Up)**

373 **Chalcis** in Euboea. 369-336 B.C. Drachm. **VG-F. ($35-Up)**
Female head right with hair in large roll / eagle right, wings extended, grappling a serpent in claws and beak.

374 **Metapontum.** 212-207 B.C. Silver **diobol** (twice the obol size). **Fine.** **($50-Up)**
Athena/Ear of corn. Symbol: Cornocopiae.

375 **Rhegium,** 203-83 B.C. AE27, Janus head / seated Aesculapius, **VG.** Also, **Syria,** Philippus, 92-83 B.C., **Tetradrachm,** head right / Zeus seated left holding Nike, **VG,** scarce. **2 Pcs.** **($40-Up)**

377 **Velia** (Lucania), c.370 B.C. **AR Stater. VF-EF. (Photo)** **($500-Up)**
Head of Athena 1. wearing Attic helmet surmounted by griffin; T Behind neck. Rs. Lion attacking stag, ivy-leaf below; inscription to r. Reverse 20% off center toward 11 o'clock. Grayish tone.

378 **Macadonia. 364-359 B.C. AE17,** type of S.528A. **Fine.** **($40-Up)**
Head of young Heracles right / lion right holding broken javelin in mouth. Rare. Green patination with some clay.

379 **Macedonia.** Alexander the Great. Greece (337-323 B.C.) Tetradrachm. Fine. **($60-Up)**
Head right in lion skin / Zeus seated left holding sceptre and eagle. Type with "BACILEOC" beneath throne.

380 **Macedonia.** Alexander the Great. **337-323 B.C. Fouree Tetradrachm. VG-F.** **($150-Up)**
Normal type: head right in lion skin / Zeus seated left holding eagle. Zeus, perhaps from slight tooling, looks more like Hera! The silver plating has worn through in several places around the edges and on the obverse neck, the underlying copper having subsequently corroded away. Loss of the patinated copper which must have filled those areas was doubtless due to a cleaning. Interesting piece, whether an official issue or a contemporary counterfeit.

381 **Macedonia.** Alexander the Great (337-323 B.C.) **Drachmae, 3 pcs. Good-VG.** **($50-Up)**
Three different sets of dies.

385 **Amisus** in Pontus. **2nd-1st Cent. B.C. AE20.** Fine head of Zeus right / eagle on thunderbolt, wheel left, star right. Nice **VF,** fine jade-green patina. **($45-Up)**

387 **Centuripae** in Sicily. **After 241 B.C. AE 26 Dekonkion.** Head of Zeus right, laureate / winged thunderbolt. **Nice VF+,** excellent jade-green patina, some slight striking weakness. Rare so finely preserved. **($75-Up)**

388 **Two Kings of Syria. 128-83 B.C. 2 Pcs.** **($50-Up)**
Alexander II, 128-123, **AE20,** radiate head right / two cornucopiae, **VG;** Antiochus XI, 92 B.C., **AE19,** head right / two cornucopiae, **VG.**

399 **49-44 B.C.** T. Carisius. **Denarius** (Carisia 11.) **VF. ($60-Up)**

From 9:00 to 1:00 on reverse, signs of an older coin appear (fragments of legend) — possibly capable of identification. Overstrikes in this series are rare.

400 **Late Republic. AE18 AS.** Janus Head/l above prow, ROMA below. **VF. ($70-Up)**
About the smallest token copper piece we have encountered from the period. The Janus head is nicely modelled, the prow shows fine details. Dark greenish-brown patination, some reverse corrosion spots.

C. CAESAR COS.TER., veiled head of Pietas right/A.HIRTIUS PR., lituus, vase and axe. Planchet too large for the dies, bevelled edge, wider on reverse. Obverse well centered, reverse slightly off-center toward 8:00. Surface slightly porous from an old cleaning; traces of the reddish-brown encrustation common to ancient gold (e.g., the staters of Philip II of Macedonia) remain on the obverse and, to a greater degree, on the reverse. An extremely popular type, about the only collectable gold issue of Julius Caesar.

536 **1937. Crown.** Y.20. **Proof. (Photo)** **($400-Up)**
George VI, bust/crown over date. Proof mintage of 100. Additionally, only 100 1938 Crowns were struck in proof, making this two-year type coin rare in proof. This piece is a nice proof, glittering with some light, attractive golden toning.

A very rare and popular piece, the only crown of this revolt. **Auction records and estimates in excess of $700 in VF.** (Unc. specimens have realized as high as $1,400.) A beautiful design, issued on an historic occasion. Well struck, evenly worn, with better surfaces than normal for the grade. Worth a strong bid.

BARBADOES

637 **1788, 1792. Penny.** Cr. 1, 3. **VF, XF. 2 Pcs.** **($40-Up)**
Negro-head (in plumed crown) over "I SERVE"/a pineapple on 1788, river god in sea-horse-drawn car on 1792. The latter has some tiny spots and tiny nicks.

638 **1788. Penny. Original Proof,** Pridmore 10. Quite nice condition. **(Photo)** **($300-Up)**
Negro head, plumed crown, "I SERVE" below/pineapple and date. Even brown color with bluish iridescence, devices and lettering outlined in original mint red. No contact marks. Byrne sale lot 37, $350. This is a proof-only variety of the scarce "small head" variety.

A NEW VARIETY OF LETTERED EDGE "PINEAPPLE" PENNY — PROBABLY UNIQUE —

638A **1788. Penny.** Type of Cr. 1, same dies as Pr. 14, but lettered edge. **Excessively rare,** not in Byrne sale. **VF. (Photo)** **($500-Up)**
The edge is lettered: "PAYABLE AT THE WAREHOUSE OF THOMAS CLARKE.XX." A variety of Pridmore 14 with the lettered edge of Richard Paley's warehouse is recorded as Pridmore 21A. Both Clarke and Paley had their tokens made by Hancock. The discovery of this specimen lends greater weight to the belief that Hancock struck the second (large head) issue of Pineapple Pennies. These issues are discussed in detail in a fine article in Spinks Numismatic Circular for November, 1977. It is unfortunate that this coin—lying unsung amidst ordinary 1788 Pennies in the vast Wayte Raymond inventory—was not yet discovered when that article appeared. The natural supposition is that during the striking of the Pennies, in Hancock's factory, a blank with lettered edge, prepared for another Hancock token order, was mixed with the plain-edged blanks for Barbadoes. The piece with Paley's edge is apparently unique; as this piece has only now surfaced, it must be **unique** at present. The Paley piece, Pr. 21a, is priced "Extr. Rare" in the 1966 Price Supplement. A couple of uniface die trials in the Byrne sale, lots 39 and 40, brought $1200 and $600. A crude, lettered edge CONCOCTION, Pr. 24, brought $400 in the same sale (lot 50). We feel this is a more important coin than any proof or concoction, and **bidding near or over the $1000 mark is possible.** The coin is struck on a slightly undersized planchet, and has two tiny edge nicks on reverse. The dies are the common variety of Pr. 14, with the flaw on second "A" of BARBADOES in an early stage.

UNPUBLISHED TRIAL STRIKE

639 **1792. Penny.** Dies of the regular issue, Pridmore 15, but broad (33mm) and with denticled borders. Nice **Proof. (Photo)** **(——)**
15.58 gms. Edge roughly cut. The planchet is broader than the strip from which it was cut, thus there are two edge clips.

640 **1792. Penny. Proof** restrike. Pridmore 23. Thick flan. **(Photo)** **($150-Up)**
Similar to the 1792 Half Penny. Byrne sales $155. **Choice,** save for some very slight spotting.

641 **1792. Halfpenny.** Cr. 2. **XF.** **($40-Up)**

642 **1792. Halfpenny.** As last, but the restrike **Proof,** Pridmore 25. A virtually perfect coin. **(Photo)** **($150-Up)**
25.5mm, 7.80gms. Byrne sale $220, but this is a better specimen.

643 **N.D. (c. 1792). Half Penny.** Type of Fr. 3. Holed. Countermarks. **VG-F.** **($125-Up)**
Countermarked "I.B." within indented heart in center. Countermarks at sides are a crude castle and lion for Castile showing Spanish influence. Excessively rare, may be unique. Included with the coin is additional data on a small card.

644 **N.D. (ca. 1800). "IB" cstps on copper coins.** Of unproven attribution. **Good. 2 Pcs.** **($40-Up)**
1) "I:B" in sawtoothed box on Geo. II half penny; 2) "I.B" in beaded circle on 1791-N 12 Deniers (may be a French revolution political item).

BELGIUM

650 **1814-W. Antwerp. Obsidional 10 Centimes. Napoleon.** Cr. 2. **VF+.** **($40-Up)**
"N" in wreath/value. Crude, but very nice for type. Numerous light scratches made before striking—evidence of filing design off another coin before reusing planchet.

651 **1814. Antwerp. Obsidional 10 Centimes. Louis XVIII.** Cr. 4. **XF,** some red. **($40-Up)**
Similar to last, interwined L's substituted for N. Planchet of another coin filed down and reused; traces of old design remain.

652 **1834. ¼ Franc.** Cr. 9. Nearly Perfect **Unc. (Photo) ($200-Up)**
Laureate bust of Leopold I/value and date in wreath. Some planchet porosity evident at bottom obverse and top reverse, due to weak strike there. Exquisite light toning, mostly blue and gold. (A bit of extra metal at 8:00 reverse may look like a tiny edge nick in the photo; it is not).

653 **18-(incomplete date, ca. 1848). Pattern 5 Francs by Dargent, struck in lead, Unc. (Photo)** **(——)**
Leopold II, 1849-1909. Obverse similar to regular issue. Reverse with arms on crowned cartouche dividing "5-F", "L'UNION FIAT LA FORCE" on banner below. Some (stable) corrosion.

656 **1930. Pattern 10 Francs.** "3 Kings." As Y. 31 but struck in brass-colored alloy. Nice **Unc.** **($150-Up)**
Accoladed busts of Leopold I & II and Albert, dates 1830-1930 (Independence Centennial)/value between laurel branches. Incuse, lettered edge. Dupriez calls this metal "similar" and assigns "R2" rarity.

BOLIVIA

666 **N.D. (1556-98) 4 Reales.** Assayer B. **F-VF.** **($100-Up)**
Crowned arms/lions and castles. Some weak spots, but on the whole a very round and evenly-struck cob with considerable legend. Vicenti 478-89, CC 2403-2413.

667 **1654-P/E. 8 Reales.** With "PH" over value on reverse. Variety not in Calbeto, Vicenti 1269, CC 6631. **VF. (Photo)** **($250-Up)**
Castles and lions/pillars over waves. Some flat spots, but nearly full obverse legend. Vicenti 30,000 Pesetas, CC 18,000-34,000 Pesetas.

668 **1664-P/E. 1 Real.** Nice **VF** showing three dates. **($40-Up)**
Philip IV, 1621-65. Castles and lions/pillars over waves. The obverse date is not so clear. Those on reverse are clear, and the legend date is four digits. Clear value, assayer, and mintmark. Vicenti 675, 3500 Pesetas; CC6071, 4800 Pesetas (2nd grade).

669 **1669-Pi/E. 8 Reales.** Vicenti 502, CC 8756. **VF.** **($100-Up)**
Castles and lions/pillars over waves. Very dark, apparently a found piece. Still, an excellent cob showing full centers, 11 of 15 letters in outer reverse legend, and King's ordinal on obverse. Obverse date reads: "66.9".

670 **1681. 8 Reales Cob.** Double struck. **Fine. (Photo) ($75-Up)**
Cross of Jerusalem with Castles and Lions quartered. Mint Mark "P" (for Potosi) left/Columns of Hercules on waves.

671 **1688-P/VR. 2 Reales. XF.** **($50-Up)**
Castles and lions/pillars over waves. Obverse shows mintmark, date (bold), and partial legend "(CARO)LVS II D G". **Reverse shows complete design,** although none of the legend. Vicenti 313 (3600 Pesetas), CC8616 (6000 Pesetas, 2nd grade). **An outstanding coin!**

Castles and lions/pillars. Obverse shows date, mintmark and king's ordinal. Almost full reverse. Vicenti 410 (25,000 Pesetas), CC 8735 (35,000, 65,000). Guttag lists under Peru.

A SUPERB HEART-SHAPED COB EIGHT REALES

672A **1734.** 8 Reales. Potosi mint, assayer E. Excellent condition and unholed. **(Photo)** **($2,500-Up)**
Obverse: Castles and lions, "8", "P", "E" and "734" at ends of cross. Some of the crown at top shows. The King's ordinal is clear, but little other legend. Reverse: Pillars over waves, etc., legend "POTOSI ANO (1734 etc.). The planchet carved into a heart shape and then struck with care. **Ex-Pena collection (1925).** A 1706-P/Y heart-shaped 8 Reales, equal to this in condition and strike, **but holed,** brought **$2500** in the 7/29/75 Coin Galleries mail bid auction (lot 1119). A 1729-P/M heart-shaped 8 Reales, not quite as nice as this one and also holed, was estimated at $4000-5000 in the 1977 C.O.I.N. auction (lot 843), and **brought $3000.** If Mr. Christensen's estimate of $4000-5000 was reasonable for a holed piece, surely this is worth over $5000. Holed pieces are the norm for heart-shaped cobs (no premium for "better date" heart-shaped).

673 **1754. 4 Reales.** Potosi mint, assayer Q. **VG-F.** **($25-Up)**
A crude cob, scarce denomination. About XF for wear.

674 **1764-P/V. 2 Reales.** Vicenti 597. CC12726. **VF.** **($25-Up)**

Laureate bust of Charles III/Crowned shield. Scarce date.

677 **1777-Pi/PR. 4 Reales.** Cr. 17. **Abt. Fine.** **($20-Up)**
Carlos III, 1769-88. Bust/crowned arms between pillars.

⅓-length military bust of Bolivar/view of Potosi city at foot of mountain, sun above, gms. One of the nicest crowns of Latin America, overlooked by many. Cleaned.

686 **N.D. (1841). Proclamation medal.** 30mm, silver. 17.64 gms. Fonrobert 9461. **Rare. Unc.** **($75-Up)**

692 **1857/6. 4 Soles.** LaPaz, assayer "P". Y.42. **Rare date, the overdate** not in Krause. **VF+.** **($100-Up)**
The 7/6 very clear. Bold portrait. Reverse center and upper legend slightly weak. Dipped but fairly natural-looking.

693 **1857. 4 Soles.** LaPaz, assayer "P". Y.42. **Rare date. VF+-XF.** **($100-Up)**
A wedge-shaped flaw on the forehead and a small air hole on one llama. Centers bold. Krause $65 in only VF. Lustre around legends.

694 **1858. 4 Soles.** LaPaz, assayer "P". Y.42. **Rarest date** of type. **VF.** **($100-Up)**

Quite a nice strike.

699 **1872, 1900. Pair of off-metal strikes. VF.** **($30-Up)**
1) **1879-FE. 20 Centavos.** Y.62. Struck in copper. 2) **1900. 50 Centavos.** Obverse as Y63 (a), reverse as Y.80 (2) but no mintmark. Brass, crude. The cataloger believes these are contemporary forgeries. An interesting lot!

700 **1951. 5 Bolivianos.** Y.93. **Choice Proof. (Photo)** **(——)**
Arms in oval, banners, cannon, etc., eagle perched atop/value in wreath. It is suggested that **less than 10 proofs were struck.** Proofs are not mentioned in Krause. Our estimate is cautious, even unimaginative. A great piece for the Latin American specialist.

706 **(1808). 1796-So/DA 8 Reales, counterstamped for the province in 1808.** Cr. 96 rare on a "So" (Santiago, Chile) Dollar. **VF. (Photo)** **($150-Up)**
Obverse cstp: Oval Portugese arms, crowned, within wreath. "960" at bottom. Reverse cstp: sphere. Both stamps are round with denticled borders. The base coin is Chile. Cr. 61, cataloged at $200. We can't see why this interesting counterstamp should lower the base coin's value. "C" of "CAROLUS" recut over "R."

707 **1810. 960 Reis.** Wayte Raymond I, Cr. 94. **VF.** **($35-Up)**

715 **N.D. "CEARA" cstp. on 1826-R 960 Reis.** Coin **VF,** stamp **Unc.** **($40-Up)**
The coin struck over a **Lima 8 Reales.** Doubtful (see note in Craig), but popular as a collectible.

716 **1835. Rio Grande do Sul. Pattern Peso.** Fonrobert 8872, Guttag 915F. Bronze **Proof. (Photo)** **($150-Up)**
Clasped hands holding sword, liberty cap on point, rays behind. Around, "REPUBLICA RIO-GRANDENSSE". At bottom, between two rosettes, "1835". The sword divides the date "20-7BRE". Reverse same as obverse. Plain edge.
Fonrobert terms this a peso, and gives the dates 1837-44 as the presidency of Alvares Machado. Made in Europe, possibly Brussels. Authorised by Machado. Despite the rarity and historical importance of this piece, the only coin of this republic, it sell-when offered-for little more than the best prices obtained for the Piratini fantasy counterstamps (of 1924). Our estimate reflects the astonishingly low market value-thus far-for this piece; we feel it should sell for much more.

717 **(1835). Crude "10" counterstamped on 1828C 40 Reis.** Cr. 160. 7 pieces, 6 different stamps. Coins **VG to VF** (one damaged), stamps **Fine to XF. 7 Pcs.** **($25-Up)**

718 **1843. 1200 Reis.** Cr. 187 ($150). Extremely scarce crown. **XF.** **($100-Up)**
Crowned arms in wreath/"1200" in circular wreath. Lightly polished at some time, very light adjustments. Tiny rim nicks.

BRITISH GUIANA

ESSEQUIBO & DEMERARA

AMONG THE FINEST KNOWN

733 **1809. 2 Guilders.** Cr. 9, Pridmore 7. **Extremely Choice Unc.** and rather prooflike. **(Photo)** **(——)**
Draped and armored laureate bust of George III/crowned "2" in wreath. A virtually perfect coin. 16,125 struck, with part of the mintage officially melted in 1839. **A choice AU brought $750 in the Byrne sale. Possibly the finest example in private hands,** this may top $1000.

734 **1809. 1 Guilder.** Cr. 8, Pr. 10. Boldly struck, **choice Unc. (Photo)** **($150-Up)**
Similar to the 2 Guilders. Krause's price of $80 XF is only half the realization of the Byrne sale. That Mr. Byrne could not acquire an Unc. of this type speaks glowingly of its rarity in mint state. This piece is very sharply struck, not only in the centers but on the legends and denticled borders as well. Possibly sharper than Pridmore's plate. The obverse is vaguely prooflike and nicely toned. The reverse is a mixture of original mint color and dull natural toning. An outstanding coin that could sell for multiples of estimates.

735 **1809.** ¼ Guilder. Cr. 6. **XF.** **($20-Up)**

RARE GILT PROOF

736 **1813.** 1 Stiver. Cr. 5, Pr. 20B. **Gilt Proof. (Photo) ($175-Up)**
Draped laureate bust of George III/crowned value in wreath. One of the few **Royal Mint** gilt proofs. Slight spotting, slightest friction. Krause, conservative (as usual on proofs), prices at $200.

THE COMPANION GILT PROOF

737 **1813. ½ Stiver.** Cr. 4, Pr. 30B. **Gilt Proof. (Photo) ($175-Up)**
Similar to last. **Byrne did not have this piece.** Some tiny spotting, nearly all on reverse, but perfect otherwise and overall a nice proof.

738 **1813. 1 Stiver.** Cr. 5, Pr. 29A. **Choice, Brilliant Proof. (Photo)** **($125-Up)**
Similar to above. Bright red with blue overtones. The reverse is perfect, the obverse has some tiny spots. Byrne sale $130, but this is probably a little nicer. Original British copper proofs are seldom found in brilliant state.

739 **1813. ½ Stiver.** Cr. 4, Pridmore 30a. Lovely, **bronze-colored Proof. (Photo)** **($125-Up)**
Byrne sale $140, but that piece was described as having a "few tiny carbon spots".

740 **1816. 3 Guilders.** Cr. 15. **VF+,** beautiful iridescent toning. **(Photo)** **($300-Up)**

We respectfully call your attention to item number 1 in our Terms of Sale regarding our "Buyer's Charge."

741 **1816. 2 Guilders.** Cr. 14, Pridmore 8. **Rare. Choice Unc. (Photo)** **($400-Up)**
George III, draped and laureate bust by T. Wyon/large "2", crowned and within wreath. **Mintage only 15,000**(one-year type). **Byrne did not have an Unc. specimen!** Lustrous, with the raised design frostier than the fields, giving the piece a somewhat prooflike appearance. Krause prices this **higher than the 1809 2 Guilder.**

742 **1816. 2 Guilders.** Cr. 14. **XF.** **($100-Up)**
Draped and laureate bust of George III/crowned "2" in wreath, "UNITED COLONY OF DEMERARY & ESSEQUIBO". Cleaned, a thin scratch behind head.

743 **1816. 1 Guilder.** Cr. 13, Pr. 11. **Nice Unc.** **($150-Up)**
Type similar to 1816 2 Guilders above. Very bold strike. Bright mint color with splashes of green, red and blue toning. In the Byrne sale, an "AU, moderate nicks, scratches, toned, light tarnish" brought $115 (Byrne did not have an Unc.). In WR1 an Unc. sold for $140, but this may be a little nicer.

744 **1816. ¼ Guilder.** Cr. 11, Pridmore 21. **Choice Unc.** **($100-Up)**
Type similar to last. Very deeply and sharply struck. Lovely rainbow toning on obverse, the reverse is mostly brilliant. Byrne sale $60 in AU-he did not have an Unc.

745 **1816. ¼, ½, 1 Guilder.** Cr. 11-13. **XF, VF+, VF. ($45-Up)**
Designs similar to the 2 Guilder. The ½ and 1 Guilder are cleaned; the latter with a file mark on edge (not visible from coin's faces).

746 **1832. 1 Guilder.** Cr. 19. **AU.** **($80-Up)**
William IV, 1830-37. Bare head/crowned "1" in wreath. This came to us as "Choice BU" but was skillfully cleaned long ago. The toning is natural and the piece is lovely. An AU ½ Guilder of this year brought $90 in WR1.

747 **1832. ¼ Guilder.** Silver. Cr. 18, Fr. 18. **F-VF.** **($30-Up)**

748 **1832. ⅛ Guilder.** Cr. 16, Pr. 26. **XF/AU.** **($40-Up)**
Bust of William IV/similar to earlier types. Byrne had only an "XF . . . few encrusted spots", which brought $50. Hairline obverse scratches, but gorgeous rainbow toning on reverse.

749 **1835.** 1 Guilder. Cr. 19, Pr. 13. **Choice, Prooflike Unc. (Photo)** **($150-Up)**
William IV, 1830-37, bust/similar to earlier issues. Krause $80 XF, $180 Proof (a Proof brought $350 in the Byrne sale). WR1 $175 in Unc., but this piece is much nicer. This type may be scarcer in Unc. than in Proof.

750 **1835. 1 Guilder.** Silver. Cr. 19, Fr. 17. **EF.** **($50-Up)**

751 **1835. ½ Guilder.** Cr. 18, Pr. 18A. **Proof. Very Rare.** **($150-Up)**
Type similar to above. Lovely rainbow toning. Krause $150, but an AU brought $105 in WR1. (Clearly NOT an 1835/3 overdate, but 1835/5).

752 **1835. ¼ Guilder.** Cr. 17, Pr. 24A. **Proof.** Very Rare. **($175-Up)**
Type similar to last. Gorgeous, shimmering steel-blue toning. Byrne's best example of this type was only XF+.

753 **1836. 1 Guilder.** Cr. 25. **Proof** with milled edge. Quite Choice. **(Photo)** **($200-Up)**
As last/BRITISH GUIANA replaces Essequibo and Demerary as country name, value spelled out. Rarer than plain-edge proofs.

754 **1836. ½ Guilder.** Cr. 24. Choice Proof. **(Photo)** **($100-Up)**
Nice obverse and gorgeous reverse toning. A very small planchet chip at 7:00 reverse edge, and a faint scrape on the obverse edge at 11:00.

755 **1836. ½ Guilder.** Cr. 24, Pr. 19. **XF,** hair details weak. **($20-Up)**

756 **1836. ¼ Guilder.** Cr. 23. **Proof.** **($75-Up)**
Glittering blue toning, free of contact marks. The reverse toning is slightly spotty.

757 **1836 ¼ Guilder.** Cr. 23, Pr. 25. **Unc.** **($40-Up)**
An Unc. in our WR2 (mail bid) sale proved one of the most popular coins. Small edge nick, possibly as made. About half original luster.

758 **1836. ⅛ Guilder.** Cr. 22. **Proof.** **($40-Up)**
Glittering blue toning, reverse slightly spotty.

759 **1838. Set of four 1 Stiver Copper Tokens.** Pr. 60, Byrne 1363. **VG-Fine. 4 Pcs.** **($40-Up)**

760 **No Lot.**

BRITISH HONDURAS

We call our bidders' attention to the three Proof 1894 coins in this offering. In Wayte Raymond 1, we sold an extremely choice prooflike 1894 25 cents for $600. Only 25 (approx) Proofs of each of the five 1894 types were struck. These are among the most desirable proofs in the Commonwealth series, and extremely scarce as regular-issue coins.

761 **1894. 5 Cents.** Y.2. **Choice Proof. (Photo)** **($175-Up)**

Type similar to above. **About 25 Proofs struck.** Lovely silvery-blue toning with additional roseate hues. Remick $150 (1970). In WR1 we sold a prooflike 25 Cents for $600, or **three times Remick's price for Proof.**

BRITISH WEST AFRICA

EXTREMELY RARE UNLISTED PATTERN

777 **1936-H. Shilling.** George V. Y.16a. **Unlisted Pattern. Proof. (Photo)** **(——)**
Type of regular issue but **"SPECIMEN"** in raised letters above date on reverse. Security edge. Not a high standard of proof striking, but fully brilliant. Faint spotting, a dark tarnish spot on edge.
Remick lists several varieties of patterns of the 1936-KN Shilling, priced $95 each (1970). The 1936-H regular issue is a rare date (Remick $30 XF in 1970).
Similar Israel Heaton "Specimen" coins have been selling at the $1500-$2000 level

UNPUBLISHED PROOF

778 **1944. Halfpenny.** Y.23. Proof. **Unpublished. (Photo) ($——)**

UNLISTED PROOF

779 **1951. Half Penny.** Y.30 (scarcer type). A perfect Proof coin. **(Photo)** **(——)**
Copper-nickel. Center-holed. Not in Krause or Remick. A magnificent proof, perfect in all respects, brilliant, silver-like surfaces with gorgeous multi-colored toning. **Doubtless extremely rare,** as no other off-year proofs (coins not associated with design changes) are reported.

BRITISH WEST INDIES

780 **1822/1. ¼ Dollar.** "Anchor Money". **Unlisted Proof. (Photo)** **(——)**
Crowned anchor, "IV" to left and right/arms of Great Britain. Well struck, sharp edge, full proof surfaces. The obverse die shows fine pitting and may have been polished and re-used at a later date. The "V" of "IV" at 9:00 is defective, and the "M" at 2:30 is broken. The original ticket; ca. 1900, is marked: "brill proof extra rare . . . See Parsons "British African Coins" p. 71." Pridmore does not list proofs, Remick does. We feel sfaest in classifying this as a proof.

781 **1822. ¼ Dollar.** Silver. Cr. 3, Fr. 2. **VF+.** **($25-Up)**

Similar to last. "E" in left obverse field, "C. W." under bust. Similar toning, slightly nicer than the 50 Centimes.

789 **1860 (struck 1875). Essai 50 Centimes.** Y.5. **Rare.** Prooflike **Unc.** **($150-Up)**
Norodom I, 1859-1904. Bust/arms. "E." in left obverse field, "C. WURDEN" under bust. The 1860 essais by Faconnet (cf. V. Guilloteau) were never used for regular issues. About 1875 Wurden, a Belgian medallist, taking Faconnet's design, struck a coinage for Cambodia. These prepartory essais are rare. Rainbow toning.

790 **1860. 4 Francs.** Silver. Dav. 149, Y.8. **VF.** **($100-Up)**

EXTREMELY RARE 1921 SPECIMEN 50 CENTS SILVER

816 **1921. 50 Cents. The rarest issued by Canada.** 50-75 known, mostly well-circulated. 5 **Unc.** and 3 Specimen examples are known, one Specimen impounded in an institute. **This is a Specimen showing the slightest mishandling, possibly the finest known. Ex Spinks. (Photo) ($——)**
Charlton prices Specimen (actually Matte Proof) at $30,000; Unc. at $22,000. Even XF is catalogued at $15,000, reflecting the low grades in which almost all circulated pieces are found.
The Unc. McKay-Clements coins was acutioned (TOREX, Ma-1976) for $22,500, to a U.S. dealer who subsequently offered the piece for $47,500. A Specimen has been offered within the last year by a Toronto dealer, for a price over $40,000. The highest price yet recorded was $31,000 for a Specimen, sold in 1975.
Over 200,000 1921 50 cents pieces were coined, but as there was no commercial demand for them, they sat in storage until 1929. In that year, it was decided that the demand for halves should not be met by releasing fresh, uncirculated 1920 and 1921-dated coins. Thus most 1920 and **virtually all 1921 Half Dollars were melted** and coined into 1929-dated coins.
It is surprising that the rarest coin of a major Western nation, with a strong market in the U.S., can be had so cheaply. Although dealers offering examples of this date for $40,000 have probably weakened the price (by making collectors feel manipulated), it is nonetheless true that comparable rarities bring even higher prices. We feel that Charlton's price of $30,000 accurately reflects the current market for this major rarity. The piece being auctioned represents a prime opportunity to acquire "the King" in its ultimate condition at a fair and **competitive** market price. In all probability, this will be the last choice example to reach the auction block for at least several years.

EXTREMELY RARE 1916-C SOVEREIGN

841A **1916-C. Sovereign. AU-50. (Photo)** (——)

Attractive reddish-gold toning over most of the surface with hints of green around the peripheries. Numerous minor contact marks, most noticeable on St. George's chest and the horse's neck. Nearly full mint lustre. The 1916-C Sovereign is one of the greatest rarities in Canadian numismatics, exceeding even the 1921 Fifty Cents. According to the most generally accepted estimates, **fewer than ten specimens survive.** This piece, which bears ANACS Certificate Number E-1773-B (4/17/78), is, to the best of our knowledge, the first to appear at public auction since the Unc-60 specimen sold as Lot 445 in Paramount's Grand Central Sale, November, 1975 (which realized a price of $14,500!). The diagnostic polishing marks on the reverse (between St. George's legs and the wing of the dragon) are quite clear; obverse die-polishing marks are most clear within the first "G" of Georgius and above "OMN." A magnificent opportunity for the Canadian specialist! **Bidding will commence at $6,000.**

The use of this type of coin (originally produced and used in the Persian Gulf area and taking its name from the town of Lar) had spread to the eastern seaboard of India and to the Maldive Islands and became one of the chief trading currencies in the Indian Ocean region.

887 **1802. 1/48 Rix Dollar.** As last. **A Proof in lead.** Pridmore 83B. **Doubtless extremely rare. (Photo)** **(——)**
The obverse has been marked into squares (eight across) with an engraver's tool (as was the piece Pridmore cites as #83B). Usually such hand-treated pieces are **unique.** Very light surface pitting, otherwise choice mint state. 12.88gms.

888 **1802. 1/48 Rix Dollar.** As last. Bronzed **Proof.** Pr. 83A, Cr. 27. Slight handling. Krause $140. **($100-Up)**

THE VERY RARE 1815 RIX DOLLAR

890 **1815. Rix Dollar.** Pridmore 81. Formerly Cr. 35. **Nice Proof. (Photo)** **($400-Up)**
Bust of George III/elephant in wreath. Craig now terms this an **"extremely rare pattern".** Pridmore, however, unequivocally states the piece is a **proof, not a pattern,** of a type not struck for circulation only due to production problems. The piece is in brilliant iridescent colors, mostly blue, red and gold. Our estimate is based on Krause's price. Krause prices a number of late 19th-early 20th century proofs at $300-400; we feel this historic George III coinage is severely underrated in comparison

891 **1815. 2 Stivers.** Cr. 30, Pr. 90. **BU!** **($65-Up)**
Draped, laureate George III bust/elephant. **Full mint red.** A small patch of darker tone on the chin, and two other tiny spots. **Amazing in this condition.**

892 **1821. Rix Dollar.** Pr. 82A, Cr. 38. **Proof. (Photo) ($200-Up)**
Similar to the 1815 Rix Dollar, but with George IV obverse by Pistrucci.

893 **1828. Half Farthing.** Cr. 37, Peck 1449, EMC 1278 (Rare). Brown **Unc.** **($75-Up)**
Laureate head of George IV, 1820-30/Brittania. Variety with Brittania's head below legend. **Scarcer.** Krause $80.

894 **1844. ½ Farthing.** Y.2. Scarce "E over N" error. Very choice **AU.** **($30-Up)**
Victoria, young head/crown over value, date, and floral ornament. Corrected error "RNGINA". Krause $55 Unc.

895 **1870. ¼ Cent.** Y.4. **Proof.** **($50-Up)**

896 **1870. Half Cent.** Y.5. **Struck in silver.** Pr. 226B. 2.71gms. **Proof. (Photo)** **($200-Up)**

UNLISTED PROOF COINS IN SILVER

897 **1890. 5, 1, ½, ¼ Cents.** Regular types **STRUCK IN SILVER.** None of these silver strikes are in Remick, Krause or Pridmore. **Choice Proofs, 4 Pcs. (Photo)** **($750-Up)**
Krause prices the **1891** Proofs (in silver) at $300, $225, $225, and $225.

898 **1890. Proof set as last, struck in the usual copper.** Nice, Red **Proofs.** **($300-Up)**
An Unc. 5 Cent of this date brought $70 in WR1, by which measure our estimate is very cautious.

PROOF-ONLY DATE

899 **1891. ¼ Cent.** Y.4. **Not issued for circulation.** Mint-red Proof. Krause $150. **(Photo)** **($125-Up)**

900 **1891. ¼ Cent.** Y.4. **Struck in Silver. Proof.** **($225-Up)**
Proof-only date. Krause prices $150 in copper, only $225 in silver. Obverse with mottled toning.

902 **1891. 1 Cent.** Y.6. **Struck in Silver. Proof.** Krause $225. **($150-Up)**

1891 PROOF SET IN SILVER

903 **1891. 5, 1, ½, ¼ Cents. Struck in silver.** Set of Choice **Proofs. 4 Pcs.** **($750-Up)**
The 5 Cents and ¼ Cent are **proof-only dates.** Krause $300, $225, $225, $225, respectively.

ANOTHER "CROWN" OF CEYLON

904 **1892. 5 Cents.** Regular type **struck in silver.** Nicely toned, virtually perfect **Proof. (Photo)** **($300-Up)**
These large silver pieces, if thought of as crowns, are the only such pieces of British Ceylon, and among the rarest crowns of all nations. Of course, the piece is not strictly a crown, but a perfect substitute for one and as such we feel that Krause valuation is too low. 22.21gms.

ANOTHER SILVER PROOF

905 **1895. ½ Cent.** Regular type, **struck in silver. Choice Proof.** **($200-Up)**

ONE OF SIX KNOWN PIECES

908 **1943. 50 Cents.** Y. 33 (silver). Struck in nickel-brass with a security edge. One of six of this date and type. **Proof. (Photo)** **(——)**

Crowned head of George VI/"CEYLON" on banner, tree divides "5-0", Tamil and Sinhalese legends at sides. Red and brown toning. The listing in Krause is erroneous; the regular issue in nickel-brass is of a different type. Remick $150 (1970). Surely worth at least twice as much today, as proof-only dates in other Ceylon series are bringing $200-400.

909 **1945. 1 Cent.** Y. 26. **Choice Brilliant Proof.** **($25-Up)**

910 **1951. 2, 10, 25, 50 Cents.** Y. 34, 36-38. **Choice Brilliant Proofs,** probably restrikes. **4 Pcs.** **($25-Up)**

RARE ISSUE

911 **1784-So/DA. 8 Reales.** Cr. 24. **Rare!-VG. (Photo)** **($200-Up)**

Carlos III. But/arms. CC 13,300 (49,000 Pesetas), Vicenti 1022 ($60,000 Pesetas). Craig prices at $600 in F-VF. This piece shows faint filing on the rims, indicating the coin was in a jewelry holder. Cleaned, now retoned. It remains a decent piece (the consignor marked his envelope "Fine") and a rare opportunity for the collector of less-than-unlimited wealth.

AN UNUSUAL ERROR OVERDATE

919 **1817 over 1818. Gold 8 Escudos.** Fr. 29, Cr. 72. **Unpublished. Possibly Extremely Rare. VF-XF. (Photo)** **(——)**

Fernando VII, 1808-17. Military bust/crowned and gartered arms. Assayer F.J. Centers weak, planchet laminations on reverse.

The Chilean republic was established before the end of 1817, and three varieties of 1817 Pesos were struck with republican dies. A silver quartilla of colonial type was struck with the date 1818, by the Republican government. The dies for this coin may have been prepared in 1817 by a careless colonial engraver, or, perhaps, in 1818 by a Republican engraver, who then felt a colonial type should not bear a post-independence date and proceeded to back-date the die. As 8 Escudos of republican type were first coined in 1818, it seems certain that this coin must have been struck in 1817 or 1818.

The overdate is very obvious. The fact that it has not been published before now makes us suspect it is very rare. Perhaps these dies were in use only briefly, and discarded as soon as republican dies were finished.

Indian leaning on column/shield of arms on cartouche, half-wreath around bottom. Assayer "JB" retired in 1855; no ½ Escudos were struck from 1856 to 1864, in which year the denomination was replaced by the Peso. This piece is actually a mule of the ½ Escudo obverse and 1 Peso obverse, although not distinguisable from the regular ½ Escudo pieces. Weak centers.

By act of July 1, 1944, certain coins were withdrawn from circulation and re-issued as a holed coinage for those in leper colonies and tuberculosis. The coins are 25 and 50 Centimos and 1 Colon 1935, and 5 Centimos 1942. They are holed at top obverse (5c-4mm hole; 25c-6mm, 50c-7mm, Colon-9mm). **Coins grade better than VF.**
These are obviously rare, and we have not seen any other pieces offered. With Panama Leprosarium tokens bringing better than $50 each, we feel our estimate is reasonable.

CURACAO

1018 **(1818). 3 Stuivers.** Dutch administration. **1/5 segment of a Carlos IIII. 8 Reales.** Cr. 5, Prid. p. 252 fig. 27. Coin **VG,** stamp **Fine. (Photo)** **($50-Up)**
The segment shows the King's ordinal, the cstp is a "3" within a raised circle. Mintage 77,560 pieces. Much scarcer than the unofficial pieces with "3 in serrated circle," Cr. 5a

1019 **1821. Reaal** Cr. 9. **Unc. (Photo)** **($500-Up)**
Crossed caduceus and plant, "CURACAO" above and date below/value in wreath. Obverse has even, multicolored toning, the reverse is lustrous with light gold and turquoise toning. Krause $300 in XF, a price by now outdated. Byrne sale had six examples, the best only XF+. **This choice example could set a record.**

1020 **1822. Stuiver.** Cr. 8. Choice **Unc. (Photo)** **($275-Up)**
"CURACAO" over date/value. Slight greenish cast from the quality of silver used, otherwise the obverse is fully brilliant and the reverse nearly so. Byrne sale had four examples, the best XF+. We know of private sales of well over $200, and have seen an XF offered for $195. This, too, could set a record, because it is a premium uncirculated coin. .65gms.

1021 **(1838). 25 Cents.** Cr. 7. Rare. **XF. (Photo)** **(——)**
Script "C" (in depressed oval) cstp on ¼-cut of an 1829 Dutch Gulden. Mintage 24,000 (6000 Gulden). **Craig $400 Fine; Krause $700 VG, $1500 Fine, $2250 VF.** This example is an XF stamp on VG-F segment. Certainly worth a premium for being the quarter-segment with the date.

1022 **(1838) As last.** Cut segment **Good** or better, stamp sharp but encrusted. Upper left obverse section. **(Photo) ($500-Up)**

CYPRUS

1024 **1879. ¼ Piastre.** Y. 1. **Magnificent Proof. (Photo) ($200-Up)**
Red to fully brilliant. The portrait is a deeper red color and has a matte appearance, giving it a dimension apart from the brilliant field. Minutest spotting, but the coin is still in the connoisseur's class.

1025 **1879. ½ Piastre.** Y. 2. **Beautiful Proof.** **($200-Up)**
Obverse in nearly full brilliance. Reverse multicolored. Minutest spotting, otherwise the coin approaches perfection.

1026 **1879. 1 Piastre.** Y. 3.1 (thin "1" variety). Reddish-Brown **Proof.** **($200-Up)**
Unmarked but slightly dull surfaces. Tiny, almost unnoticeable spot in hair.

1028 **1881. 1 Piastre.** Y. 3.2 (thick "1" rariety). **Choice Proof. (Photo)** **($300-Up)**
This subtype with thick "1" on reverse was introduced this year, but no such Royal Mint strikings were issued for currency. A proof in WR1 brought $525. Obverse is golden reddish-brown, reverse is a lovely bronze color.

1029 **1882-H. 1 Piastre.** Y. 3.2. **Rare date. Choice BU. (Photo)** **($300-Up)**
Full, original mint color, the **reverse prooflike.** No need to estimate this one.

Lot 1034

CZECHOSLOVAKIA

JUDAICA

1034 **ND (Early 17th Cent.) Judenmedaille from Prague. 52mm. Gold, 21.96 grams.** Cast and chased. **F-VF. (Photo) (——)**
Crowned and draped bust left of Elizabeth of Hungary who died in 1232/twin-spired church. **These medals, produced by the great Jewish goldsmiths of** Prague, were cast and chased (that is, sharpened up and polished) to seem far older than their actual date of manufacture. All are rather rare; this is perhaps the only type in gold encountered in normal sales. There is evidence that a loop was removed at 12:00, as so often happens. (See Photo on previous page.)

JUDAICA

1035 **ND (Early 17th Cent.) Judenmedaille from Prague. 55mm. Silver.** Cast and chased. **VF. (Photo) (——)**
Large bust right of Philip VI of France, crowned and wearing elaborate robes/bust left of his wife, Blanca, daughter of Philip of Navarre. A very interesting and unusual piece for this series, commemorating a western ruler rather than, as was more normal, one of the earlier rulers of Hungary, Poland or similar areas more local to Prague. The workmanship on the bust and robes of Philip is particularly well done.

1928-1929 COMMEMORATIVES

The following three pieces, long regarded in this country as either limited editions or patterns for gold coins, are here properly catalogued for perhaps the first time in any American auction. In addition to information available in Kurt Jaeger/ Albert Pick's "Mitteleuropäische Münzkataloge, Vol. 14 (Tschechoslowakei)," where these pieces are listed (p.17) as "Medaillen, in Silber und Gold," a further reference was uncovered in late 1977 after years of inattention: a brief, but illustrated, notice in the March, 1930, issue of The Numismatist, page 158, which supplies about as much information as one would need to establish the background of these pieces. The following comments refer to Friedberg #6, 6a, 7, 8, 9, and 10 as well as the other two pieces included here.

All the 1929 issues, standing figure with banner/St. Wenzeslaus on horse (or arms, on smallest size), were private issues by the Gold Mining Company of Roudny, near Prague, struck from the Company's own gold and silver at the Kremnica Mint. They were designed by Prof. O. Spaniel. All of these have the fineness and the "K" of the Mint stamped in, not part of the die design. None carry any denomination. The 1928 issues, known in 2 and 4 Ducat size in gold as well as the silver type here (5-Ducat size), are listed in the same category of medals by Jaeger; they also show lack of denomination, and have the fineness and "K" punched in; and they were also designed by O. Spaniel. The sizes known are: for 1928: 5-Ducat in silver, 4-Ducat and 2-Ducat in gold; for 1929: 5-Ducat, 3-Ducat, and 1-Ducat in gold, 10-Ducat and 4-Ducat in silver. All pieces were struck in the weight they would have had if they had been gold on the ducat standard - the silver pieces are noticeably thicker than the gold in order to reach the proper weight.

1036 **1928. 5-Ducat Size, in silver. Rare. Unc. (Photo) ($200-Up)**
Medallic issue on the 10th Anniversary of Independence. Design similar to Fr. 7, 4 Ducats: Christ plowing a field, Devil hitched to the plow. Ex-Lewis Coll. (Paramount, 7/9/77) ($200.) By O. Spaniel, probably produced for the Gold Mining Company of Roudny. Ex Webb Auction 8/9/41.

1037 **1929. 4-Ducat Size, in Silver. Rare. Unc. (Photo) ($250-Up)**
Medallic issue on the 1000th Anniversary of the death of St. Wenzeslaus. Design similar to the 5, 3, and 1 Ducat gold issues, Fr. 8-10: the Saint standing with a banner/the Saint on horseback, flanked by two angels. By O. Spaniel, produced for the Gold Mining Company of Roudny by the Kremnica Mint. Ex-Lewis Coll. (Paramount 7/9/77) ($250.); Ex Webb Auction 8/9/41.

1038 **1929. 10-Ducat Size, in Silver. Rare. Unc. (Photo) ($250-Up)**
Medallic issue, on same event as the last. Design similar to Fr. 8-10, as last. By O. Spaniel, produced for the Gold Mining Company of Roudny by the Kremnica Mint. Crown - size (40mm.), one of the loveliest designs of the Century. Like the preceding two lots, this piece shows exceptional toning. Ex Bauer Auction 3/1/41.

1039 **1968. 50 Korun Silver Crown.** Y. 78. **BU.** **($30-Up)**

1040 **1968. 50 Korun Silver.** Y. 78. **Proof.** **($50-Up)**

DANISH WEST INDIES

THE RARE DANISH WEST INDIES CROWN

1041 **1849-59. Crowned FR7 monogram on Peru 1837-La/TM 8 Reales.** Cr. 26 ($750). Coin **Fine,** stamp **Good/VF** or better. **(Photo)** **($500-Up)**
We are not aware that this countermark has previously been reported on a Peruvian crown. Very much underrated, as the prices in the Byrne sale were lackluster. Most of the available **genuine** examples of this series appear to have been in Mr. Byrne's hands, which may have prevented the development of an active market for these rare coins.

1042 **1878. 1879. Two 10 Cents Silver. 2 Pcs.** **($70-Up)**
The 1878 is a choice gold and violet toned AU; the 1879 is Unc. with light golden tan toning.

DOMINICA

1063 **(1761-64). 1 Bit. Heart-shaped piercing in Spanish Real of Philip V.** Cr. 2 ("rare"). Pridmore 4, Not in Byrne. Coin **AG,** dateless; piercing is very neat. **(Photo)** **($200-Up)**
V. Guilloteau and others attribute this to Martinique; Pridmore's research is more recent and based on documentation, not past attributions. Craig prices the commonest of these heart-shaped pierced coins at $100, following the results in the Bryne sale. This rarer denomination should sell much higher.

1064 **(1798). "Moco" or 1½ Bits. Cstpd center plug from a 8 Reales.** Cr. 21, Prid. 22. **VF+. (Photo)** **($——)**
The plug has 15 edge crenations. The stamp is a script "D" with a star inside, surrounded by 16 droplets. A different die from Pridmore's plate, but of the same style and believed to be genuine.

1065 **(1813). 6 Bits. "Crowned 6" cstp on 22mm center plug of an 8 Reales.** Cr. 28, Pr. 27. Plug **VF,** stamp **XF.** **($75-Up)**
One of several genuine dies (all made with the identical "6" punch). The plug has light scratches from its manufacture, the stamp is weak at top. Craig $50. Christensen, 4/7/78, estimates a poorer piece at ($75-100).

Nice red, brown and iridescent toning. The counterstamp is not mentioned in Remick. No distortion on the reverse, but we are not sure the counterstamp was applied while the piece was in the die.

1072 **1949. Shilling.** Y.36. **Choice Brilliant Proof. Unpublished. (Photo)** **($200-Up)**

1076 **1956. 10 Cents.** Y.39. **Choice Brilliant Proof. Unpublished. (Photo)** **($200-Up)**
One-year type. Three other denominations were issued under Elizabeth II, and all three were struck in Proof in the first year of issue (1c, 1954, 5c 1955, and 25c 1954.) This Proof is probably **excessively rare,** to have escaped notice for so long. Wayte Raymond priced this at $20 even though it was (then) newly struck.

ETHIOPIA

A CHOICE, ORIGINAL PROOF SET

1099 **EE1887** (AD1894). **Proof Set, ⅛, ¼, ½, 1 Talari.** Y.6-9. Plus **Choice BU** 1/100 Talari (copper), Y.1., dated EE1889. All with Paris mintmark. **Choice condition. (Photo) ($1,000-Up)**

The four piece silver proof set is listed in Krause (unpriced). The silver pieces all portray Menelik II, 1889-1913, on obverse, wearing his stunning crown. The reverses show the lion of Judah with banner. Design by LaGrange. Iridescent, matched toning. The copper has a similar obverse, with a reverse inscription. It has a few tiny spots.

We have seldom noted proofs being offered, and never a complete set. An inspection makes it obvious that this is an original, not pieced-together, set. The Talari alone should be worth our estimate.

1100 **EE1889 (A.D. 1897). 1/16 Talari.** Y.18. **Rarest type of the Country. F-VF. ($75-Up)**

Krause $90 in Fine. Actually rarer than the catalog suggests.

1101 **EE1889 (A.D.). ¼ Talari (= Rub).** Y.19. Scarce. **AVF** (3), **VF+** (1). **4 Pcs. ($100-Up)**

Bust of Menelik II/lion with right foreleg raised. Krause $35 VF.

1104 **EE1895 (A.D. 1903). Talari (or Bir).** Y.10. **BU. ($150-Up)**

Menelik II, 1889-1913. Design by J. C. Chaplain. Somewhat bagmarked. Scarce in Unc.

GOLD MEDAL OF ETHIOPIA

1105 **EE1917 (=AD1925). Gold medal.** 31mm, 17.13gms. Doubtless **quite rare. Fine+. (Photo) ($300-Up)**

Facing, unidentified royal bust, date (in Ethiopian Era) over left shoulder/Ethiopian inscription. Slightly crude, no doubt made in Ethiopia. We canot decipher the legend. Any medal of this nature must be quite rare. A prize for the African specialist.

RARE GOLD CORONATION MEDAL

1106 **1930. Hailie Salassie Coronation Medal. 40mm Gold, 44.37 grams. Unc. (Photo) ($500-Up)**

Magnificent half-length bust three-quarters left of Hailie Selassie in full robes and the Ethiopian crown/mantled arms of Ethiopia (two angels flanking altar with Star of David, Lion of Judah below). The only significant mark on this lovely piece is a shallow gouge in the reverse field to the left of the crown. Greenish-gold toning on both sides, very attractive. The portrait is triple-struck, as are some of the letters in obverse and reverse inscriptions. A very rare coronation piece, of interest and importance.

RARE PROOF SET OF 5 HAILE SELASSIE GOLD COINS

1107 **1966. Proof set of 5 gold coins marking the 75th birthday of Emperor Haile Selassie: 10, 20, 50, 100 and 200 Ethiopian dollars** . . . weight in grams, 4, 8, 20, 40 and 80, respectively. (.900 fine gold) **Approximately 5 ounces of bullion. ($1,000-Up)**

Bust of Hailie Selassie, inscriptions/Crowned Lion of Judah, value of coin in Amharic characters, etc. Issue limited to 12,000 complete sets. In original green leatherette and green plush inscribed presentation case. Also included is descriptive literature. A very handsome set. Lists at $2200 in Krause.

George VI, bust/turtle. Ticket notation: "? 12 Known-RRRR". Krause $100, which is only about double the Unc. price. Should sell well over estimate, perhaps $200-300. Ex-Seaby, 1959, £8½.

UNPUBLISHED PROOF

1109 **1955. Penny.** Y.22. **Choice Brilliant Proof. Unpublished. (Photo)** **($150-Up)**
Raymond made a notation on the envelope **"Less than 10 specimens struck. $35".** Since this date is not the first year of a type, it is probably extremely rare.

RARE PROOF

1118 **1892. Markka.** Y.6. **A very rare Proof,** and extremely choice. **(Photo)** **(——)**
Russian eagle/value in wreath. Some numismatists dispute the existence of Finnish proofs, but we cannot describe this piece otherwise. Full proof fields with contrasting relief. No contact marks. Magnificent toning. **The obverse is perfect in every respect;** the reverse shows a few tiny surface imperfections in the planchet, faintly observable in the struck product. **Obviously one of the finest Finnish coins in existence; what this piece might realize is any one's guess.**

RARE TROYES MINT ½ ECU

1141 **1713/2-V. ½ Ecu.** Rare year and mint. **VF-XF. (Photo)** **($200-Up)**
Louis XIIII, aged bust/three crowns around mintmark. V-Troyes. Fairly considerable obverse porousity.
With the exception of a few late coppers, all coins of Troyes are very scarce. Coins of the later years of this type (1709-15) are rare (excepting certain Paris mint issues.) Sobin could only trace one Ecu of this mint after 1710 (it brought $450 in VF in the sale of his collection). No 1712-V Ecu has been reported; 1713-V is unconfirmed. Date mint studies of French silver fractional Ecu's are in their infancy, this type was overstruck in 1716-18. Indeed, without extensive research, it would be difficult to disprove the uniqueness of this coin.

1142 **1721. Silver jetton.** 31mm. **AU.** **($30-Up)**
Facing busts of the royal couple (still only children in 1721)/Vine growing around a tree, "IN PUBLICA COMMODA CRESCENT." Light, thin scratch in reverse field. By I.B. (Jean Bernard?).

Young bust of Louis XV/crowned arms in laurel wreath. Very light obverse scratch. Hardly any planchet adjustments.

1145 **1738-A. Ecu.** Cr. 42, Sobin type 21. **Fine.** **($75-Up)**
Childish bust of Louis XV/crowned arms in laurel wreath. A small edge nick at 8:30 reverse, with a few other tiny edge nicks.
Sobin R3 as a date. However, this piece has the "fox and lozenge" different of Matthieu Renard de Petiton, who became Mint Director in this year. Sobin did not have this year with the new different. First semestre, probably extremely rare. No adjustment marks.

1146 **1741-H. Ecu.** Cr. 47, Sobin 22. Very Rare date. **VG-F.** **($60-Up)**
The "Ecu au Bandeau". Mature bust of Louis XV/crowned arms in laurel wreath. This date was lacking in the Sobin collection. Sobin knew only one example of this; we do not know if this is the same piece or not. Only the faintest adjustment, but very weak in reverse center.

1147 **ND (circa 1750.)** Laureate bust of Louis XV (1715-74). **Medal.** 32mm. Bronze. **F-VF.** **($30-Up)**

Louis XV, mature head/crowned, oval arms in wreath. Light adjustment marks. Nicely toned, but with a small spot on both obverse and reverse. The Sobin sale had only a Fine of this date. The "B" is cut over a smaller "B"

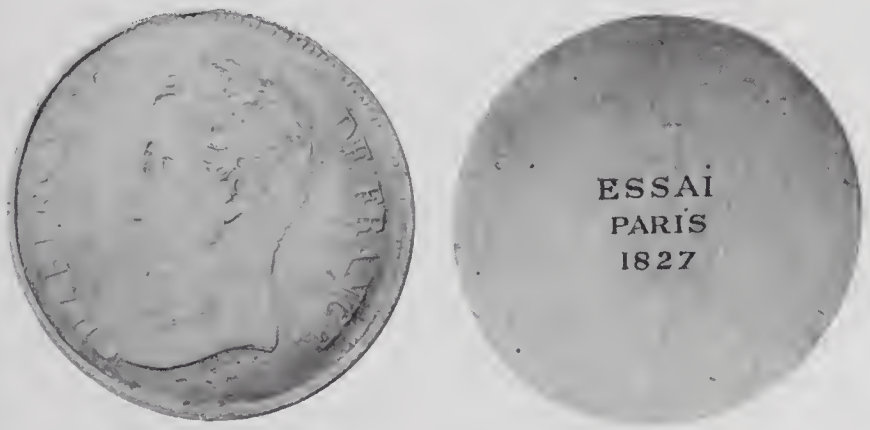
EXTREMELY RARE GOLD TRIAL



1176 **(1827). 5 Francs** of Charels X. **Gold striking from the regular obverse die.** Not in VG. Likely **unique. (Photo)** **($2,000-Up)**
The reverse is blank, engraved "ESSAI/PARIS/1827" in the center. Plain edge. The piece has been flattened out to 39mm (before reverse engraving), distorting the obverse considerably. 29.30gms.
The practice of striking 5 Francs in gold was extremely limited. In 1827, France had not yet issued gold coins above the 40 Franc value. In 1830 gold 100 Franc patterns were struck. Whether this is simply a gold off-metal striking, or related to later experiments with large denomination gold coinage, is a question that should tickle the specialists.

1177 **1828-B. 5 Francs.** Cr. 189. **VF.** **($25-Up)**

1194 **1867. 5/DOLLARS/25 FRANCS.** International Monetary essay of the Paris mint. VG3703. **Quite Rare. Proof. (Photo)** **($2,500-Up)**
Bust of Napoleon III (by Barre) in plain field/inscr. Unusual in two respects: 1) The metal "gold" ("OR") is an important part of the legend; and 2) it is one of very few international monetary patterns issued by a real government.
VG prices this at 30,000 Francs (in 1942). By comparison, a pattern Louis d'Or, 1774, has the same price and a few extremely rare U.S. colonials are priced higher. The only other comparable prices are for crown-sized pieces of gold.

YEOMAN PLATE COIN

Design as Y.2 (1885-94) except "UN CENTIEME DE PIASTRE" replaces "REPUBLIQUE FRANCAISE. Even brown color with purple overtones. Krause $150, but this coin is so nice and appears on so many want lists that we expect higher bidding.

GERMAN EAST AFRICA

1211 **1891. ½ Rupie.** Silver. Y.3. Choice toned **AU.** **($25-Up)**
Helmeted bust of Wilhelm II/Arms. Brilliant rainbow toning.

1212 **N.D. (1890's). Pattern 2 Rupien. Uniface.** 39mm, white metal. **Not in Remick.** Ex-Ferrari, Brand. **Proof. (Photo)** **($500-Up)**
Same design as the regular issue obverse (Y.5), "E.W." on truncation of bust. A bit large for a 2 Rupien; possibly made at a time when a 5-Mark coin for German East Africa was being considered.
Remick lists five patterns for GEA, three being silver types dated 1890. All patterns are termed "rare" and are unpriced. Krause prices the 2 Rupien type at $625 Unc. and $1200 Proof. This piece has some marks, mostly in the fileds and on the rim. Most of these are nicks and scratches in the blank which showed through after striking. The piece is fully brilliant and unspotted. Given the rarity of this pattern and the market for regular issue GEA coins, we feel this piece is undervalued at our estimate.

1213 **1893. 2 Rupien.** Silver. Y.9. **VF/XF.** **($100-Up)**
Helmeted Kaiser Wilhelm II/Arms. Extremely Scarce.

Ernst August, 1679-98. Crowned script "EA" monogram in wreath, all within a wreath on which are 15 shields of arms/arm from clouds placing wreath on springing horse, all over a mining scene. Edge knock at bottom reverse.
Commoner 2 Thalers of this reign have brought $1500 in recent auctions (Davenport's price for a triple is almost three times his price for a 2 Thaler: $125-$450.) This attractive piece, sharply and evenly struck, should bring an excellent price.

A CHOICE TRIPLE THALER

1289 **1612. 3 Thalers.** Dav. 31, Duve 4. **XF. (Photo)** **($2,000-Up)**
Heinrich Julius, 1589-1613. Mounted ruler/arms surmounted by five helmets and Brunswick horse. A bit weak in the lower portions. The obverse fields show signs of a former light polishing, but the obverse is quite attractive and about the same color as the reverse, which is choice in every respect. Very slight obverse double-striking.
A specimen brought DM5000 in a Frankfurt auction in March, 1976 (plus 15%). We expect this piece will bring more, in today's market.

A RARE DOUBLE LOESERTHALER

1295 **1660. 2 Thaler.** 62mm. Dav. 72, Duve 5. **VF.** **(Photo)** **($500-Up)**

August the Younger, 1635-66. Mounted king/arms. Has been cleaned and the whole surface has extremely light scratches. It is probable that there was a tiny hole at 12:00 obverse, and that the coin has been plugged. If so, this has been done with exceptional skill; while some repair is noticeable, it is difficult to say if the coin were holed or damaged in a lesser way. 115.37gms.

The similar (but somewhat commoner) 2-Thaler of 1655 brought DM1600 (& 15%) in VF, light mountmarks, in a Hamburg auction, May '76.

1296 **1664. Thaler.** Dav. 6341. **Fine,** trace of mount. Iridescent toning. **($100-Up)**

QUADRUPLE THALER

1297 **1666. 4 Thalers.** 86-87mm. Dav. 84, Duve 8-A-1. **VF-XF.** **(Photo)** **($1,500-Up)**

August the Younger, 1635-66. On his 88th birthday. Third-length bust being crowned and laureated by two women/horse over helmet. inscr. around, all within wreath with 14 shields; date at top, H-S (Henning Schluter) and cstpd "4" at bottom. Opposite the cstp are the letters "BR", raised. This proves that the stamp was applied while the coin lay on the obverse die; in this case, the coin rotated about 80 degrees between striking and counter-stamping.

The coin shows smoothing of the edges at top and bottom. The rims are unaffected. The reverse shows some extremely light tooling. There is also a small area of repair on obverse, possibly to remove scratches. 58.83gms. Lovely green, red, blue and gold toning. A 2-Thaler for the same occasion, in the same grade but undamaged, brought DM3700 (& 15%) at a German auction in 1976. The 4-Thaler should be worth twice as much or more

GOLD COAST

AN EXCEPTIONAL OFFERING OF GOLD COAST PROOFS INCLUDING THE EXTREMELY RARE GILT PROOFS OF 1796

1662 **1796. 1 Ackey. Silver.** Cr. 4 ($800, XF). **Proof. (Photo)** **($1,000-Up)**
Gold Coast arms (cornucopia and beehive over galleon, all minutely engraved) supported by two native warriors, elephant atop/GR (script) monogram (for George III), crowned and within a wreath. Plain edge. **Obverse spelling error PARLIMENT.** Faint reverse scratching, now hidden beneath the nice gold, blue and grey toning, and thus only noticeable if the coin is hand held and scrutinized.

1663 **1796. 1 Ackey.** As last, **correct spelling PARLIAMENT. Bronzed Proof,** almost perfect. **(Photo)** **($400-Up)**
Worth an especially good bid because of the superb condition.

1664 **1796. ½ Ackey. Silver.** Cr. 3 **Choice Proof. (Photo)** **($600-Up)**
Type similar to the 1796 1 Ackey, only arms unsupported. **Error spelling PARLIMENT.** Lovely golden and blue-grey toning, changing from individual colors to uniform turquoise as the coin is turned. The raised parts of the design are matte and thus stand out from the reflective fields. Krause $600, which is the same as the Unc. price. Remick $325 in 1970-prices are about three times higher, now.

1665 **1796. ½ Ackey. Silver.** As last. **VF,** fairly small edge cut at 2:00 reverse. **($200-Up)**

1666 **1796. Takoe (= ⅛ Ackey). Silver.** Cr. 1 ($160, XF). **Nice Proof. (Photo)** **($200-Up)**

A PROOF IN ORIGINAL METAL CASEMENT

1667 **1796. Takoe, as above but a bronzed Proof.** Virtually perfect. In copper casing, as described below. **(Photo)** **($400-Up)**
The casing consists of two round copper fittings with silver-plated interiors. One is hand engraved "African 1 Takoe 1796" (script) in three lines. Craig and Krause use the seemingly erroneous spelling, "Tackoe".

1668 **1796. ¼ Ackey.** Cr. 2 ($240, XF). **AU.** **($250-Up)**
Similar to last. Error spelling, "PARLIMENT".

1669 **1796, As last,** corrected spelling "PARLIAMENT". Choice, prooflike **AU. (Photo)** **($300-Up)**

GILT PROOF SPECIMENS OF THE 1 ACKEY, ¼ ACKEY, AND TAKOE

All extremely rare coins. Remick writes:
"Gilt proof specimens have been reported by Parsons for some of the 1796 coinage, but I have not seen any of the specimens."
All are spelled PARLIAMENT and appear to be from the same dies as bronzed proofs. Being much rarer than the silver proofs, it is possible they will sell for more.

1670 **1796. 1 Ackey.** Cr. 4. **Gilt Proof. Extremely Rare. (Photo)** **($500-Up)**

1671 **1796. ¼ Ackey.** Cr. 2. **Gilt Proof. Extremely Rare. (Photo)** **($400-Up)**

Shield in looped frame within circle/cross, leopards in angles, lis in center, small piece missing (clipped?) from flan at 5:00 obverse. An excellent specimen of one of the early gold issues from England. Perhaps bent and straightened. Deep yellow-gold toning, very attractive.

Half-length bust turned half-right, sword on right shoulder, left hand extended/cross with three pellets in each angle. "PRINCEPS AQITAN." Well-centered, though planchet is a bit small for the dies resulting in loss of top parts of letters in outer reverse legend from 3:00 to 8:00. Slight striking weakness at 3:00 obverse. An excellent specimen of this rare issue for the lands the English Kings claimed in southern France as hereditary possessions from Eleanor of Aquitaine.

1689 **1369-1377.** Edward III, Post Treaty. **Groat.** London Mint. **VF+,** flan chips and cracks but well centered. Nice toning. **($40-Up)**

King in ship with "E" in banner/rose with crowns and lis at points, large fleurs in spandrils of arches around. Planchet a bit wavy with one or two cracks near edges, as often happens with these broad, thin gold pieces. Rich yellow-gold color, a fine specimen of this rather brief issue, or as a type of the early Rose Noble.

1693 **1485-1509.** Henry VII. **Angel,** Type III, S.2183. **F-VF,** rare. **(Photo)** **($300-Up)**
Angel with both feet on dragon/"Per Cruce . . ." around ship bearing shield. Even wear, traces of some reddish-brown substance around parts of design. Reverse very slightly offcenter toward 2:00. A rare issue of an interesting design, well preserved with all elements clear.

(1) Groat, young crowned bust right/shield quartered by cross. Centers a bit weak but well centered. Flan chip at 9:00. (2) Half Groat, similar types. Strong portrait, some weaknesses on rims. Obverse somewhat offcentered toward 12:00, reverse toward 3:00. One of the nicest young portrait types we have handled in quite a while.

Crowned bust of Mary 1 facing left/Shield over long cross. Planchet slightly bent, a common phenomenon of coin production in this era. Not too strong a strike, monarch's face a bit weak. Tops of some letters slightly off flan. A very rare coin of this monarch who ruled in her own name for less than two years. Almost impossible to find these silver pcs. in better condition.

Different bust from last lot, beard drawn in tighter to armor and decorations on armor much fancier. One planchet nick at 12:00 and slight striking weakness on a few spots, but otherwise exceptionally fine. An excellent type piece, finely modelled with a rich golden toning.

1709 **1604-1619.** James I, **Unite,** Second Coinage, S.2618, mm. thistle. **F-VF,** rare. **(Photo)** **($250-Up)**
Yet another bust type, this one with a club-shaped beard and medium-fancy armor decorations. Evenly worn, rich yellow-gold toning, a few spots of striking weakness, as is usual with these pieces. An attractive type piece.

1710 **1619-1625.** James I. **Laurel,** Third Coinage, S.2637, mm. thistle. **VF+-EF,** very rare. **(Photo)** **($500-Up)**
Finely modelled bust left, laureate (hence the name of the denomination)/shield on elaborate cross, crown above. Double-cross shaped scratches in obverse field before chin, sriking weakness in same area and on corresponding part of reverse, otherwise excellent. Deep gold, bordering on orange, around legends, lighter in centers, producing a most handsome two-toned appearance. An outstanding specimen of a rare type.

1711 **1619-1625.** James I, **Laurel,** Third Coinage, S.2637, mm. lis. **VF,** rare. **(Photo)** **($450-Up)**
Different bust, large but somewhat less finely modelled than last. Striking weakness across face, though features are visible. Doublestruck with slight shift on both sides. Nice deep yellow toning, with a bit of brown substance on upper reverse. Still an attractive and desirable specimen of this rare issue.

EMC notes "R7 as a proof" but this presumably refers to bronzed specimens. Remick priced proofs of this year twice as high as most other years. A choice piece, virtually full brilliance with just a bit of red-orange-gold toning. 5.87gms.

1827 **1875. Shilling.** Die 38. Y. 6. **XF,** beautifully toned. **($20-Up)**

Unpublished as a proof. Tiny spotting, tiny laminiation on hair and at 9:00 reverse. Virtually full brilliance. **May be unique.** Krause prices "common" proofs at $175-up; the R6 1878 catalogs at $300; by extrapolation this should be worth $750-1000.

1965 BRITISH PENNY STRUCK IN GOLD

1861 **1965. Penny. Struck in gold. Unc.,** partly weak strike. **(Photo) (——)**
18.23gms. Regular dies. **Definitely a mint product.** It is thought one other may exist.
We would put this in the category of the many 19th Century mint products that were made for collectors (such as restrike 1804 Dollars). Being an extremely rare gold coin, we expect high bidding. Doubtless it will one day be included in general conversation with other "cabinet coins" like the pennies of 1808 and 1954, although it may not achieve such esteem in its own of the most talked-about coins in the British milled series.

Churchill Memorial Medal in Gold

1862 **1965. Winston Churchill Memorial Medal. Gold. 38mm. 47.75 grams** (inscribed 22 karats on edge). **Proof. (Photo) ($250-Up)**

Railroad Rim Sovereign

1863 **1966. Sovereign** of Elizabeth II, **Unc. (——)**
Rim has normal edge reeding for parts of circumference; no reeding at all from about 5:00 to 7:00; and an increasing amount of "railroad rim" (in which the collars failed to position properly, producing a half-reeded, half raised plain edge) as one approaches 12:00. An unusual and popular mint error, very rare in gold.

1864 **1973. Set of 6 gilt medals struck to commemorate the marriage of Princess Anne to Capt. Mark Phillips.** All **BU** Prooflike. Struck by the Pobjoy Mint, Sutton-Surrey England. In plastic case of issue. **($100-Up)**

GRIQUATOWN

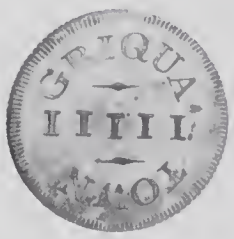
COMPLETE SET OF THE EXTREMELY RARE GRIQUATOWN COINAGE

Issued 1815-1816 by the Rev. John Campbell. The first coinage for South Africa. The only coinage ever of Christian missionaries. Struck by Halliday. Recalled after about two years' circulation and melted down. Remick writes: **"Only a very few specimens are known of the higher denominations."** The copper values were thrown away by the natives when they turned brown.

These are among the most important coins of Africa, and among the rarest coins of the Commonwealth.

1893 **N.D. (1815-16). 10 Pence. Silver. Extremely Rare.** (W1, Atkins 1, Remick T6, Krause KM #5- **Nice, rainbow-toned Proof. (Photo) ($1,000-Up)**
Raymond's **Coins of the World** priced this at $50 in ordinary condition - in 1947! Friedberg $250 (1962). This coin has not kept pace with the prices of comparable colonial rarities, probably because it is on the market so rarely. Krause $1,500, but much rarer than the price indicates, as so few are known.

1894 **(1815-16). 10 Pence.** Silver. Regular issue. Choice **XF. (Photo) ($600-Up)**
A couple tiny obverse scratches in the field, but still choice. Blue and gold toning, brilliant surfaces. Krause $900, Remick $425. Price realized in WR1 for the commoner ¼ and ½ Pennies were 2½-3 times Remick.



1895 **N.D. (1815-16). 5 Pence. Silver.** CW 2, Atkins 2, Fr. 2, Remick T5, Krause KM #4. **Proof. (Photo) ($1,000-Up)**
Light hairlines, a few contact marks, particularly under the dove.

1896 **N.D. (1815-16). Another 5 Pence. AU. (Photo) ($600-Up)**

1897 **N.D. (1815-16). ½ Penny.** CW 3, Atkins 3, Friedberg 3, Remick T4, Krause KM #2. **Brilliant Red Proof. (Photo)** **($800-Up)**

Obverse has some circular scratches (apparently defects in the planchet), as the photo reveals. Raymond's **1947** Coins of the World priced this at $25.

1898 **N.D. (1815-16). ¼ Penny.** CW 4, Fr. 4, Remic T.3, Krause KM #1. Nice **Proof. (Photo)** **($1000-Up)**

Brilliant. The obverse has some lovely, rainbow iridescence, highlighting the dove.

1899 **(1815-16) ¼ Penny,** overstruck? **(Photo)** **($150-Up)**

Bird's left wing, tail and leg visible, what seems to be a very large "VI" over it. Most of reverse legend flattened but visible.

1900 **1890. Pattern Penny.** CW 5, Remick T1. **Golden Proof. (Photo)** **($150-Up)**

Victoria, young head/dove (similar to 1815-16 types). Remick $150 in 1970!

GUADELOUPE

1901 **(1811). 20 Sous. Cstpd square plug of the Holey Dollar.** Cr. 64 ($100), Prid. 3. **VF.** **($50-Up)**

Radiate "G" stamped on 12mm square plug from the center of a 8 Reales. Twelve edge crenellations. Weight (2.55gms) is almost 1/6 short and the die varies from Pridmore's plate (larger serifs, rays thinner at ends). We consider this a good contemporary forgery.

1902 **N.D. One-eighth cut of an 8 Reales, cstpd "LB" (script) in incused, notched oval.** 2.62gms. (light). Gibbs 1522 ($60 in 1966). Stamp **XF. (Photo)** **($150-Up)**

Also in Duffield, #1071, and previously in Meil: (1910, pl. III #27). A very similar piece was catalogued by Maillet (1870) but not assigned a location. (This piece, "BJ" is notched oval, is listed in the "Not Attributed" section of Pridmore II, and estimated at £21 in the price supplement (1966)).

Previous references to this piece are for one-twelfth cuts.

GUATEMALA

1903 **1756-G/J. 4 Reales.** Cr. 12, CC11855, Vicenti 276 (50,000 Pesetas). **G-VG.** **($75-Up)**

"Pillar half dollar". A couple light scratches. Coin is very slightly bent. Good color, and in general a nice-appearing coin of a type that usually comes worn.

1904 **1795-NG/M. 2 Reales.** Silver. Cr. 45. **AU.** **($45-Up)**

Laureate bust of Charles IV/Crowned shiled. Guatemala City Mint. Nicely toned, very scarce in this high grade.

1905 **1805-NG/M. 2 Reales.** Cr. 45. **XF.** **($20-Up)**

Carlos III, 1788-1808. Bust/arms. Lightly engraved "C. Young" in reverse field.

Fernando VII, in Guatemala 1808-21. Armored bust (of Carlos IIII)/crowned Spanish arms between pillars. Could be a little better centered, but a real jewel.

1908 **1809, As last. Unc,** a bit of obverse tarnish. **($50-Up)**

1909 **1815/4-NG/M. 4 Reales.** Cr. 72. **Unlisted Overdate. VF. (Photo)** **($150-Up)**

Fernando VII, draped and laureate bust/crowned Spanish arms between pillars. One tiny edge nick 3:00 reverse. CC16,635(6000/12,000 Pesetas). Vertical bar of "4" clearly visible in loop of "5", tip of diagonal bar faint but visible.

1910 **1821-NG/M. 1 Real.** Cr. 70. **EF.** **($40-Up)**

1911 **1821-NG/M. 8 Reales.** Cr. 72. Choice **XF.** **($100-Up)**

Fernando VII. Draped, laureate bust/crowned Spanish arms between pillars. Wide planchet (39mm). Beautiful toning.

1912 **1821, As last.** Small planchet (37mm). **Abt. XF.** **($75-Up)**

1913 **1824. ¼ Real.** Cr. 91. Nice **XF.** **($15-Up)**

1914 **1824-NG/M. ½ Real.** Cr. 92 ($15, F-VF). Choice, prooflike **Unc.** **($65-Up)**

1915 **1825-NG/M. 8 Reales.** Cr. 96. Choice **XF. Rare.** **($135-Up)**

Sun streaming its rays over five mountain peaks/tree. Issue of the Central American Federation, of which Guatemala was the most important state. Obverse die bulged in a couple spots. Krause $150.

1916 **1825-NG/M. 8 Reales.** W. Raymond 11, Cr. 95 **VF+, Rare.** **($100-Up)**

Range of mountains, sun behind, "REPUBLICA DEL CENTRO DE AMERICA"/Tree in center divides value. Planchet a bit wavy as usual, nicely toned—a beautiful specimen.

1917 **1827-NG/M. 8 Reales.** Type as last, Cr. 95. **VF-XF** (Krause $150 XF). **($80-Up)**

1918 **1828-NG/M. 2 Escudos.** Fr. 28 ($750), nr. 113. **VF. (Photo)** **($100-Up)**

As a state in Central American Republic. Sun over mountain/tree. Mount mark on edge, typical jewelry-damaged surfaces.

1919 **1829-NG/M. 8 Reales.** Cr. 95. **XF** (Krause $150). **($100-Up)**

1920 **1837-NG/BA. 8 Reales.** Type as last, Cr. 95. **XF+, ($100-Up)**

1921 **1836-NG/BA. 8 Reales.** Cr. 95. **VF.** **($50-Up)**

Sun and Mountains/tree (Central American Republic issue). Bold, but slightly crude. Krause $60.

1922 **N.D. Countermarked Bolivian 8 Sueldos, 1837;/LM (Cr. 55).** Cr. 134 ($100 F-VF). Coin **VF,** weak centers, stamps probably **Unc. (Photo)** **($150-Up)**

Obverse cstpd with "Sun over mountains", reverse with "Star over bow and arrows", both in sunken, 7mm circles. There is a sunface in the star's center. The die of the obverse stamps is not very clear, although all details are present.

1923 **N.D. (1838-40). 4 Reales. Cstp on 1773 Potosi cob 4 Reales.** Cr. 123 ($150, holed). **VF** (stamp), **unholed. (Photo)** **($250-Up)**

A rare coin and still rarer unholed. The cstp is a sun, with face, emitting rays over a range of three mountains. The host coin's date is blurry, but seems certain. The "P" mintmark is not present, but the "V" assayer initial is. The rough surface of the coin gives the stamp the appearance of a couple small pits. Gibbs had 30 of the 8 Reales (Cr. 124) but only four 4 Reales (of which three were holed). His unholed specimen brought $47 12 years ago.

1924 **1841-NG/MA. 8 Reales.** Cr. 95, W. Raymond 11. **XF+,** generally a good strike, but not too strong around parts of the inscription (as usual). Nicely toned. **($125-Up)**

1936 **1830. 4 Doubles.** Y.C1, Pr. 35A. Nice Bronzed **Proof.** **($150-Up)**

Soho mint. Krause $150, probably worth more, especially this nice.

1937 **1834. 8 Doubles.** Y.D1., Pr. 1A. Bronzed **Proof. Rare. (Photo)** **($200-Up)**

Arms in wreath/value and date in wreath. Soho mint. An exceptionally fine Proof which unfortunately shows some small, recent nicks in the centers. Overall, only an average-quality Proof. Krause $200, probably worth more. The rather nice Unc. in WR1 brought $65 (Krause value only $45).

HONDURAS

1965 **1825. 2 Reales.** Cr. 25 ($160). **Seldom offered. VF. (Photo)** **($150-Up)**

Sun over mountains/tree. Reverse double-struck. An 1823 2 Reales, Cr. 14, recently sold for $2000 (holed). In the 1966 Gibbs sale, this type brought $90 and a Cr. 14 (holed) brought only $77.50. This lot could sell for multiples of estimate.

1966 **1831-T/F. 2 Reales.** Cr. 23. **VG-F.** **($25-Up)**

May have been cleaned; not too strong struck around peripheries.

1967 **1858-T. 8 Reales. Copper.** W. Raymond 1, Cr. 35. **VF,** crude. **($30-Up)**

1968 **1862. Provisional 8 Pesos.** Copper. Y.P4. **VF+.** **($50-Up)**
Arms/tree. 41mm-largest copper coin of the Americas. Dark, fine obverse scratches, a couple small or tiny edge nicks. A choice XF brought $230 in WR1 (about 4x Krause).

1969 **1870. Pattern 2 Reales.** Nickel alloy. By Tasset. Guttag 2293. **Rare.** Choice **Unc. (Photo)** **($200-Up)**

1970 **1871. 5 Centavos.** Y.5. **Very Rare. AU. (Photo) ($1,000-Up)**
Arms tree (similar to higher values of this date). Somewhat dull surfaces, small edge flaw as made. Krause $1500 XF. One of the most elusive coins for those who collect by Yeoman numbers.

THE EXTREMELY RARE GOLD PESO OF 1871

1971 **1871. Gold Peso.** Fr. 3? (priced as "RARE"), Y. 26. **VF. (Photo)** **($1,500-Up)**
Obverse: Liberty head in Phrygian cap, etc. (as on later gold). Reverse: Similar to obverse of 1871 silver coins (not struck with 5 Centavos die). Reeded edge. Heavily gilded.

The existence of this rarity had been rumored for many years, until a specialist in the U.S. turned up this "discovery specimen". Krause's valuations are absurd. The only comparably rare Honduran gold coin for which we have a record is a 20 Pesos, 1888, offered a couple years ago at $12,000, but a small 1823 silver coin of Honduras recently brought $2000 (holed!), and this coin is rarer.

1972 **1872-A. ¼ Real. Pattern (Paris mint essai). Aluminum. VG3816, Guttig 2302. Abt. XF.** **($40.-Up)**
Obverse as reverse of ¼ Real. Y. 2/reverse: "ESSAI DE MONNAIE" in three lines. One of the earliest uses of aluminum.

1973 **1888. 1 Peso.** W. Raymond 3, Y. 25a. **VF.** **($40-Up)**
Liberty standing with flag/Arms within circle of flags.

1974 **1889. 1 Peso.** Fr. 7, Harris 2. Struck at Tegucigalpa, **the Finest Known specimen of this rarity.** Total of only 2 or 3 known. **Choice Brilliant Uncirculated. (Photo)** **($1,000-Up)**
One of the truly outstanding gold pieces of the entire Central American series.

1975 **1895. Gold Peso.** Fr. 7, Y. 27. Rare (reported mintage of 43). **XF. (Photo)** **($500-Up)**
Liberty head/arms encircled by banners and flowers. Krause $500. We have heard of sales at over $800. All dates of this type are rare, and Krause's valuation is probably just a low guess. Ex-Bendanna collection.

1976 **1895. 1 Peso.** Fr. 7, Harris 2. A few tiny obv. scratches. **VF. (Photo)** **($200-Up)**
Liberty head/Arms. A great rarity, 4 or 5 pcs. known.

THE RARE 1 PESO OF 1920

1977 **1920. 1 Peso.** Fr. 7, not listed in Harris. Has been polished rather severely. **VG/Fine.** **($150-Up)**
Liberty head/Arms. Excessively rare, 2 or 3 pieces known.

HONG-KONG

UNPUBLISHED PATTERN CENT
POSSIBLY UNIQUE

1978 **1862. Royal Mint pattern for a Hong Kong Cent. Unpublished. Proof. (Photo)** **(——)**
A mule of two reverse dies, one of which was unknown to Pridmore. Pridmore did not know of any pattern cent pieces without a bust of Victoria.

One side has four Chinese characters, as on currency issues; in the center is a raised circle, within which St. George and dragon; by the border, in the "angles", are an anchor, a lion walking right, "T.G." and "R.M." (Thomas Graham Royal Mint). This is the reverse die of Pridmore 255, not previously reported in combination with any other die.

The other side also has a raised center circle, "ONE" above and "CENT" below, all within a laurel wreath, small crosses at 9:00 and 3:00, "1862" at bottom; halfway between each cross and the date is a lion, walking toward the date. This is the reverse die of Pr. 257, HOWEVER, a crown has been punched into the center of the die, creating **a die unknown to Pridmore.** (The practise of altering a die by adding a crown in the center was previously known in two instances, cf. Pridmore 262-3). This piece is a lovely proof, mostly red with some darker iridiscence, free of hairlines and spots. A couple very tiny edge imperfections are noted. A discovery piece is always hard to estimate, but bidding in the high hundreds to low thousands would not surprise us.

ANOTHER UNPUBLISHED PATTERN CENT

1979 **1862. Royal Mint Pattern Cent. Unpublished. Possibly Unique Discovery Coin. Proof. (Photo)** **(——)**
One side with Chinese characters, St. George, etc. (as reverse of Pr. 255 and as one side of previous lot). The other side has circle, crown, ONE, CENT in wreath, date at bottom, all as on one side of the previous lot. The small crosses are replaced with "T.G." and "R.M." to left and right. The lion to left of date is replaced by an anchor. Pridmore knew a die with "TG-RM", but with two lions and no crown in center (reverse of #258). He also lists a die with anchor and lion, but with crosses at 9:00 and 3:00 and no crown in center (reverse of #260). It is probable that specimens were struck from this die before the crown was sunk into the center, although such a piece is not reported. The discovery of this coin, and the previous lot, demonstrate that the Hong Kong pattern series is even more complicated than was already realized. The existence of unpublished varieties, and the suggestion that still more varieties were probably struck, underscores the rarity of the individual types. This is particularly true of these ultimate pieces, after which there was no room to add further elements to the existing pattern dies.

This proof is particularly lovely, having red, blue, tan and green toning over its gleaming surfaces. As on all such patterns we have seen, the dies are perfect. If anything, this lot should exceed the realization of the previous piece, being finer, and a more interesting variety.

1980 **N.D. (ca. 1862). Pattern 1 Cent.** Pr. 254. **Lovely Proof.** **(Photo)** **($350-Up)**

Victoria. Laureate, dressed bust (die used on obverse of English pennies)/as last. Hairline die break thru "R" of "REG" on obverse. Some very minor imperfections. Some original mint brilliance, lovely iridiscence over the balance, in all an extremely attractive coin.

1981 **N.D. (ca. 1863). Pattern Cash.** Pr. 302. Brown **Proof.** **(Photo)** **($150-Up)**

Brought $235 in WR1. Like that piece, this one does not have true proof surfaces. 20.5mm, center-holed. English inscriptions/ Chinese inscriptions. No re-engraving (piece in WR1 had "CASH" over "CASO").

1982 **N.D. (ca. 1863). Pattern 1 Cent.** Pr. 267. **Choice Proof.** **(Photo)** **($350-Up)**

Victoria. Crowned, dressed bust/four Chinese characters in cross around a raised center circle. The obverse from the 1862 India coinage. A piece with minor surface marks and an edge nick brought $350 in WR1. This jewel may approach $500.

1983 **N.D. Pattern Mil.** Pr. 311. Bright Red **Proof.** **($100-Up)**

English inscription/Chinese. Raised square in center, each side. 20.5mm. May be underestimated.

1984 **1863. Pattern Cash.** Pr. 306. **Nice Brilliant Proof.** **(Photo)** **($150-Up)**

"HONG-KONG", crown, date, "VR" (Victoria Regina), value/ Chinese. 15.5mm. A bit of purple toning near edge.

1985 **1863. Pattern Cash.** Pr. 309, Red and Brown **Proof.** **(Photo)** **($150-Up)**

Similar to last. Center-holed.

1986 **1863. One cash (pattern).** Pridmore 306. **Proof,** red and brown. **(Photo)** **($200-Up)**

Obverse as regular issue 1 mil, 1863-65/reverse as 1 mil, except "MIL" replaced by "CASH", no raised square. Not holed. A different cash pattern, Prid. 302, brought 235 in WR1; the piece now offered may be scarcer.

1987 **1863. 1 Cent. Bronze.** Y. 2. **Proof,** tiny obv. spot, richly toned. **($100-Up)**

Crowned Victoria/Chinese characters value. Very scarce. Lists at $175 in Krause.

1988 **1863. Pattern 1 Cent.** Pr. 165b. Choice Red **Proof.** **(Photo)** **($250-Up)**

An example brought $250 in WR1. This piece is equally choice, but the bright red color should make it sell for more. Thin flan.

1989 **1863. 10 Cents. Plain-edge Proof.** Y. 4, Pr. 54A. Very Choice. **(Photo)** **($225-Up)**

Crowned, dressed bust/similar to above 20 Cents. Remick prices at $125, vs. $50 for the milled-edge Proof . . . Krause $220 for the milled-edge proof. Another lot which could demolish our estimate. Except for some contact marks on the wire edge, this coin is perfect. The cataloger believes the 6 in 1863 is punched over a 5 (1863/53). Such an overdate is unrecorded.

We respectfully call your attention to item number 1 in our Terms of Sale regarding our "Buyer's Charge."

RARE PATTERN

1990 **1864. Pattern Dollar. Silver.** Pr. 232. Rare, probably very rare. **Proof striking.** Choice **AU** condition. **(Photo)** **($1,000-Up)**

Gothic bust, wide ornamental border pattern/cross at four Chinese characters on shields, oak and laural in angles. A lovely design, much prettier than the adopted one. Remick prices pattern dollars at $475-900 (in 1970), compared to $375 for the regular type in Proof. Although there are many different types of Hong Kong pattern Dollars, the individual types are all very rare, as it is very seldom that any of the various pieces is offered. This lot could triple our conservative estimate.

1991 **1865. 1 Mil. Y. 1. BU.** **($15-Up)**

1992 **1865. Pattern Dollar. Struck in copper.** Pr. 205. **XF,** struck as Proof. **(Photo)** **($500-Up)**

As regular issue only dated 1865 and marked TRIAL in relief behind the bust. Edge milled. Copper Proofs of 1866 catalog at half the price of silver proofs. This is of course a rarer piece than the 1866 copper Proof of the regular dies, and even in XF should bring at least half the price of the 1866 Proof Dollar.

UNPUBLISHED PATTERN DOLLAR

1993 **1865. Pattern Dollar.** As Pr. 207 but struck in **copper,** not silver. **Doubtless of the highest rarity. XF,** cancelled by bending. **(Photo)** **(——)**

1994 **1866. 5 Cents.** Y. 3a, Pr. 113B. Copper **Proof.** **(Photo)** **($250-Up)**

Type similar to the 20 cents. Plain edge. Mostly brown, some original red and some green toning. Krause $250, possibly worth much more.

1995 **1866. 5 Cents.** As last, but silver and with milled edge. **Choice Proof.** **($150-Up)**

1996 **1866. 20 Cents.** Y. 5. **Nice Proof. The rare plain-edge variety.** Pr. 17A. **(Photo)** **($500-Up)**

Similar to the dollar/"HONG KONG", date, value; Chinese characters in center. Remick prices the plain-edge proof **three times higher than the milled-edge proof.** Krause's $200 valuation is much too low for the milled-edge proof. This lot could easily top four figures.

RARE 1866 DOLLAR

1997 **1866. Dollar.** Y. 8. **Proof** with plain edge. Pridmore 1A. **(Photo)** **($1,000-Up)**

Victoria, diademed young head/"HONG KONG", value, date and geometric design. A nice Proof with almost half original brilliance, mixed with lovely blue and lavendar toning. An edge knock at 7:30 obverse appears to have been in the planchet before striking. Krause $600 (for the commoner milled edge Proof.) A Proof 1866 Half Dollar brought $2300 (almost six times Krause) in WR1.

THE VERY RARE AND IMPORTANT TWO MACE PATTERN

1998 **1867. (Two Mace)=2/10 Tael. Silver.** Pr. 317. **Gem Proof. (Photo)** **($2,000-Up)**

"*TWO MACE.SHANGHAI*1867" around a crown in a beaded circle/eight-rayed sun in beaded circle, Chinese characters translating "Shang Hai Two Mace."

This very rare pattern is one of the most important "documents" in the economic history of the Orient and of British imperialism in general. The Hong Kong authorities sought to have the Hong Kong Dollar approved by the China government for circulation throughout the huge country. Such approval would have probably made the Hong Kong Dollar the most important trade coin in the world. After initial rejection, mint officials prepared patterns of One Tael, this being the standard measure of value in China, even though no coin of One Tael had yet been struck. These dollar-sized silver patterns contained about ⅓ more weight in silver than the existing Hong Kong Dollar. Had these patterns met with the Chinese government's approval, the existing Hong Kong coinage would doubtless have been replaced by coins minted on a Tael system.

The Chinese Tael was divided into 10 Mace. Patterns of 5, 2 and 1 Mace were intended, but only the 2 Mace was prepared. This piece and the three varieties of pattern Taels are the only numismatic remainders of this ambitious monetary project. The Hong Kong Mint was closed within a year of the project's failure.

We do not have exact information about the rarity of this particular coin. Remick valued the four pieces at "$700 to $1000 or more each" (Remick published in 1970). An example of a One Tael, Pr. 314, was auctioned for $4600 in March, 1975 (Schulman). Remick's valuations suggest the 2 Mace has a value close or equal to that of the Taels. Of course, the market for Hong Kong coins is much higher than in 1975. At the certain risk of sounding repetitive, **this lot could triple our estimate.**

An enclosed B. G. Johnson envelope (1946) is marked with an appraisal value of $75.00 (then phenomenally high for a minor foreign coin). We consider this to be one of the most important coins of either the British Commonwealth or the entire East Asian field.

CITY HALL DOLLAR

1999 **1867. Coin-medal on the Foundation of the City Hall.** Pr. 318. **Rare. Choice Prooflike Unc. (Photo)** **($600-Up)**

A Proof in AU condition brought $625 in WR1. This is a little finer, in the opinion of most. The obverse is struck with the die of a Dollar. Reverse: 11-line inscription. One of the most desirable of all numismatic medals (struck from a coin die), architectural medals or Asian medals, each on its own separate merits. Since it is a beautiful striking of the Dollar obverse, it falls within the category of "pattern coin", by which measure it should sell for thousands. We were very surprised to find this second example within the Wayte Raymond inventory, and are delighted to be able to offer numismatists a "second chance" at a piece. It may be many a year before another City Hall Dollar finds its way to the auction block.

UNPUBLISHED PLAIN EDGE 1873 20 CENTS

2000 **1873. 20 Cents.** Y. 5. Pr. 21. **Proof. (Photo)** **(——)**

The coin shows light spotting, but has no bag marks, as would a currency strike. It has received two strikes from the die; some shifting between strikes is apparent. All details are perfectly struck. There are hairline die breaks on obverse and tiny laminations. The piece is not as reflective as most proofs. We would call this piece Prooflike, but as currency strikes have milled edges this probably must be classified as "Proof". Pridmore does not list a Proof for this year; neither do Krause and Remick. This is an unusual coin. It will certainly inspire high bidding.

2001 **1879. 20 Cents.** Y. 5. Pr. 27A. Rarest date of series. **Nice Proof. (Photo)** **($400-Up)**
Type as last. Krause $400, but only $135 in Unc. Since Remick (1970) priced this at $160 Unc., we are inclined to believe Krause's price-and our estimate-are too low.

2002 **1882-H. 10 Cents.** Y. 4. Bold **Unc.,** beautifully toned. **(——)**

2003 **1890. 5 Cents.** Y. 3, Pr. 136A. **Choice Proof.** Krause $150. **($150-Up)**

UNPUBLISHED 1932 5 CENTS PROOF

2004 **1932. 5 Cents.** Y. 18, Pr. 155. **Choice Proof. Unpublished.** Probably of **excessive rarity. (Photo)** **($500-Up)**
Bust of George V/similar to last. **The last silver coin type of Hong Kong, and the only silver** type issued under George V. (Type issued 1932-33). As such, this proof is extremely desirable. Wayte Raymond priced this at $15.00 (he also priced 1866-67 Half Dollars at $1.25).

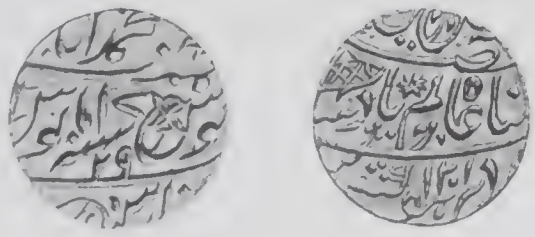
ADDITIONAL INDIAN COINS, FEATURING A FINE SELECTION FROM BOMBAY AND MADRAS

NEWLY DISCOVERED EAST INDIA CO. GOLD COIN



2728 **A.H. 1201** (year 29). **Benares, Gold Mohur.** Craig p. 252 #839, Krause p.821. Awadh mint (fish mintmark). **Unpublished date.** Rare type, possibly very rare date. **Abt. XF. (Photo)** **($350-Up)**
Native inscriptions both sides. The dates 1209 (year 37) and 1213 (year 41) are published in Krause and Craig. It can now be proven that the BEIC minted gold at Awadh eight years earlier than previously known.
This type the only gold type of this coinage-catalogs $150 in Fine in Craig, but is much scarcer than the catalog value indicates. Krause prices the two published dates at $250. each, XF. 10.86gms, 20.5mm

2729 **A.H. 1202 (AD1787). Bengal. Mohur.** Cr. 779. **AU. ($150-Up)**
Native inscriptions each side. BEIC issue.

2730 **A.H. 1202, As last.** About ⅓ ounce pure gold. **VF. ($100-Up)**

2731 **A.H. 1202. As last. XF.** **($125-Up)**

2732 **1994 (Samvatera-AD1937) Bikanir, Mohur.** Fr. 325, Y.6. **AU. (Photo)** **($200-Up)**
Facing bust of Ganga Singh, 1887-1943, in traditional dress/symbols and inscription. An underrated type which has nonetheless doubled in price since 1970. (Compare Remick and Krause prices). We suggest Friedberg's price of $325 is in keeping with the rarity of originals of this interesting type.

2733 **1741. Bombay, Lead 2 Pice.** 41mm. Cr. 560. **VF. ($50-Up)**
Large crown, "G-R" above, "BOMB" below/legend in five lines: "AUSPICIO REGIS ET SENATUS ANGLIAE 1741." Large planchet flaw obliterates "RR" at top obverse. Light white patina. **A really nice example!** A VF was offered in the June Numismatic Circular for **65 Pounds.**

2734 **N.D. (1700's). Lead 2 Pice.** 39mm. Cr. 560. **VF.** **($50-Up)**
Type as last, the subtype without date. Brown and white patina, but overall **very nice for type.**

2735 **1771. Lead Pice.** 34mm. Cr. 559. **XF.** **($50-Up)**
Similar to above 2 Pice. A couple white corrosion spots, not bad for an old piece, and an "edge clip" (casting flaw) at top. **Another excellent example of these scarce lead coins.**

2736 **N.D. (1700's). Lead Pice.** 33mm. Cr. 559. **VF.** **($50-Up)**
As last but undated. June Numismatic Circular offers a bold VF for 30 Pounds

2737 **1791. 2 Pice.** Cr. 584. **Bronze Proof. (Photo)** **($50-Up)**
Balemark/scales. Soho mint. Krause $60.

2738 **1791. 1½ Pice.** Cr. 583a. Similar to last. **Bronzed Proof.** Krause $80. **($70-Up)**
The vertical edge milling variety.

2739 **1791. Pice.** Cr. 582. Similar to last. Cr. 582. **Bronzed Proof.** Krause $50. **($40-Up)**

2740 **1791. ½ Pice.** Cr. 581. Similar to last. **Bronzed Proof.** Krause $50. **($50-Up)**
Very choice, but with a tiny edge clip.

2741 **1794. 1 Pice.** Cr. 582. **Brilliant copper Proof,** virtually perfect. **($50-Up)**

2742 **1804. 2 Pice.** Cr. 588. **Copper Proof.** **($50-Up)**
East India Co. arms/scales. A couple small imperfections. Proofs usually occur bronzed.

2743 **1804. Pice.** Cr. 587. Similar to last. **Bronzed Proof.** Krause $50. **($50-Up)**

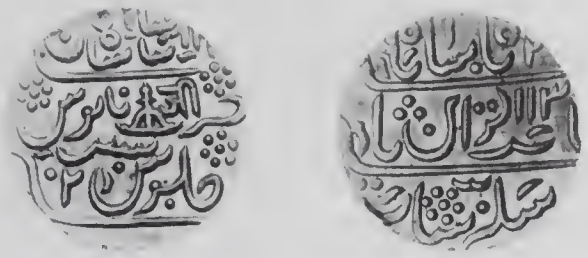
2744 **1804. ½ Pice.** Cr. 586. Similar to last. **Bronzed Proof.** Krause $50. **($50-Up)**

2745 **1833. Pice.** Cr. 591a. Similar to last. Red Copper **Proof.** Krause $50. **($50-Up)**

2746 **1833. ¼ Anna.** Cr. 592a. Similar to last. **Proof,** mostly brilliant. Krause $50. **($50-Up)**

2747 **1834. ½ Anna.** Cr. 593. **Proof, mostly brilliant.** **($80-Up)**
Similar to above types, no obverse legend, new value expression. Krause $80. Scarcer than the earlier proofs.

We respectfully call your attention to item number 1 in our Terms of Sale regarding our "Buyer's Charge."



2748 **AH1130, year 2. (but actually struck 1843). Gwalior. Gold Mohur.** Fr. 135a. Not in Craig or Krause. **AU. (Photo) ($500-Up)**

Native inscriptions both sides. The mintmark (for Fort Gwalior) resembles a bow and arrow. A Nagari letter "ji" indicates this is an issue of Jayaji Rao, 1843-86. A similar ⅓ Mohur is listed by Craig as #75c, priced $200 F-VF. This unlisted Mohur should be worth significantly more. The Friedberg listing is inaccurate, as it implies the coin was issued throughout Jayaji's reign; in fact, as with previous and subsequent Gwalior rulers gold coins were only issued in the first year of reign. Interestingly, Craig and Krause list only ⅓ Mohurs, and no other gold for Gwalior.

2749 **(1913) Year. 34. Jaipur, Silver Rupee.** Y. A5a. **AU. ($15-Up)**

LAST GOLD COIN OF THE NATIVE STATES

2750 **SE2004 (=AD1947). Kutch, 1 Kori, struck in Gold.** Y.84 (silver). Not in Friedburg or Yeoman. Krause p. 792, priced "rare". **XF. (Photo) (——)**

Legends obverse and reverse. 17mm, 7.38gms. Issued by Madansinghji, 1947-48. A very rare issue, and a very important piece for British Commonwealth collectors. The regular-issue, half dollar sized silver 5 Kori of this ephemeral ruler is valued in Krause at $150 (Unc.). Surely this is worth many times as much.

AN EXCELLENT OFFERING OF THE COINS OF MADRAS

2751 **1794. 1/96 Rupee.** Cr. 521. Bronzed. **Proof. ($40-Up)**

2752 **1794. 1/96 Rupee.** Cr. 521. Similar to last. **Bronzed Proof. ($50-Up)**

2753 **1794. 1/48 Rupee.** Cr. 522. Bronzed **Proof. ($45-Up)**

2754 **1794. 1/48 Rupee.** Cr. 522. **Copper Proof. ($60-Up)**

East India Co. arms/balemark. Incuse legends in raised, flat borders (as on 1797 English "cartwheel" coinage). One of the most attractive EICo coppers. Krause $60. Formerly classed as "Circars".

2755 **1794, As last,** impaired **Proof. (AU/XF,** obv. spot). **($25-Up)**

2756 **1803. I Cash.** Cr. 431. Gilt **Proof. ($35-Up)**

2757 **1803. V Cash.** Cr. 432. **Proof. ($50-Up)**

2758 **1803. X Cash.** Cr. 433. **Bronzed Proof. ($40-Up)**

East India Co. arms, helmeted and supported by lions, value and native inscription. Krause $50.

2759 **1803. X Cash.** Cr. 433. **Proof. ($40-Up)**

2760 **1803. XX Cash.** Cr. 434. **Proof. ($45-Up)**

2761 **N.D. (1807). Half Pagoda.** C. #449. **VF+. ($70-Up)**

The first crown type, with denomination **beneath** the Pagoda. Difficult to grade since it was somewhat weakly struck over a Spanish or Mexican 8 Reales, dated 180(2?), and the undertype interferes with tne new design in places. Even wear, light violet toning. Three digits of date are visible at rim at 5:00 reverse. Undervalued in Krause.

2762 **N.D. (1808). Fanam, Double Fanam, and 5 Fanams.** C. #445a, 446a, 447a. **Choice Unc. 3 Pcs. ($45-Up)**

The Fanam has lovely violet toning; the other two are pink and gold. Almost never encountered in such superb condition.

2763 **N.D. (1808). Fanam, Double Fanam, and 5 Fanams.** C. #445a, 446a, 447a. **Choice Unc. 3 Pcs. ($45-Up)**

The Fanam is toned violet and red; the Double Fanam is lustrous whitish-gray; the 5 Fanams has lovely pink and gold highlights over violet. Another exceptionally well preserved group!

2764 **N.D. (1808). Quarter Pagoda.** C. #448a. **Choice AU. ($50-Up)**

Lovely violet toning with gold and red highlights. Well struck, all but the highest points of the ground beneath the Pagoda present. Both eyes and the mouth on Vishnu clearly defined. An excellent specimen.

2765 **N.D. (1808). Quarter Pagoda.** C. #448a. **Choice AU. ($45-Up)**

Not quite as well struck as the last, but still far above average. Eyes and mouth on Vishnu well defined, nose flatter. Silver-gray with gold and blue highlights, very attractive.

UNLISTED ERROR

2766 **N.D. (1808). Quarter Pagoda.** C. #448a var. **Unc. ($60-Up)**

Denomination misspelled "PAPAGODA." (Krause lists the mispelling "PGODA" for the Half Pagoda.) Not quite as well struck as the previous two lots, but a clear Unc. with a slightly granular whitish-violet toning. A fascinating discovery piece.

2767 **N.D. (1808). Half Pagoda.** C. #449a. **Choice Unc. (Photo) ($300-Up)**

An exceptional piece, struck on a **new** planchet (most of this series was struck over cut-down Spanish 8 Reales.) Extremely well struck, with just the faintest hint of true cabinet friction on Vishnu's nose! Lovely light red and green toning. Minor adjustment marks on left reverse. With ordinary weakly-struck AU's bringing nearly $200, this piece should provoke very active bidding.

PROBABLE FINEST KNOWN CROWN

2768 **N.D. (1808). Half Pagoda.** C. #449b. **Choice Gem Unc. (Photo) ($400-Up)**

An unbelievable piece for this normally well-circulated and poorly struck series! Overstruck on a Mexican 8 Reales of 1800 (Mo.F.M.) Fantastic full strike, all details including all of ground below Pagoda clear. At least a full grade above the Krause plate piece. The date of the undertype is quite clear at 7:00 on the reverse, while the Mint Mark can be picked out without question under the buckle on obverse. To enhance this magnificent specimen further, it has the most beautiful imaginable violet, red, gold and green toning, darker on obverse than on reverse but full and complete on both sides. A superb opportunity for the collector who desires only the finest pieces!

2769 **N.D. (1808). ½ Pagoda.** Cr. 449b. Choice **AU. (Photo) ($200-Up)**

Tower (Gopuram) in field of stars/religious figure. Struck over Carolus IIII 8 Reales. Easily worth double Krause prices. Denominations weak, otherwise a strong strike with nice gold and violet toning.

2770 **N.D. India. Strange temple token in gold.** 28mm, 14.37gms. **VF+/XF. (Photo) ($125-Up)**
Four-armed **elephant** in **full lotus** position, rat below/monkey god. Weak, diagonal edge milling. These "rama tanka" are seldom seen even in good silver, this piece in good quality gold is most unusual.

2771 **Circa 1800. 5 Tolas Silver Ingot.** Double thick, 6mm. **XF. (Photo) ($200-up)**
Value, "HABIB BANK, LTD. FINE .999 PURE SILVER"/Persian-type crowned lion with sword, Arabic inscriptions. Very rare and seldom offered.

SEVEN INTERESTING LOTS FROM THE BRITISH EAST INDIA CO.

EXTREMELY RARE 1834 PATTERN RUPEES

The **first unified Indian coins,** and the first to portray the English monarch. **Extremely rare,** thus not very well known and in need of more study. All are silver, plain-edged, and with obverse and reverse rotated 180 degrees. The die with the lion motif is perfect; the other two show small flaws. We could not put any in striking sequence by comparing die states.

Three pieces in this series were listed in the June Numismatic Circular, priced £240-600.

2772 **1834. Pattern Rupee. Silver.** Not in Remick. **Extremely Rare.** Prooflike **XF-AU. (Photo) ($300-Up)**
Head of William IIII, 1830-37. Periods after "IIII" and "KING". Listed in Remick, p.287, with a different reverse. The reverse has a lily/ONE/RUPEE/1834 within wreath, encircled by "EAST INDIA COMPANY" and native script. Ornamented borders, plain edge. A rariety with a comma after "IIII" is listed as KM1 in Krause, p.834. Although priced at $80, a specimen appeared in the June Numismatic Circular, described as **"extremely rare"** and priced 240 Pounds. This variety **may be even rarer.**

2773 **N.D. (1834 dies). Pattern Rupee. Silver.** Not in Remick. **Extremely Rare. XF+. (Photo) ($300-Up)**
Obverse as last/lion passant left, palm tree behind, "BRITISH INDIA" in exergue. Nice grey and purple tone. Pair of edge bruises.

2774 **1834. Pattern Rupee. Silver.** Remick p.287. **Extremely rare. XF. (Photo) ($500-Up)**
Lion & palm (as reverse of previous lot)/value and date in wreath (as reverse of next-to-last lot). Cf. Numismatic Circular for June, where a Proof was priced £600.

Victoria young head/Lion and tree, "EAST INDIA COMPANY." A scarce and interesting one-year type.

2781 **1879. Rupee.** Y. 23. **Brilliant Proof restrike. ($15-Up)**

RARE TRIAL STRIKE IN COPPER

2782 **1887. 1 Rupee. Trial Strike in Copper.** Type of Y. 23. **Unc.,** nicely toned. Minor rim damage at 4 o'clock. **(Photo) ($200-Up)**

Square with round corners. Crowned head of George VI/date and value, native inscriptions. Probably a restrike, but certainly rare in gold.

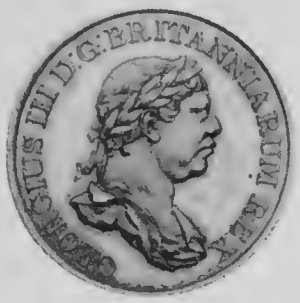
IONIAN ISLANDS

EXTREMELY RARE PATTERN



2791 **1819. "Pattern" Obol.** Pr. 33. **Proof. (Photo)** **(——)**
A muling of the 1815 Ceylon Stiver obverse die with the 1819 1 Obol reverse die. A 2 Oboli Mule (Irish 1822 Penny obverse), Pr. 32, is said to be known in only three copies. Pridmore does not indicate the degree of rarity of this piece, but it is unpriced in Remick. Surely it should be worth more than the 1819 2 Oboli Proof, and may even reach the low thousands in bidding. Ex-B.G. Johnson at $25 in 1933!

2792 **1819. 2 Oboli.** Cr. 23, Pr. 18A. **Proof. (Photo)** **($400-Up)**
Lion of St. Mark/Britannia. WR1=$500.

2793 **1834. Lepton.** Cr. 24. Similar to above. **Proof,** obverse brilliant, reverse red. **($70-Up)**

2794 **1848. 30 Lepta.** Cr. 25. **Rare date. Good,** dented. **($40-Up)**

2795 **1849. 30 Lepta.** "Dot" variety. Cr. 25, Pr. 12. **AU,** beautifully toned. **($100-Up)**
Krause $80 in only XF. An 1857 "no dot" 30 Lepta (Krause $50 XF) brought $160 in AU in WR1. This lot could nearly double estimate.

IRAN

ITALIAN STATES

BELGIOJOSO

2848 **1769. Scudo.** Dav. 1356, Cr. 1. **Very Rare. VF+. (Photo)** **($1,500-Up)**
Antonio da Barbiano, 1769-79. Bust/crowned and mantled arms, supported by lions. One of two coins struck for Belgiojoso. The other is a gold zecchino of similar design, which brought a five figure price in the '76 ANA auction (against a Friedberg valuation of $5000). Our consignor believes that only 100 (approx.) pieces of the Scudo were struck. It is probable that most will never leave Italy. Very few have reached the U.S., but then very few are known. An estimate on a lot like this is largely superfluous; no doubt there is a corps of U.S. and European crown collectors (and Italian States collectors) who have been waiting years for this coin to come up for sale.

EXCESSIVELY RARE GOLD 4 SCUDI OF INNOCENT XI, 1676-89

2912 **1676 (RN). Gold** 4 Scudi. Not in Friedberg. **Excessively Rare.** This was lot 1052 of the **Enrico Caruso** auction in Milan, 1923. Choice **AU,** mount neatly removed. **(Photo)** **(——)**
Innocent XI, 1676-89. Bust right, in papal cap and vestments/dove amid rays, "FIAT PAX IN VIRTVTE TVA". **Friedberg lists all 4 Scudi of this period at a minimum of $16,000.** A piece worthy of the finest collection! But of course, it has already been in the finest collection. Caruso collected only gold. The auction catalog of his collection sells for hundreds of dollars. Of all the famous names that appear in coin pedigrees, the Caruso name is among the most elusive. Perhaps most of the pieces found their way into museums or trust collections; for whatever reasons, ex-Caruso coins are rarely offered. The beauty and rarity of this important Papal gold coin make this lot a double treat.

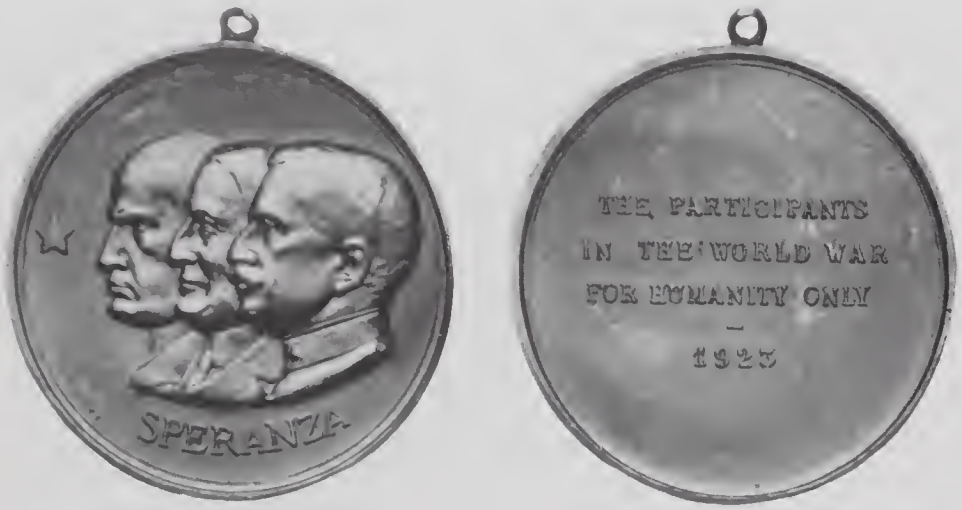
RARE MUSSOLINI GOLD MEDAL



2990 **1923. Gold Medal.** 42mm., **42.1 grams. Matte Proof. (Photo)** **(——)**

Three conjoined busts left, the left most Mussolini, the right most Victor Emanuel III, center one not identified but possibly Gabriele D'Annunzio, star before them, "SPERANZA" beneath/"The Participants in the World War for Humanity Only, 1923." A few scuff marks, nothing serious (matte proof surfaces in gold are **very** easily scuffed.) Gold loop at top, as issued. Unusual for an Italian medal to have an **English** reverse legend - must have been issued for presentation to English or American advisors from the War years. Very rare and very interesting.

2991 **1926. 5 Lire.** Y. 67. Scarce date. **2 Pcs,** both tarnished **XF.** **($30-Up)**

ONE OF 50 STRUCK

2992 **1930. 20 Centesimi.** Y. 47 (type of 1908-22). Nice **AU. (Photo)** **($150-Up)**

Head in profile/draped female flying over Italian shield. Broad borders, sharp edges. This type was struck for numismatists only after 1922. Italians held onto their coins while other Europeans were selling to the nearest American. As a result, very rare Italian coins, like U.S. coins, may never leave their country of issue. We feel this coin would be undervalued at twice our estimate.

2993 **1931/IX. 50 Lire. Gold.** Fr. 34 ($300), Y. 70. **Unc. (Photo)** **($300-Up)**

2995 **1940. 5 Lire. Pattern of unissued design.** 36mm dies, uniface trials of obverse and reverse on 2" square silver sheets. Pagani 236. **Extremely Rare. Unc. (Photo)** **(——)**

Vittorio Emanuele III, 1900-44. Bust left in helmet, curved brim (as on Albania 2 Lek)/fasces, crowned Italian shield to left and axe head to right. The fasces also divide the value, "L.-5" and the date "1940-XVIII". Signed "G. Ronagnoli" at bottom obverse. Reverse double-struck. One of the rarest and possibly the most interesting patterns of the Italian kingdom. Crown-sized pieces of 50 Lire had not been issued since 1914, and all such 5 Lire of Victor Emanuele III are rarities. Except for a few 1941 20 Lire pieces, minted for collectors only, this is the last crown of Italy.

2996 **1849-1966.** Lot of 16 pcs. **Good** to **Unc.** **($115-Up)**

1) Roman Republic. 1849. 3 Baiocchi. Cr. 23. Partly red Au, tiny spots; 2) Papal States. 1866. 4 sold. Cr. 184. VF; 3) Lombardy-Venetia. 1822-M. ¼ Lira. Cr. 4. VF-XF; 4) 1902. 25 Cent. VF+; 5) 1926. 5 Lire. Fine+; 6) 1911. Commemorative 10 Cent. Y. 57. XF; plus 9 more pieces, all but 2 silver. **Sold as is, no returns.**

2997 **1860-1925. Lot of 31 coins, mostly copper, bronze and nickel.** **($75-Up)**

The better pieces include: (1) 1920. 50 Cent. Y. 64. 20. XF. (2) 1919. 50 Cent. Y. 64. VF. Very scarce date. (3) 1923. 2 Lire. Y. 66. XF. (4) 1922. 1 lira. Y. 65. AU. Also a nice series of 5 and 10 Centesimi copper pieces of Victor Emmanuel II struck in the 1860s. The coins are as a whole grade from **Fair to Unc.** Worthwhile lot for the Italian specialist. **Sold as is-no returns.**

2998 **1916-61. Lot of 16 coins. Mostly Unc. or nearly so. ($90-Up)**

Includes 2 Lire 1916 (XF), 1926 (AVF); 20 Lire 1959 BU (2 pcs.), some other silver coins. All worth $2-10 each. **Sold as is-no returns.**

JAMAICA

2999 **(1758). Quarter Dollar.** "GR fleury" cstp on 1758-La/JM 2 Reales. Cr. 3, Pridmore 6, Byrne sale #805 ($85). **VG-F. (Photo)** **($400-Up)**

The cstp applied to both sides. The Byrne specimen was Fine with light scratches and tarnish. This piece has an "X" scratch on each side; and also is lightly scratched "23" on both sides. Considering that these pieces are so often holed, this damage should have a less-than-normal effect on the value (Craig=$750 Fine).

3000 **(1758). Dollar.** "Fleury GR" counterstamp on 1755-Mo/MM 8 Reales. Cr. 5, Pridmore 4. Identical punches as Byrne 800. Coin **Fine+**, holed; stamp **VF/VG+. Rare. (Photo)** **($350-Up)**

The stamp applied simultaneously to obverse and reverse. The coin is somewhat dished as a result, and the convex side is more worn. A holed example brought $210 in the 4/7/78 Christenson sale, but this is about two grades higher.

3001 **1814. Counterstamped "GR" on Mexican. 1814 8 Reales.** Coin **VF,** stamp **XF.** A fabrication. **($30-Up)**

3002 **No Lot.**

A LOVELY ASSORTMENT OF RARE JAMAICAN PROOFS

All with Victoria head/Jamaican arms surmounted by an alligator. All are free of hairlines and contact marks. All would be considered **perfect** except for polishing marks on the dies or the **very** faint metal "streaks" present on a few pieces (a few do have tiny spots).

These copper-nickel coins usually develop a mottled pattern of discoloration. This is common on all grades of Jamaican coins, circulated to Proof. For this reason pieces as nice as these are rarely met with. Of course, Unc. and especially **Proof Jamaican coins are very difficult to find,** making choice examples premium items. This could well be the last time in this century that such a lovely group is auctioned.

3003 **1869. ½ Penny. Proof** in **bronze.** Y. 2, Pr. 51B, Remick p.419. Gorgeous, near-perfect Proof. **(Photo)** **($250-Up)**

Remick $135 (1970) vs. $60 for the copper-nickel proof, thus our estimate is probably too low.

3004 **1869. ½ Penny.** Y. 2. **Proof.** **($200-Up)**

Some spotty toning but basically full original mint color. No hairlines or contact marks.

3005 **1869. Penny.** Y. 3. **Choice Proof. (Photo)** **($200-Up)**

3006 **1869. Pattern Penny.** Struck in **bronze.** Pridmore 9B, Remick p. 419. **Proof. (Photo)** **($250-Up)**

Almost identical to the regular issue. Remick prices this at $160 (in 1970); the normal, copper-nickel Proof at only $60. So, we would note be surprised if this lot brings almost three times as much as its predecessor. The obverse is lovely, the reverse struck without the usual, reflective surface of a proof.

Krause lists a brass Proof of this date (unpriced); we assume that that is a listing error for this piece.

3007 **1870. Penny.** Y. 3. **Extremely Choice Proof.** **($200-Up)**

3008 **1880. Farthing.** Y. 1. **Choice Proof.** **($150-Up)**
Toned. Arbitrarily valued lower due to size-why??

3009 **1880. ½ Penny.** Y. 2. **Very Choice Proof,** light gold and russet toning. **($175-Up)**

3010 **1880. Penny.** Y.3. **Proof.** A few **tiny** spots, otherwise brilliant and nearly perfect. **($225-Up)**

3011 **1887. Penny.** Y. 3. **Unc.** **($45-Up)**
Mintage only 24,000. No Proofs, but as 1887 was Victoria's jubilee year, prooflikes of colonial issues are sometimes found. This may have been such a piece, but is now partly toned.

3012 **1955. Penny.** Y. 23. Choice Brilliant Proof. **Rare.** **($100-Up)**
Bust of Elizabeth II/Jamaican arms. Remick (1970) $40. By comparison, he priced the 1928 Penny Proof at only $45; Krause gives a mintage of only 20 1928 Proofs (Pridmore did not know of 1928 Proofs, which further emphasizes the rarity of these Jamaican Proofs). Raymond priced this and the 1955 Half Penny Proof at $75 for the pair, claiming less than 10 each were struck.

3013 **1969. Proof set of 6 coins.** Y. 29-34. **($40-Up)**
Mintage 8,530. In official Royal Mint presentation case.

3015 **1970-75. Lot of 2 items.** **($50-Up)**

JERSEY

3048 **1813. Penny token.** Pr. 61, Davis 5 (termed "RR"). **Very Rare and underrated. (Photo)** **(——)**
George III, draped and laureate bust, "JERSEY BANK", date at bottom/Justice seated left on a bale, holding scales and cornucopia, ship by feet. Grades **VG,** but edges thoroughly knocked up, leaving the piece bent.
Our consignor informs us that this type **has not appeared** at **public sale since 1912** (Caldicott/Glendinning auction). Catalog prices in Seaby, Remick and Krause are far too low for a piece this rare, especially since it is not just a 19th century British token, but a Commonwealth type as well.

EXCESSIVELY RARE PROOF (UNPUBLISHED)

3084 **1953. 10 Cents. Proof struck in silver.** Y. 2. Choice **Proof (Photo)** **(——)**

Unpublished in silver. Elizabeth 2, bust/value. Krause $100 (in coppernickel). Raymond priced this at $35. Krause's prices do not reflect actual values for these extremely rare Commonwealth proofs. Presentation strikings, of which only a very few would be struck (and not all, or even any, given to numismatists), are priced only slightly higher than proofs struck for general sale. In WR1, proofs of Seychelles brought double Krause values. As a silver striking, this must be excessively rare, and could sell for many times estimate. 2.86gms.

3087 **17th Cent. Copper 4 Tari's.** Counterstamped. **3 Pcs.** **($35-Up)**

Large, thin coppers of John Paul Lascaris, cstpd by his successors, each with a different mark. 3, 4 and 5 sctps, respectively. Average or slightly better condition for type. **Very interesting material.**

3088 **1965. Sovereign Order of Saint John of Jerusalem. Quadricentennial Proof set, 1565-1965.** 1 T. brass, 25 & 50 T, and 1 Z in silver. 400th anniv. of the siege of Malta. In red leatherette and plush presentation case. **($40-Up)**

3089 **1965. Proof set. 1, 25, 50 Tari, Scudo.** **($30-Up)**

Sovereign order of St. John of Jerusalem. 400th anniversary of the siege of Malta. The Scudo is a silver crown. Cases. A lovely set.

3090 **1965. As last.** **($30-Up)**

3091 **1972. Set of 3 values; 1 and 2 pounds Silver, Unc.,** Y. 13, 14. **5 pounds, Gold. Proof.** Fr. 51. In red vinyl, black plush case. **($60-Up)**

MARTINIQUE

3092 **Lot of three U.S. Cents with "heart" counterstamps.** Two are from the 1966 Gibbs sale. **3 Pcs.** **($75-Up)**

1) **1800/179.** Incuse heart in obverse field. Coin Good; 2) **1801.** Incuse heart, within which a crude, raised heart. Coin Fiar; 3) **1817.** Incuse heart. Coin Fair, small clip. The last two brought $15 each in the Gibbs sale. None of the three are beleived to be official.

MAURITIUS

3093 **1820. 1/16 Dollar.** Cr. 1. Type as above. Scarce. **AU. ($35-Up)**

3094 **1820. ⅛ Dollar.** Cr. 2. **Proof.** **($100-Up)**

Crowned anchor/arms of Great Britain. Lovely Magenta toning on obverse, reverse nicley toned. We are following Remick's example in listing this as a proof. The obverse has full proof surfaces, the reverse is prooflike. The edges are sharp. Some details are not perfectly struck. Pridmore does not list any proofs for this coinage (except the unique 1821 ½ Dollar in BM). Remick $90 in 1970. The rarity of the 1820 Mauritius series is unappreciated.

3095 **N.D. (1822). 25 Sous.** Cr. 31. **Abt. XF.** **($60-Up)**

Inscr. in cirlce, both sides; "RECU au TRESOR/pour 25 Sous." A marginally better piece brought $80 in WR1.

RARE 1822 PATTERN (PROOF)

3096 **(1822). Pattern 25 Sous. Copper piedfort.** Remick T1, type of Cr. 31. **Rare. Proof. (Photo)** **($350-Up)**

Regular dies on a copper blank, extra thick. There is a large dark spot, as the photo will show, but the piece is choice otherwise, with some mint red. Remick $80 in 1970. However, we sold a (faintly) circulated 50 Sous (Cr. 32) for double that in WR1 (or for almost 8 times its value in Remick). We suspect it is much rarer than Remick indicates.

3097 **N.D. (1822). 50 Sous.** Cr. 32. **AU. (Photo)** **($125-Up)**

Trees within circle, value within circle. French legends (although Mauritius had been English for twelve years). Some weakness, adjustments along borders, a tiny edge nick at 11:00 reverse. Some mint color (unusual).

3098 **N.D. (1822.) As last. AU.** **($125-Up)**

Overall, of equal quality to last. WR1 $160.

3099 **1877. 1 Cent.** Y.1. **Proof,** mostly red. **($150-Up)**

RAREST COIN OF THE COUNTRY

3100 **1877** (no "H"). **5 Cents.** Y. 3. **Proof-only date, quite rare. Proof. (Photo)** **($400-Up)**
Red with blue toning, mostly peripheral. A few minor spots. Krause $165, but Remick had already priced at $150 in 1970. In WR1 we sold a choice. proof**like** 2 Cents (common date) for $150. A choice Unc. 10 Cents, Krause value $20, sold for $135. We expect this piece to set a record for any Mauritius coin, perhaps at a level well above estimate.

3101 **1878. 2 Cents. Proof.** **($85-Up)**
Deep red-gold color, very small edge flaw. Brilliant and unhairlined. Krause $85. An Unc. in WR1 brought $45 (Krause $28.50).

3102 **1878. 5 Cents.** Y. 3. **Unc.** **($65-Up)**
WR1 $90. Full (but somewhat dull) mint red, obverse very slightly soft-struck. Small edge bruise 11:00 reverse.

3103 **1883. 20 Cents.** Y. 5. **Choice, Prooflike Unc.** **($100-Up)**
Brilliant fields, matte devices. Some central weakness, particularly bottom right and left of "2" and "0" of denomination. An 1886 20 cents Unc., not as nice as this, brought almost triple Krause in WR1.

3104 **1884. 1 Cent.** Y. 1. **Choice, Prooflike Red Unc.** **($50-Up)**
Centers weak. Tiny spot under chin. The old ticket again marked proof, and presumably bought as such by Raymond. Krause $15-should bring 4-8 times as much.

3105 **1884. 1 Cent.** Y. 1. **BU,** couple trivial spots. **($25-Up)**

3106 **1884. 2 Cents.** Y. 2. **Choice, red to brilliant Prooflike.** **($75-Up)**
"2" in reverse center weak: Otherwise, this is a full proof quality. A slightly nicer 1883 2 Cents brought $150 in WR1. From the absence of bag marks, it is possible this is a mint sample, made as an extended run of proof strikes, without the usual quality control. The old, English dealer ticket (uses an Atkins #) is labeled "proof".

3107 **1884. 5 Cents.** Y.3. **Unc.** **($80-Up)**
Half red. Marked "Brill proof" on old English dealer's ticket. WR1 $105.

3108 **1886. 10 Cents.** Y. 4. **Nice, Prooflike Unc.** **($50-Up)**

3109 **1888. 1 Cent.** Y. 1. Choice, Brilliant Prooflike, **Unc.** Tiny spot. **($50-Up)**

3110 **1888. 5 Cents.** Y. 3. **Choice Unc.,** rather prooflike. **($65-Up)**
The old English dealer ticket marked "Proof" and then crossed out. Well struck, gold and tan. A piece not nearly as nice brought $45 in WR1.

3111 **1896. 1 Cent.** Y. 1. Fully red **Unc.** **($25-Up)**

3112 **1897. 1 Cent.** Y. 1. **Proof,** gold and purple toning. Remick $60 in 1970. **($76-Up)**

3113 **1897. 2 Cents.** Y. 2. **Red Proof.** Remick $65 in 1970. **($75-Up)**

3114 **1897. 5 Cents.** Y. 3. **Proof.** **($100-Up)**
Partly brilliant, especially on reverse. Couple small contact marks on obverse. Remick $70 in 1970!!

3115 **1897. 10 Cents.** Y. 4. **Choice Proof.** **($100-Up)**
Krause $100, but see Remick, who priced at $70 in 1970!!!! Should far exceed, perhaps double, estimate.

RARE 1938 SILVER RUPEE PROOF

3116 **1938. Rupee.** Silver. Y. 18. **Proof. (Photo)** **($200-Up)**
George VI, crowned/Shield. Extremely rare. No contact marks, a very pretty coin.

MEXICO

3117 **N.D. (c. 1521-56). 1 Real.** Silver. Vicenti 96. **Fine. ($60-Up)**
Quartered lion and castle shield. Assayer "R"/crowned Pillars of Hercules. Late issue in the Charles and Joanna series. Assayer and mintmark ("M") a bit weak. Two-thirds of rev. legend shows. Extremely scarce.

3118 **N.D. (1636-42). 2 Reales.** Assayer 6. **The rare early series of Carlos and Johanna. Fine** or better, normal striking crudeness. **(Photo)** **($500-Up)**
Crowned arms/crowned pillars, between which are two dots. "PLVS" on a rhomboid, and the assayer's initial. Nesmith 10c ($700), Vogt II ($650), CC 915 (52,000, 82,000 Pesetas), Vicenti 114 (55,000). The few early series coins that survive tend to concentrate in specialized Mexican collections, are seldom put on the market, and then only by a very few auction houses.

3119 **N.D. (1542-72). ½ Real.** Mo-O. Scarce error. **Fine. (Photo)** **($125-Up)**
Crowned "KI"/crowned pillars divide "PVS". King's name mispelled "CAROLRVS". Nesmith 107f, legs. 44/25 (reverse legend not noted in Nesmith or supplement). Type Priced at $100 in Nesmith supplement, surely worth more. Vogt 6, CC 856, Vicenti 61. 20% of legend not struck up.

3120 **N.D. (1542-72). Real.** L-Mo. **Fine** or better. **($40-Up)**
Crowned arms/pillars over waves, dividng "PL-VS-VL". Nesmith 92, legends 22/aa (Obverse legend not in Nesmith or supplement). Vogt 9, CC 882, Vicenti 88. Most of legend clear, King's name and "M" of "Mo" mintmark are a blur.

3121 **N.D. (1542-72). 2 Reales.** L-M. Nesmith 81a. **VF+. ($40-Up)**
Carlos & Johanna. Late Series. Crowned, quartered arms/crowned pillars over waves. Nesmith legends 29/bb. Lightly porous, reverse scratch. Mostly bold strike. Bold legend, mostly on flan. Vogt 12, $45 in Fine. Vicenti 125, CC921, both at comparable prices.

3122 **N.D. (1542-72). 2 Reales.** L-Mo. **XF.** **($55-Up)**
Crowned arms divide "L-Mo"/crowned pillars over waves, dividing "PLV-SVL-TR". A few weak spots but exceptionally attractive. Nesmith 93, legends 24/a. Vogt 12 ($65 VF, $85 XF), CC 922, Vicenti 126.

GUTTAG PLATE COIN

3123 **N.D. ½ Real.** O-Mo. Vogt 20, Guttag 2556. **Fine** (?). **($50-Up)**
Crowned arms/castles and lions. CC 2078, Vicenti 157. Pair of edge dents.

3124 **1556-98, Lot of three cobs: 1, 2 and 4 Reales. F-VF. ($85-Up)**
1)**Real.** Philip II, 1556-98. MoOO. King's name and ordinal complete, much other legend present. VF: 2) **2 Reales.** Dated (1) 61x. Fine, only half struck up; 3) **4 Reales.** Likely Philip II assayer F. Fine where struck up.

GUTTAG PLATE COIN

3125 **N.D. Real.** Assayer "E". Guttag 2570A. **Plate specimen. Fine,** perhaps better. **($100-Up)**
Crowned arms/castles and lions. Rather round for a cob. Not much legend shows, but mintmark, assayer and value are clear. Vicenti 230 (7500 pesetas), not in Vogt or CC. The "I" is probably a poorly formed "F". Nonetheless, a rare and interesting variety.

3126 **N.D. Real.** O-Mo. Vogt 26. **XF.** **($85-Up)**
Crowned arms/cattles and lions. 80-90% of legend clear, including King's ordinal. Vogt $100 VF. CC 2143. Vicenti 233. Lovely toning.

3127 **N.D. 4 Reales (Mo/F-4).** Vogt 36. **VF+. (Photo) ($250-Up)**
Crowned arms/lions and castles. Unusual sub-type with value as an Arabic numeral. Centers mostly sharp. "4" very sharp. "Mo/F" weak and much of the rest of the design is not struck up at all. Vogt prices at $200 VG (compared with $70 VF for common varieties)-Vicenti 467, CC 2390.

3128 **N.D. Cob Real.** Assayer E? (unrecorded). **VG** (?), date off. **($50-Up)**
Arms/castles and lions. The initial could be clearer, but appears to be E or E over P. All Reals of Mexico during this reign are rare (Vicenti 25,000 each). We hope specialists will be able to examine this piece. Our consignor reports having seen assayer's initial "E" on a half real.

3129 **1627-Mo/D. 8 Reales.** Vogt 45, Vicenti 1095 (60,000 Pesetas). **Fine.** **($150-Up)**
Arms/castles and lions. Typically crude cob, although better than many. Last digit of date weak, mintmark and assayer bold. From the Lucayan Beach Pirate Treasure Trove, with box and certificate.

FULLY DATED COB 8 ESCUDOS FROM THE 1715 SPANISH TREASURE FLEET

3130 **1715-M./J. Cob 8 Escudos.** Type of Fr. 6. **Choice XF.** **($1,500-Up)**
Arms of Spain's Philip V/Cross. Fully dated (Friedberg's citation indicates only undated cobs.) "VI" of the VIII" is visible. Recoverd by Kip Wagner and associates from the wreckage of the Spanish Treasure Fleet which went down off the east Florida coast in 1715. Also type of L. Ch. 226. Extremely rare with a full date. A well struck specimen.

3131 **1732-MO/F. Cob 8 Reales.** CC 10843. Vicenti 1078. **Fine.** **($50-Up)**
Arms/cross. **Date and mintmark complete and bold,** as are many central details. Assayer's initial complete but blurry. No legend, considerable discolor.

3132 **(Date off planchet). Gold 1 Escudo.** Mintmark clear. Unusual variety. **VF. (Photo)** **(——)**
Crowned arms/cross crosslet, a castle in each angle, each castle tilted toward the cross' center. We are at a loss to explain why there are no lions on this coin; the Mexico mintmark would seem to preclude the possibility of a necessity coinage (such as the fantasy-date Venezuelan series). 3.41gms.

3133 **1737-Mo/MF. ½ Real.** Cr. 1. **Rare date. XF+-AU.($75-Up)**

Fernando VI, 1746-59. Gold and violet toning.

The reverse rather bold.

3140 **1759-Mo/MM. 8 Reales.** Cr. 17. **Unc. (Photo)** **($400-Up)**
Fully lustrous surfaces. Because the coin is so lustrous, we expect very high bidding. Lovely red and gold fields surrounded by several different shades of blue on peripheries.

3141 **1759. As last.** Choice **XF+.** **($175-Up)**
Excellent fields, light gold and violet and toning.

RARE POSTHUMOUS ISSUE

3152 **1789-Mo/FM.** 8 Reales. **Carlos III, died 1788.** Cr. 40. Vicenti 957 (15,000 Pesetas). CC 13329. **Abt. XF. (Photo)** **($160-Up)**
Similar to the regular bust dollars of this reign. Obverse was lightly polished. The coin is nicely toned, and the reverse doesn't look polished, though it probably was, very lightly. Adjustment marks across the King's neck (as if "crossing out" the dead man, if you have enough imagination!). An excellent coin to exhibit with the several early rarieties of Carlos IV dollars. Electric blue and gold toning.

3153 **1790, 1809. 8 Reales.** Cr. 75, III. **Plus six later crowns. 8 Pcs.** **($45-Up)**
1790-Mo/FM. Good+; 1809-Mo/HJ. VF, mount trace; plus an 1887 8 Reales; Pesos of 1871, 1903, 1924, 1927; 5 Pesos of 1953. Average condition. **F-VF.**

3154 **1795-Mo/FM. 8 Reales.** Cr. 81. **VF+.** **($40-Up)**

We respectfully call your attention to item number 1 in our Terms of Sale regarding our "Buyer's Charge."

3155 **1798-Mo/FM. 8 Reales.** Cr. 81. **XF,** rather prooflike. **($125-Up)**
Weak on the shoulder and 10% of legend.

3156 **1802-Mo/FT. 8 Reales.** Cr. 81. **Unc.** **($75-Up)**
A bit weak-struck in reverse center.

3157 **1803-Mo/FT. 8 Reales.** Cr. 81. **VF,** polished. **($25-Up)**

3158 **1808/7-Mo/TH. 8 Reales. Unlisted overdate.** Cr. 81. **Unc.** **($75-Up)**
Much luster, the reverse almost fully brilliant. The overdate clear in the bottom loop of the "8", traces of the upper part of the "7" are more fragmentary. Some planchet porousity near edges resulting in two edge cracks and a few weak letters. Nice light reddish-gold and violet toning.

3159 **1809-Mo/TH. 8 Reales.** Cr. III. **VF.** **($35-Up)**
Fernando VII. Armored bust/crowned Spanish arms between pillars.

3160 **1809-Mo/TH. 8 Reales.** Cr. III. **VF+.** **($60-Up)**
Fernando VII. Armored bust/crowned Spanish arms between pillars. Vogt, whose catalog prices tend to be low, estimates this at $50.

3161 **1810-Mo/HJ. 8 Reales.** Scarce assayer for this year. Cr. III. **XF. CC 16740. 9699 Pesetas.** **($100-Up)**

3162 **1811-Mo/HJ. 8 Reales.** Cr. III. **AU.** **($60-Up)**
Last year of the "armored bust" type. Mild planchet defects and center weakness.

3163 **1814-Mo/JJ. 8 Reales.** Cr. 121. **VF.** **($40-Up)**
Ferrnando VII. Draped bust/crowned Spanish arms between pillars.

3164 **1821-D/OG. 8 Reales.** Cr. 121. **VF.** **($60-Up)**
Crude strike, slightly off-center. A planchet pit near the chin, a pair of digs in the same field. Nicely toned. Vicenti 10,000 Pesetas. Variety without stop before "DEI".

3165 **1821-Zs/RG. 8 Reales.** Cr. 121. Bright choice **AU.** **($100-Up)**
Fernando VII. Draped bust/crowned Spanish arms between pillars. A choice XF brought $45 in WR1 - this worth multiples.

ADDITIONAL MEXICAN RARITIES

RARE UNDATED SILVER MEXICO CITY MINT BULLION BAR

3166 **ND ((1741?) Silver bullion bar, Mexico City Mint, XF. (Photo)** **(——)**
Cast silver bar weighing nearly One Pound. Obverse has shield flanked by "HISP ET ID." Reverse, left rough from casting (this was the **top** of the mold), has been counterstamped at each end with the M/o of the Mexico City Mint. There is no sign of a date stamp. Reverse and sides show traces of the sort of reddish patination often seen on ancient Greek pieces, probably the result of contact with sea water. There is evidence of filing, smoothing, etc., in an attempt to remove this red patination, most successfully on the obverse. The silver bullion bars from this period are even rarer than the gold ones, and little study has yet been possible on them. A rare, valuable and interesting historical piece. **The bidding will commence at $2300.**

EXTREMELY RARE COMPLETE MEXICO CITY MINT GOLD BULLION BAR

3167 **1744. Gold Mint Bar of 22 ¾ carat fineness. AU. (Photo)** **(——)**
A large, rectangular bar, 115 x 34 x 11mm. Weight: 9330.2 grains = **1 Pound 7 Ounces 8 DWT 18 Grains.** Lacking the 1770 revalidation stamps (one of the original group.) These bars, known in a variety of weights and finenesses, were cast and counterstamped in Mexico City during the period from 1741-1746 (the reign of Philip V.) The original group, apparently lost in transit to Spain prior to 1750, mostly surfaced during the late 1950's in Florida. The obverse — shield flanked by "HISP ET ID" — shows two major mold cracks. The reverse has a variety of stamps: Cross Potent with castle in 1st quadrant. M over F in 3rd quadrant (struck three times, singly on one end and overstruck on the other); XXII and three pellets (for 22 ¾ carat fineness) twice; o/M (mint mark) twice; PHSV (Philip V) twice; 1744 twice; and the letters "II", probably the assayer's initials. Some reddish staining on reverse, perhaps from immersion in sea water. The similar (but lighter weight) bars offered in **Stack's** Gibson Sale (November, 1974, Lots 270 & 271) show similarities but with such minor differences as would be expected from the time spread of production (those pieces were made, respectively, in 1741 and 1746.) As more than a dozen different o/M punches and several different "HISP ET ID" blocks are known, we are not surprised to find this piece differing in such respects from the two in the Stack's Sale. **A cut-down ingot of similar period and design exists in the Garrett Collection at The Johns Hopkins University, acquired by John Garrett during the earlier years of this Century. The bidding will commence at $7500.**

Red and gold toning.

3175 **1800-Mo/FM. 1 Real.** Cr. 78, Vogt. 81. **AU.** **($30-Up)**

Light field tooling.

3177 **Early 1810's. Morelos. 2 Reales.** Unlisted. **Probably Extremely Rare. VF? (Photo)** **(——)**
An insurgent cast of an 1810-Mo/HJ 2 Reales, cstpd with the Morelos monogram in a rectangle. The rectangular stamp is rare in itself. It is pictured in Pradeau (Pl. XXI #5), Vogt (nos. 267, 283), and Gibbs (#62-fake??). We are not aware of counterstamped cast 2 Reales, or any denomination other than 8 Reales. While it would be precipitous for us to call this piece **unique,** it does seem likely to be RRRR. As we expect the bidding to be dominated by specialists, we will make no estimate. Any price is possible. The obverse is scratched, possibly as made. The stamp is sharp and shows the complete monogram.

3178 **1811-Mo/HJ. ½ Real.** Cr. 107, Vogt. 73. **Unc.** **($40-Up)**
Laureate bust of Ferdinand VII/Crowned shield. Nicely toned, very scarce in this top grade. Prooflike rev.

3179 **1811-Mo/HJ. 2 Reales.** Cr. 109. **F/VF.** **($25-Up)**
Nicely toned.

3180 **1811. Sombrerete. 8 Reales.** Cr. L136. This date is listed by Craig and Vicenti, but not by C-C. **G-VG. (Photo)** **($300-Up)**
The obverse is somewhat extraordinary in that the value and legends are complete. (Half the "8" is off-flan and "RETE" is weak.) The reverse is weak, especially the date, with "VARGAS" not struck up at all. Utberg (1970) prices the 1812 of this type at $180, but all 1811 at $300.

3181 **1811. Zacatecas Provisional 2 Reales.** Cr. L183. **VF. ($75-Up)**
Crowned Spanish arms between pillars, name of "FERDIN. VII"/mountain over "L.V.O.", "MONEDA PROVISIONAL DE ZACATECAS." A number of small nicks, possibly in the planchet before striking; a moderate edge crimp at top; obverse off. Center (Slightly) and left side of reverse legend partly weak. Still nice for type (the fractionals generally are more worth than the 8 Reales) Craig $60 in Good. Blue, gold and violet toning.

3182 **1811. Zacatecas. 8 Reales.** Type with mountains. Cr. L184 ($150 in Good). CC12047, Vicenti 1181. **VF/F. ($125-Up)**
Crowned Spanish arms between pillars, name of Fernando VII/mountains over "L.V.O." Top of crown and some of obverse legend not struck up. The reverse clearly shows only half the legend, and has two long, thin scratches. Very high-grade silver. Faintest luster both sides. Based on Craig's price, worth $200

3183 **1812. "SUD" 8 Reales in silver.** Cr. L165 ($175). **XF.** **(——)**
Bow and arrow over "SUD"/Morelos monogram, value and date. Decorated fields both sides. A variety with blunt 1's in date, not in Guttag. Late 19th century product-or later.

3184 **1813. Morelos. "SUD" 8 Reales. Cast Silver.** Guttag 2901-04. **Unc.** **(——)**
Guttag (1929) listed pieces believed made in the late 19th century. This piece is probably from the 1960's.

3185 **1813. Morelos. Copper 8 reales.** Cr. L153. Also similar **2 and 8 Reales,** cast silver. **AU. VF+** and **AU. 3 Pcs.($175-Up)**
The copper piece is brown with some green patina, still worth an XF. The silvers were probably made at the close of the 1800's. They are listed and photographed in Guttag (1929) and the 2 Reales is pictured in Craig (as a struck piece). The 2 Reales is dated 1812, a holed example in the Pradeau sale brought $20 years ago. The 8 Reales is dated 1813 and has a crudely reeded edge. An example brought $125 in the 1966 Gibbs sale.

Obverse Eagle on cactus, biting snake. Reverse: Large "10" in beaded circle. "HACIENDA DE TUXPANGO." At bottom, "MEXICO" Also known in brass. There exists a smaller 5 Centavos, brass. Some feel this is a pattern for a local coinage, others that it is a pattern for a private token. In any event, it is beautiful, early, and rare. Illustrated in Fonrobert and Guttag. Fully Brilliant with some reverse spotting taking the coin out of the gem category.

Also cstpd with a "T", attributed to Tobago by Wood, but probably of no significance. The Pridmore price supplement (1966) estimated this at £40, making Craig's price seem low. This is an especially nice piece and a bargain at almost any price. Specimens in the 1966 Gibbs sale brought $100 and $115. This lot is **much nicer than the example which brought $390** in the 4 7 78 Christensen sale.

NETHERLANDS—PROVINCES

BRABANT (SPANISH NETHERLANDS)
THE EARLIEST DATED SPANISH COIN-BRABANT

3312 **1505. Real.** In the name of Philip and Johanna. **Rare.** Vicenti 3 (40,000), CC 802. **XF. (Photo) ($500-Up)**
Crowned, complex arms/Bungundian cross, in angles are a fleece and crowned shields of Castile, Leon, and Grenada.
The earliest dated coin in the name of a Spanish ruler. Antwerp mint Legends: "Ph's*ET*IOHANA*DEI*REX*ET *REGIN". Reverse:(hand) CATELLE*LEGIONIS*2* ARCHIDVC'*AVSTRIE*Z*1505. Broad thin planchet, causing some unevenness of strike, but all details are visible and most are bold. Light porosity on reverse.

Philip II of Spain, 1556-98. Antwerp mint. Bust/arms on cross. The cstp (lion in pearl circle) was to raise the value by an eighth; the money so raised was used in the war against Spain.

3314 **1591. Daalder.** Antwerp mint. Delmonte 18 (R1) **VF. ($150-Up)**

Albert and Isabelle 1598-1621. Accoladed busts/lions holding crown above arms. Full legends, but a bit weak on 20%. Delmonte considers this a rare (R2) type.

3316 **1623. Ducaton,** Dav. 4462. **VG. Austrian Netherlands. 1762. Thaler.** Cr. 14. **VG-F. 2 Pcs. ($40-Up)**
The first is crude, showing no mintmark; the second struck at Brussels.

3317 **1634. Silver Patagon (Thaler).** Dav. 4462. **Fine,** uneven planchet as usual, nice iridescent toning. **($50-Up)**
Burgundian cross with crown above, inscr. of Philip IV, clear date/Crowned shield.

3318 **1636. Ducaton.** Dav. 4444. **F+-VF,** not too strongly struck at peripheries. **($100-Up)**

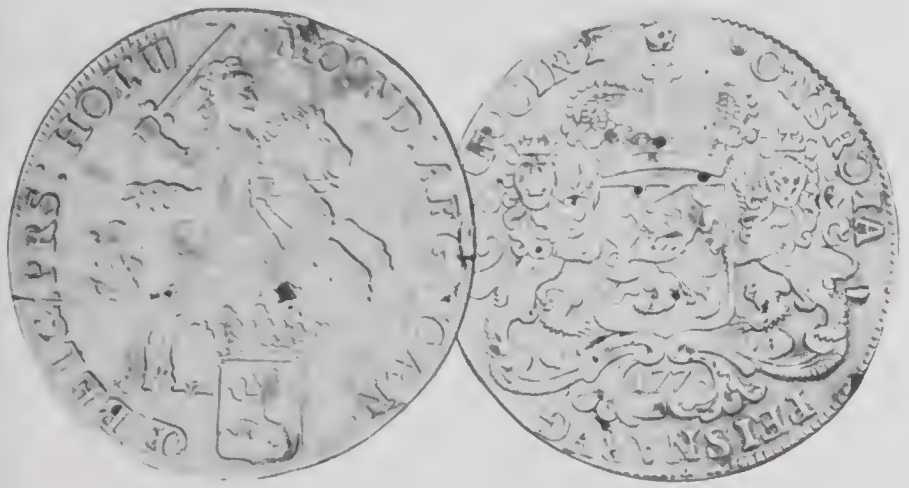
EXCESSIVELY RARE 1776 RIDER DUCATOON OF HOLLAND
UNPUBLISHED DATE



3324 **1776. Ducatoon.** Dav. 1827, Delmonte 1014, Cr. C22. **Possibly unique. F-VF** for coin. **(Photo)** **(——)**

Knight mounted on springing horse, crowned Holland shield below, non-standard legend: "MO:ND: ARG:-CAEN.OE:BELG:PRS:HOL. (small shield parted per pale). Reverse: Crowned shield of the United Provinces, supported by two lions standing on plumes which enclose the date; a large five-petal rosette at top; non-standard legend:".ONSRCIA ("C" retrograde) PEISNARVG ("V" is an inverted "A").8PDUCINT ("D" retrograde). Edge milled diagonally to right. 45mm, struck on a copper planchet to which a thin silver sheet was applied (silver-clad, not silver-plated). One tiny punch mark on obverse (in the letter "B") and seven similar punches on reverse, plus a test cut on reverse edge.

Obviously this is an unofficial piece (which may account for its "unpublished" status), but possibly a mint product. Similar pieces are known of the Utrecht type (of published dates). A piece of this nature was sold in a 1964 Hans Schulman sale for $375, but a Florida dealer (a crown specialist) sold one in 1959 for $1100.

It is thought that this piece (and the similar pieces cited) may have been a disguised product of the Utrecht mint. Indeed, the split-tailed lions are a peculiarity of that mint, but the piece is such a curious mixture of stylistic elements of the different Province's mints that to attribute it to any official mint can only be done by punch-linking. Although the workmanship is not really quite mint quality, this would have been a hurried, after hours job that would not need to be perfect.

It should be understood that Dutch mintmasters had considerable freedom in their positions. For example, certain VOC coinages were for their own accounts, not the Province's, and they were free to make gold and silver strikes of silver and copper coins, as well as other mint sports.

The cataloger has no doubt that the evasive legends and style were deliberate and that the piece was intended for overseas circulation among illiterate natives. Traders were not above buying counterfeit coins at huge discounts, to be pawned off on unwary islanders. Several operators in Birmingham, England produced excellent forgeries of American 8 Reales and Portuguese Half Joes, among less important trade coins. The elaborate and deliberate evasiveness of this piece, however, strongly suggests that the dies were made in the Netherlands, by someone (such as a mintmaster) with an interest in avoiding any complications resulting from counterfeit ducatoons appearing in the Provinces. The repatriation of these specially-designed pieces was much less likely.

Even if it remains unproven that these are mint products (or that the dies are), this is nonetheless an extremely rare type of trade dollar, much rarer than "Greenland Dollars," the English Portcullis dollar, the Prussian trade piastre (1751), the various Italian imitations of Dutch lion daalders, etc. Of course, its nature makes it unlikely to sell at the prices gained by some of these rarities, but we think a price in the low thousands would be reasonable.

NETHERLANDS WEST INDIES

3374 **ca. 1830's. Real.** "R" in rectangle, counterstamped on silver coins. **3 Pcs.** **(——)**
The only reference to this counterstamp which we have located is lot 940 of Hans Schulman's Gaines sale, May '68. We cannot verify this attribution. The coins are Columbian Reals, 1829 and 1830, each stamped above "AL" of "REAL" (as was the Gaines specimen). Coins and stamps VG, one holed. The third piece is a similar but larger stamp on a cob Real (unholed). A rare and mysterious lot!

NEW ZEALAND

RARE WAITANGI PROOF SET

3375 **1935. Proof Set: Crown, ½ Crown, Florin, Shilling, Sixpence, Three Pence.** The first is the **rare Waitangi commemorative crown,** the last is a **rare date.** The set contains **the two key coins of the country. (Photo)** **($2,000)**

No case. Mintage only 364 in Proof. The Waitangi is nice but not perfect; the other values are **very choice proofs**. Krause values total $2375, but these prices are too low. (In WR1 a **choice Unc.** Waitangi crown brought $1100 despite Krause price of only $925).

SCARCE WAITANGI CROWN

3376 **1935. Crown.** Waitangi commemorative. Y.6. **Prooflike Unc. (Photo)** **($800-Up)**

Mintage 764 (plus 364 for proof sets).

3377 **1937. Mint set: 3 Pence, 6 Pence, Shilling, Florin, Half Crown.** All nicely toned **Unc. 5 Pcs.** **($75-Up)**

First year of issue for George VI types. These nice pieces should exceed the combined Krause prices of $82.00.

3378 **1952. Shilling.** Y.24. **Choice Brilliant Proof. Rare. ($100-Up)**

George VI, head/crouching Maori warrior. Krause $100, but Remick $70 in 1970. Raymond had this priced at $35.

3379 **1955. Halfpenny.** Y.28. **Nice Brilliant Proof. Rare.** **($100-Up)**

Krause $90, but Remick $60 in 1970. Again, Raymond thought less than 10 were struck and he priced this at $25.

3380 **1955. Three pence.** Y.30. **Gem Proof. Rare.** ($100-Up)

Unpriced in Krause. Remick $50 in 1970, which was probably low even then. Raymond believed less than 10 were struck, and priced this at $35. Incredibly beautiful toning, as on the companion shilling offered above.

3381 **1955. Shilling.** Y.32. **Choice Brilliant Proof. Rare. ($100-Up)**

Elizabeth, laureate young bust/crouching Moari warrior. Krause $100, Remick $70. Raymond wrote on his envelope that less than 10 were struck. He thought this so rare a piece, he priced it $60. Light gold toning ringed in mauve.

3382 **1974. 1 Dollar. Silver proof.** Y. 47a. **($90-Up)**

Struck for the 10th British Commonwealth Games. Low mintage and extremely scarce. In original blue plush case.

3383 **1974. 1 Dollar. Silver Proof.** Y. 47a. **($90-Up)**

Struck for the 10th British Commonwealth Games. Low mintage and extremely scarce. In original blue plush case.

NICARAGUA

THE EXTREMELY RARE PROVISIONAL HALF REAL OF NICARAGUA

3384 **(1824?). ½ Real.** Pomegranate divides J-G, date below/cross castles and pomegranates in angles. **VF** and unimpaired. Ex-Jose T. Medina. **(Photo)** **($1,500-Up)**

13mm 1.27gms. Believed to be an emergency issue from the Nicaraguan city of Granada. The partial numerals at bottom obverse appear to be "24" (not "2/4", which would indicate 2/4 Real and not the date (18) 24). Three specimens are reported (two in Latin American collections) and the piece is inedited. Placing a value on such an item is never easy. We would note that the holed ½ Real 1823 of Honduras; which first appeared in our Wayte Raymond I auction, brought $1000 (the commonest coin of

the 1823 Honduran series has since been sold-in Fine condition, with hole-for $2000 in a California auction). This piece is of comparable rarity to the Honduran ½ Real and, being unholed, should be worth as much as any Central American small silver coin. Although it is an obscure piece, it is the earliest Nicaraguan coin (by many years) and this should add to the value. While we are tempted to estimate the lot at $3000-up, it is unfortunately the case that great rarities often do not bring their full value the first time they are sold publicly.

3385 **1878. Centavo.** Y.1. Regular dies in **copper** (not coppernickel). **Rare. Proof.** **($150-Up)**
Not in Stickney-Almanzar. Nice brown color, two small spots.

RARE PHILIPPINES PATTERN

3463 **1859. Pattern in bronze for the 80 reales gold.** Basso 81. **Proof. (Photo)** **($150-Up)**
"80 Reaux" in wreath "ISABELLE II REINE D'ESPAGNE"/ "ESSAI PARIS 1859" in wreath. "BALANCIERS DES ILES PHILIPPINES." Extremely rare in Proof.

3464 **1861. Gold proclamation "2 Reales" on the opening of the Manila Mint.** Basso 96a (described as "unconfirmed"). **Of the highest rarity. Impaired Proof. (Photo)** **($2,000-Up)**
Laureate bust left of Isabella/Manila arms within wreath. There are three evenly-spaced scrapes on the edge, and some faint surface scratches in the centers, indicating the coin was in a jewelry holder or carelessly mounted for display. Nearly full proof surfaces; hairlines as is common on old proofs. A hairline planchet crack above the head.
Our consignor has traced two offerings of this piece: a 1947 Max Mehl sale and the Farouk sale. We would not be surprised if this is the third offering of the same specimen, and there are indications that this is Farouk's coin.
Our estimate is very cautious. Several dates of Philippine 4 Pesos are catalogued at higher prices, in Basso and the Spanish references. A copper coin (in VF) of the 1899 revolution has sold for $3,500.

The silver pieces always appear slightly hairlined, due to poor preparation of the dies. The nicest set we have ever had for auction.

PUERTO RICO

AN EXCELLENT COLLECTION OF TOKENS

Among the scarcest and most popular tokens of the Americas are those of Puerto Rico, up to the early years of American influence. These were issued for strictly utilitarian purposes and their survival rate-in any grade-is low. We list several pieces unknown to Gould and Higgie (1962). These have been bringing $25-40 in our past auctions. Listed pieces have been bringing $10-up. Collectors of this series should note the new book by Vaia, whose valuations we have occasionally quoted.

When bidding, bear in mind that the choicer pieces will sell above past price levels.

Ex-Zander, Goldstone. 4) 1851. Six spokes, probably not West Indian. RUSSIA

AN EXTRAORDINARY COLLECTION OF COPPER NOVODELS

Including Rare Issues of 1761 and 1796, a pair of Siberian 10 Kopecks, Numerous Large 5 and 10 Kopecks and unlisted varieties.

The following 75-plus lots comprise one of the most important Russian offerings of this or any decade since 1917. All novodels are rare and a collection this large is extremely difficult to form. Each piece is different. **The overall condition is exceptional.**

With the appearance of B.F. Brekke's **"The Copper Coinage of Imperial Russia, 1700-1917,"** this series is now better understood. The inclusion of pieces not listed by Brekke indicates how exceptional this collection is, **as Brekke states unequivocally that unlisted novodels could exist, but must be very rare.**

Some pieces have fully prooflike surfaces and a few meet proof standards. (Technically, any novodel could be considered a proof, but we prefer to be specific about the actual striking quality of each piece). **Almost every piece is in mint state.** Most have only minutest contact marks, requiring patient-frankly, boring examination under a glass to turn up a single microscopic abrasion. Even allowing for the normal high quality of novodels, the present group is very lovely indeed. Each piece, with three exceptions, has an absolutely perfect edge.

We have quoted Brekke's price estimates for many of the lots. **These estimates are for Abt.Unc. coins,** whereas most of the lots are considerably finer. **Also,** we find Brekke's prices to be cautious-as low as $50, which will not buy a novodel today-and often are not reflective of true rarity. Most of the pieces we offer are **not** from the 1870 All-Russia Industrial Fair held in St. Petersburg.

We would also like to point out that some of the pieces appear to have been hallmarked for a collector (or institution?) at the time of striking.

CATHERINE I, 1725-27

3582 **1726KA. 5 Kopecks Novodel.** Brekke 17. **Choice Prooflike Unc. (Photo)** **($600-Up)**
Eagle and mintmark in beaded circle, surrounded by five large dots/cruciform date and value. Brekke calls "rare", $300. 30% original brilliant luster, the balance a lovely iridescent tan.

3583 **1727KA. 5 Kopecks. Novodel.** Brekke 31. **Choice Prooflike Unc. (Photo)** **($250-Up)**
Similar to last. Brekke: "rare", $200. Partly brilliant wth iridescent toning. Moderate edge knock at 2:00 obverse.

PETER II, 1727-30

3584 **1728. 1 Kopeck. Novodel.** Brekke 10, edge variety. **Unc.,** 75% original brilliance. **(Photo)** **($225-Up)**
St. George in wide-brimmed hat, spearing dragon/cruciform date and value. Checked edge pattern (Brekke edge type #5). "Rare", $150.

We respectfully call your attention to item number 1 in our Terms of Sale regarding our "Buyer's Charge."

3585 **1728. Kopeck. Novodel.** Brekke 13, edge variety. **Choice Prooflike Unc. (Photo)** **($275-Up)**

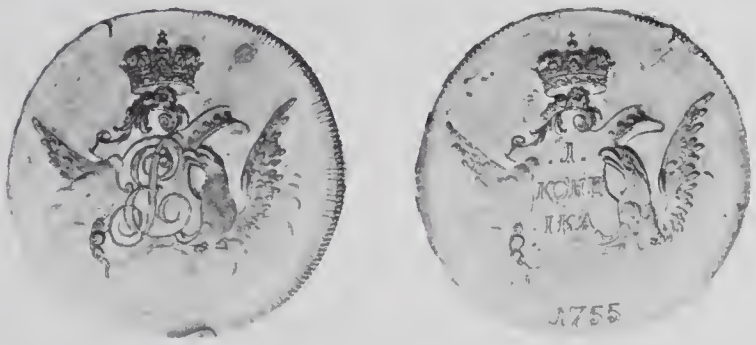
Similar to last. The edge design consists of incuse circles, of a height equal to the coins's thickness, and spaced so that they touch. Each circle contains another incuse circle. Brekke does not list this edge pattern for any coin. Both rims have been trimmed at the edge, as the edge pattern probably produced a sharp and irregular wire edge. Beautifully struck and toned, an olive color predominating.

ANNA, 1730-40

3586 **1739. Denga,** As Brekke 29, only a **novodel. Unc.** Very Rare. **(Photo)** **($325-Up)**

Eagle/value and date in cartouche. Edge diagonally milled. Brekke states that any unlisted novodels must be very rare to have escaped notice this long. The reverse die is badly broken. Some mint red, particularly on reverse, and some rather minor spotting.

ELIZABETH, 1741-62



3587 **1755. 1 Kopeck. Novodel.** Brekke 43. **Choice Prooflike Unc. (Photo)** **($400-Up)**

Eagle in cloud with Queen's monogram/same with value. Date both sides. Glittering olive color with mint red highlights. Among the most beautiful copper coins of the 18th century. Brekke terms "rare" but his price of $150 is out of touch. The obverse has a minor spot at 1:00 and an apparent die break on the rim at 6:00.

3588 **1755. 1 Kopeck. Novodel.** Brekke 45. **Choice Unc. (Photo)** **($325-Up)**

As last, but plain edge (instead of lettered). Even, glossy brown with faint iridescence. Reverse just barely off-center, the Wingtip touching edge at right.

3589 **1757. Polushka. Novodel.** Brekke 61. Choice red and brown **Prooflike Unc. (Photo)** **($200-Up)**

St. George/cipher and date in wreath. Brekke "rare" $150.

3590 **1757. Denga. Novodel.** Brekke 65. **Prooflike Unc.($200-Up)**

Similar to last. Obverse shimmering brown with some red, reverse mostly brilliant. A large spot behind St. George, olive-colored and thus not too distracting, and a tiny green spot by the crown on reverse. Brekke "rare", $150.

3591 **1757. Denga. Novodel.** Brekke 68. **Prooflike Unc.($200-Up)**

Similar to last. Blue and red toning. Choice, save for a spot of darker toning at bottom reverse. Brekke "rare", $150.

3592 **1757. Denga. Novodel. Not in Brekke.** Very rare. **Choice Unc.** **($275-Up)**

Design similar to last, but the edge is diagonally reeded, being crudely hand-cut (giving the effect of edge knocks). Much thicker than the two preceding coins. The border denticles are short and more numerous-almost like square beads. There is a tiny reverse spot, and the reverse die is striated.

3593 **1757. 1 Kopeck. Novodel.** Brekke 74. **Choice Prooflike Unc. (Photo)** **($200-Up)**

Similar to above except for size and value. 40%/90% original mint brilliance. A very few tiny spots. Brekke "rare", $150.

3594 **1757. 1 Kopeck. Novodel.** Brekke 76. **Choice Unc. (Photo)** **($200-Up)**

Similar to last. Almost 50% red-to-brilliant. Obverse prooflike but somewhat weakly struck on the saddle. Brekke $150

3595 **1757. 1 Kopeck. Novodel.** Brekke 78. **Choice Prooflike Unc. ($175-Up)**

Similar to last, very large banner under dragon. Lovely brown surfaces with mint color in the devices. A pair of dark-toned spots on reverse rim. Brekke "rare," $150.

3596 **1757. 1 Kopeck. Novodel. Not in Brekke. Very rare. Proof. (Photo) ($300-Up)**

The obverse is from the 1765-dated novodel of Catherine 2. (Brekke 115). The reverse is from a 1757Em novodel Brekke (Elizabeth) 79. A die crack from edge to George's left shoulder. Diagonal edge reeding. The coin is a lovely color-raised design is brown and the fields iridescent-and there are no hairlines, but some handling makes this an average quality proof.

3597 **1757CnM. 2 Kopecks:** Novodel Brekke 95. **"Very Rare". Unc.,** much red. **(Photo) ($475-Up)**

Similar to last except for value and size. The only 2-Kopeck of this coinage with a mintmark. The obverse is fully red, the reverse is much nicer than Brekke's plate. **The edge pattern is made of raised diamonds,** not incuse diamonds as Brekke implies. **The only such piece we have noted.**

3598 **1957CnM. 2 Kopecks:** As last but plain (ground) edge. Novodel **Edge variety not in Brekke.** Choice red and blue and brown **Unc.,** cabinet friction. **(Photo) ($475-Up)**

3599 **1761. Denga.** Novodel. Brekke 135. **Proof. (Photo) ($250-Up)**

This type exists only as novodels. St. George and dragon on ground, in plain field/value and date over trophies. Brekke's description **is wrong** in that there is a period after date. The obverse in an even, shimmering olive-green color, while the reverse retains some red. As we have called this "proof", we should note that some denticles are weakly struck. Brekke "rare" $150.

3600 **1761. 2 Kopecks.** Novodel. Brekke 139. **Prooflike Unc.,** mostly red. **(Photo) ($225-Up)**

This type exists only as novodels. Similar to last except for size and value, also two stars added to obverse field. A lovely strike. Some small scratches in obverse field. Brekke "rare", $175.

3601 **1761. 4 Kopecks.** Novodel. Brekke 146. **Prooflike Unc. (Photo) ($450-Up)**

This type and denomination exists only as novodels. Similar to last except for size and value, four stars in obverse field. Beautifully struck. About one-third of original mint color. Brekke "rare", $300.

3602 **1761. 10 Kopecks.** Novodel. 47.5mm, 7mm thick. Brekke 149. **Choice Prooflike Unc. (Photo) ($750-Up)**

This type and denomination exists only as novodels. Imperial eagle surrounded by ten stars/similar to last. Lovely brown with red and blue tinges. **Extraordinary!** Brekke "rare", $500. Could produce runaway bidding.

CATHERINE THE GREAT, 1762-96

3603 **1765EM. Denga.** Novodel. Brekke 52. **Nice Unc.,** fully red. **(Photo)** **($225-Up)**

Date exists only as a novodel. St. George/cipher and date in wreath. Brekke "rare", $150. Very slight striking weakness in places.

3604 **1765. Denga.** Novodel. Brekke 53. Brown **Unc.,** somewhat prooflike. **($140-Up)**

Similar to last. The obverse die doesn't match Brekke's plate (Dragon's hind claw extends to "E" of "DENGA", left wing farther from banner. . .). Brekke attributes this novodel to the 1870 All-Russia Industrial Fair. 26.5mm, 5.65gms. See following lot.

3605 **1765. Denga.** Novodel. Brekke 53, edge variety. **Choice Red and Brown Unc. (Photo)** **($200-Up)**

Vertical, handcut edge milling. The reverse does not match Brekke's plate (the "IT" is completely above the monogram, instead of going through it). **The coin is smaller and twice as thick as the preceding piece,** not perfectly round and not struck by the same method. It is difficutl to reconcile these inconsistencies with Brekke's assertion that this date without mintmark was only struck for the 1870 Fair. 25.5mm, 8.09gms. A couple minor spots.

3606 **1765. 1 Kopeck.** Novodel. Brekke 114. Iridescent, Prooflike **Unc.** **($175-Up)**

This date (all mints) struck only as novodels. Type as last except for size and value. Almost half red-to-brilliant.

3607 **1765EM. 2 Kopecks.** Novodel. Brekke 147. Prooflike Brown **Unc. (Photo)** **($225-Up)**

Type as last except for size and value. Brekke "rare", $150. Really lovely brown surfaces. Would be "Choice Unc." except for some very minor spots. Trace of cabinet friction on St. George's apron.

3608 **1765. 2 Kopecks.** Novodel. Brekke 151 (var). **Proof. (Photo)** **($250-Up)**

Similar to last. Brekke states this was struck for the 1870 Fair. **Obverse die significantly different** from Brekke plate (St. George leaning forward slightly, horse's hoof over "B" of "ABE"). The reverse may be from the same die. Toned brown, with blue overtones and bright red in all devices. No hairlines. Brekke "rare", $150. See following lot.

Lot 3608

3609 **1765. 2 Kopecks.** Novodel. Brekke 151 (var). **Nice Proof. (Photo)** **($275-Up)**

Both dies differ from Brekke's plate. The obverse is very similar to the last lot, the horses hoof between "B" and "E". The edge is thinner and somewhat irregular-handcut? That three different obverses and at least two reverse dies would be prepared to strike this one date in 1870 is hard to believe. **(Now see the next lot!!).** Obverse one-third red, reverse full red, no hairlines. **Just lovely!!**

3610 **1765. 2 Kopecks.** Novodel. **Not in Brekke. Very Rare.** Brown **Unc.,** somewhat prooflike. **(Photo)** **($375-Up)**

Easily distinguished from the 1870 strikes, this piece appears to be struck from old dies using earlier methods. Handcut diagonal edge reeding. Choice except for some darker, mottled tone, mostly on reverse.

POSSIBLE PATTERN

3611 **178. (unfinished date). 2 Kopecks.** Novodel. Brekke 194 (var.) **Very Rare. VF. (Photo)** **(——)**

Type as last. Rough, plain edge. Does not show the die rust that is evident in Brekke's plate. **Possibly a pattern,** not a novodel. **Brekke 194 is termed "very rare", and is unpriced.**

3612 **1765EM. 5 Kopecks.** Novodel. Brekke 205 (''very rare''). 50mm. Nice Brown **Unc. and prooflike. (Photo)** **($400-Up)**

Imperial eagle over scroll with value/as last. Brekke notes that Ekaterinburg novodels, as a class,are rarer than those of other mints, and this piece would appear to belong to the first such issue (1840). Given this, and the lovely condition-gleaming brown with red, blue and olive overtones-we feel Brekke's estimate ($250) is much too low-as may be our own!!

3613 **1765EM. 5 Kopecks.** Novodel. Brekke 206B-edge variety. **Very Rare. Choice Proof. (Photo)** **($375-Up)**

Similar to last. Edge is Brekke's Type 7, not Type 5. Slight die rust may indicate that this was a later strike of Brekke 206B (a type issued for the 1870 Fair). Very beautiful, with half original color and the balance iridescent. Brekke 206B is termed ''very rare'', priced $250.

3614 **1767CnM. 5 Kopecks.** Novodel. Brekke 221. **Red Unc.,** blazing luster and almost perfect. **(Photo)** **($375-Up)**

Similar to last. Brekke notes that the obverse die is probably original. **An early striking, thus all the more remarkably preserved.** There are no marks of any kind on the coin, and no die breaks. There are two obverse planchet flaws, due to metal impurities, and a couple tiny spots of bluish toning on reverse. All these imperfections will show up in the photo. What will not show is the incredible color of this superb copper.

3615 **1781KM. Polushka.** Novodel. Brekke 15. Choice Brown. **Unc.** **($175-Up)**

This date exists only as a novodel. St. George and dragon above a banner inscribed with denomination, mintmark below horse, plain fields/Queen's monogram (crowned) divides date, all within wreath. Trace of cabinet friction. Brekke ''rare'', $100.

3616 **1782KM. Polushka.** Novodel. Brekke 16. Choice Brown **Unc.** **($150-Up)**

Date exists only as a novodel. Similar to last Breeke ''rare'', $100.

3617 **1784KM. Polushka.** Novodel. Similar to last. Brekke 20. Brown **Unc.** **($135-Up)**

3618 **1786KM. Polushka.** Novodel. Similar to last. Brekke 25. Cstpd ''C''. Red and brown **Unc. (Photo)** **($175-Up)**

Counterstamped at 4:30 obverse, and showing a raised area opposite the stamp on reverse.

3619 **1781KM. Denga.** Novodel. Brekke 65. Brown **Unc.** **($150-Up)**

Similar to last. Brekke ''rare'', $50. When you consider that 1781 is the first year of coinage of Russian types at Kolyvan, and that this date is only represented by this single variety of novodel, one begins to understand how cautious Mr. Brekke's estimates are for these novodels.

3620 **1782KM. Denga.** Novodel. Brekke 66. Nice Brown **Unc.** **($125-Up)**

This date exists only as a novodel. Glittering surfaces with some original, brilliant mint color, the reverse especially choice.

3621 **1784KM. Denga.** Novodel. Brekke 70. Choice Brown **Unc.,** 10% red. **($140-Up)**

A REMARKABLE SERIES OF 5 KOPECKS FROM THE KOLYVAN MINT

The huge copper 5 Kopecks of Russia are the largest coins ever to circulate in ORDINARY commerce (a few Swedish coppers are equally large). For this reason they are extremely popular with collectors in all countries. Regular issues before 1802 are almost non-existant as fully and sharply struck coins. Thus novodels are even more desirable than usual. The dozen different KM coins offered below are yet another numismatic caviar.

UNKNOWN COUNTERSTAMPS

Of particular interest, elevating the present offering into a kind of **unique** status, is the appearance of an **unknown counterstamp on 10 of the 12 dates** (this same counter-stamp also appears on the 1786KM Polushka novodel in this sale). **The stamp is an incuse "C",** within which are a dot over a crescent, also incuse. The stamp is placed between the necks of the double-headed eagle. It does not show through on the reverse, a likely indication that the counterstamping was done while the coins lay on the reverse die. It is possible that a private collector ordered the pieces and requested his personal mark be applied. The 10 pieces exhibit similar toning and were obviously in the same cabinet for many years. The two other pieces are lighter in color and likely acquired a little later.

All the pieces have diagonal edge reeding, apparently "handcut" as none of the edges are identical. The 1793 has almost vertical reeding; the 1787 edge slants upward to the left (Brekke edge type 6), and is thus a variant of Brekke 263.

3623 **1781KM. 5 Kopecks.** Novodel. Brekke 243. **Cstpd "c". Choice Unc. (Photo)** **($350-Up)**

Beautiful brown mixed with red. Two tiny spots of cabinet friction, on St. George's chest and the dragon's flank, and a few microscopic spots are all that keep this coin out of the "perfect" class.

3624 **1782KM. 5 Kopecks.** Novodel. Brekke 248. **Cstpd "c". Choice Unc. (Photo)** **($300-Up)**

Planchet shows faint striations and there is slight cabinet friction. Some microscopic contact marks on reverse. Brekke "rare", $200.

3625 **1784KM. 5 Kopecks.** Novodel. Brekke 254. **Cstpd "C". Choice Brown Unc. (Photo)** **($325-Up)**

3626 **1786KM. 5 Kopecks.** Novodel. Brekke 260. **Cstpd "C".** Nice olive **Unc.**-with some red and brown. **(Photo) ($325-Up)**

3627 **1787KM. 5 Kopecks.** Novodel. Brekke 263. **Cstpd "C".** Nice **Unc. (Photo)** **($300-Up)**

New style with smaller mintmark, different wreath and generally finer die work. Some cabinet friction. Lovely brown mixed with red, gold and olive.

3628 **1788KM. 5 Kopecks.** Novodel. Brekke 276. Cstpd "C". **Very Choice Unc. (Photo)** **($325-Up)**

Lovely red, gold, brown and olive toning. Faint planchet striations and two small, hairline planchet cracks at 3:00 obverse.

3629 **1789KM. 5 Kopecks.** Novodel. Brekke 280. **Cstpd "C". Choice Unc.,** considerable mint red. **(Photo) ($350-Up)**

3630 **1790KM. 5 Kopecks.** Novodel. Brekke 285. **Cstpd "C".** Choice Brown **Unc. (Photo)** **($350-Up)**
Somewhat more prooflike than the other pieces.

3631 **1791KM. 5 Kopecks.** Novodel. Brekke 290. **Not cstpd. Very Choice Unc. (Photo)** **($375-Up)**
Toned olive, with fairly considerable golden mint color remaining. Some faint cabinet friction is about all that keeps this out of the "perfect" class-perhaps the nicest piece of the run.

3632 **1792KM. 5 Kopecks.** Novodel. Brekke 294. **Not cstpd. Choice Unc. (Photo)** **($350-Up)**
The right quadrant of obverse and left quadrant of reverse are brilliant, the balalnce is olive-brown. Faint cabinet friction.

3633 **1793KM. 5 Kopecks.** Novodel. Brekke 298. **Cstpd "C".** Choice Brown **Unc.**, some brilliant mint color. **(Photo)** **($350-Up)**

3634 **1796KM. 5 Kopecks.** Novodel. Brekke 311 (?). **Cstpd "C".** Nice Brown **Unc. (Photo)** **($325-Up)**
The "96" of date engraved over "86" (die is of the style used 1787-96). Overdate unrecorded in Brekke. Some mint red, but cabinet friction keeps this out of the "Choice" category.

Lot 3636

THE EXTREMELY RARE "CIPHER SERIES" OF CATHERINE II, 1796

In 1796 Catherine decided to accept the dubious economic advice of Prince Lubov and made plans to overstrike the then-circualting copper coins at twice their values. A new design was quickly approved and work began. As the new coins-mostly 10 Kopecks-were stockpiled for a sudden release in January, 1797, none were circulated in Catherine's lifetime. When Paul, a consistent opponent of the measure, took the throne, he ordered the hapless pieces to be overstruck yet again.

The design consists of the Queen's monogram, crowned, on obverse, and the value and date on reverse. The Kopeck values have bosses in the obverse field, one for each Kopeck of value. Otherwise, the fields are plain.

The following lot comprises an extremely important and rare offering: **A complete set.**

3636 **1796. 10, 5, 4, 2, 1 Kopecks, Denga, and Polushka.** Novodels. Brekke 40, 31, 24, 18, 13, 7, and 3, the Polushka with a variant edge. The first five are Proofs, the two smallest pieces are **Unc. (Photo) ($4,000-Up)**

The **10 Kopecks** is a nice light-bronze colored **Proof** with red and blue highlights. The **5 and 4** Kopecks pieces are predominantly brown, the balance red. The **2 Kopecks** is a fiery blaze of red, gold, and orange, with some magenta on obverse. Some tiny, very minor spotting. The **1 Kopeck** is deeply toned blue, red, olive and magenta, and has a faint imperfection-as struck-in the obverse field. The **Denga** is a lusterless brown Unc. struck on a porous planchet. The **Polushka** is a nice Brown Unc., somewhat prooflike with considerable red in the devices. It has a **plain (ground) edge,** not the diamond-checked edge listed in Brekke.

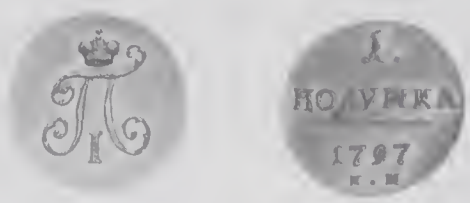
Brekke terms all these pieces "Rare" and prices them at $750, $700, $600, $300, $250 and $250. We will be surprised if these do not sell at a significantly higher level, especially given the skimpy prices assigned to the smaller pieces.

3637 **1796. 4 Kopecks.** Early novodel with original (diamond-checked) edge. Brekke 26 ($700). Somewhat prooflike Brown **Unc.**, mint color in the devices. **(Photo)($850-Up)**

PAUL I, 1796-1801

3638 **1797Em. Polushka.** Novodel. Brekke 2. **Proof. ($150-Up)**

Crowned monogram/value over date. Plain fields both sides Olive-brown with considerable red in the devices.



3639 **1797KM. Polushka.** Novodel. Brekke 4 Red and Brown **Unc. (Photo) ($250-Up)**

Similar to last **Fairly prooflike.** Planchet striations and a light reverse spot keep this out of the "choice" class. Brekke's estimate ($150) is three times as high as for the 1797 M novodel

3640 **1798KM. Polushka.** Novodel. Brekke 9. Nice Red & Tan **Unc.** **($200-Up)**

3641 **1799KM. Polushka.** Novodel. Brekke 14. Red & Brown **Unc.** **($175-Up)**

3642 **1797KM. Denga.** Novodel. Brekke 22. Reddish-Brown **Unc.** **($150-Up)**
Similar to last except for date and value. The obverse is nearly perfect, the reverse has numerous very light and very tiny spots.

3643 **1798KM. Denga.** Novodel. Brekke 28. Choice Brown **Unc** **($165-Up)**

3644 **1799KM. Denga.** Novodel. Brekke 33. Brown & Iridescent **Unc.** **($135-Up)**
Lovely color, but a few spots keep this out of the "choice" class.

3645 **1797EM. 1 Kopeck.** Novodel. Brekke 42. **XF** or better. **($75-Up)**
Similar to last except for size and value. Glossy brown. A half-dozen scattered, very tiny surface nicks.

3646 **1799KM. 1 Kopeck.** Novodel. Brekke 54. Choice **Unc.**, light brown with some red. **(Photo)** **($175-Up)**

3647 **1797. 2 Kopecks.** Novodel. Brekke 69. Brown **Unc.** **($125-Up)**
Similar to last except for size and value. A few very tiny planchet pits. (Brekke's plate also shows some tiny pits).

3648 **1797. 2 Kopecks.** Novodel. Brekke 69? Nice, red Proof. **(Photo)** **($225-Up)**
Similar to last, slight difference in positioning. Brekke states, however, that #69 (struck in two varieties, for the 1870 Fair) does not have a period after date. **This piece does!**

3649 **1800KM. 2 Kopecks.** Novodel. Brekke 82. Nice **Unc.** 70% brilliant original color. **($175-Up)**

ALEXANDER I, 1801-25

POSSIBLE PATTERN

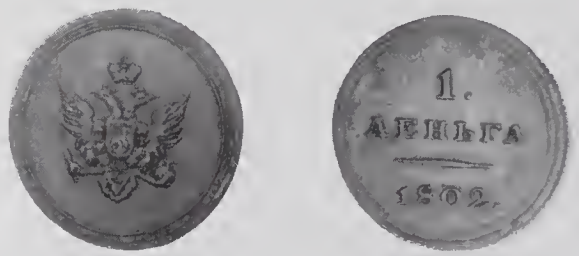
3650 **1802-EM. Polushka.** Novodel. Brekke 1 **("Very Rare").** Choice **AU. (Photo)** **($450-Up)**
Imperial eagle, tail divides "E-M"/value and date in plain field. Brekke notes that this **may be a pattern, not a novodel,** and estimates at $450. This date struck only as novodels.

3651 **1802-EM. Polushka.** Novodel. Brekke 3 ("Rare"). Choice **Unc.** **($150-Up)**
Similar to last. Mintmark under date, borders denticled. **Mostly brilliant** with some shadings of red. **Not** struck for the 1870 fair and thus all the more remarkable in this condition. An exciting piece for copper specialists.

3652 **1802-KM. Polushka.** Novodel. Brekke 8 ("Rare, $250). **Unc. (Photo)** **($300-Up)**
Similar to last. Obverse **red to brilliant,** reverse **fully brilliant!** Tiny spot on obverse. Date struck only as a novodel using original dies.

3653 **1802-EM. Denga.** Novodel. Brekke "25". Choice **Unc.,** nearly full brilliance. **(Photo)** **($200-Up)**
Similar to above except for size and value. A bit of the edge is shaved at bottom obverse - appears to have been done at time of striking. Date struck only as novodels.

3654 **1802-KM. Denga.** Novodel. Brekke 28 "Rare," $250. **Unc. (Photo)** **($300-Up)**
Similar to last. **Full mint red,** the reverse particularly bright. Special border design used only in this year and mint. This date struck only as novodels (original dies).



3655 **1802. Denga.** No mintmark. Novodel. Brekke 30. Brown **Unc. (Photo)** **($225-Up)**
Similar to last. Brekke calls "rare", $200. Style and color identical to Brekke 1, which is described as a possible pattern (as opposed to a novodel).

3656 **1802-EM. Kopeck.** Novodel. Brekke 47 ("Rare"). Choice red to brilliant **Unc. (Photo)** **($200-Up)**
Imperial eagle, around which a circle made of five concentric lines, a boss at top of circle/value and date, similar circle and boss. Broad (29mm), with denticled borders. Brekke $150, but this piece is superb!

3657 **1802-KM. Kopeck.** Novodel. Brekke 50 ("Rare"). Nice red to brilliant **Unc. (Photo)** **($250-Up)**
Similar to last. 26.5mm, no denticled borders. Brekke $200. All kopecks of this year (all mints) are novodels.

3658 **1802. Kopeck.** No mintmark. Novodel. Brekke 5 ("Rare"). **Proof.** **($200-Up)**
Similar to last. Brown with red in the devices. Spot near edge at 11:00 obverse. A hint of cabinet friction, obverse center. Brekke $150.

3659 **1804-KM. Kopeck.** Novodel. Brekke 56 ("Rare"). **BU.** **($200-Up)**
Similar to last. Brekke $150. A few tiny spots are all that take this out of the gem class.

3660 **1804-KM. 1 Kopeck.** Novodel. Cr. 113, Brekke 56. **AU.** **($175-Up)**
The scarce type with border of concentric circles, a boss at top to indicate "1 Kopeck". Likely an Unc., with minor spotting and cabinet friction.

3661 **1802-EM. 2 Kopecks.** Novodel. Brekke 75 ("Rare", $200). Choice **Unc.**, nearly fully brilliant. **(Photo)** **($250-Up)**
Similar to above except for size and value.

3662 **1802-KM. 2 Kopecks.** Novodel. Brekke 79 ("Rare," $250). Choice **Unc. (Photo)** **($300-Up)**
Similar to last. This date-mint only struck as novodels. Original dies. The entire surface is bright red or bright orange; a minor bit of spotting is about all that takes the coin out of the gem class.

NICHOLAS I, 1825-55

3663 **1836-CM. Kopeck.** Novodel. Brekke 91A. Tiny spotting, otherwise perfect **BU.** **($100-Up)**

3664 **1836-CM. 2 Kopecks.** Novodel. Brekke 152A. Choice **BU**, tiny edge nick. **($125-Up)**

Imperial eagle, wings spread wide, wreath, thunderbolt, banners, etc. in talons/value in plain field.

3666 **1836-CM. 5 Kopecks.** Novodel. Brekke 253A. Red **Unc.** **($125-Up)**

THE HUGE 10 KOPECKS OF SIBERIA

3667 **1764. Huge 10 Kopecks.** Novodel. Brekke 492, Cr. 6. **Extremely Choice Prooflike Unc. (Photo)** **($600-Up)**
Value and date on an oval, crowned and supported by sables/ Queen's monogram, crowned and within wreath. Light brown with brilliant original color in all the devices. Close to unimprovable. Brekke 492, $450.

3668 **1770KM. Huge 10 Kopecks.** Novodel. Brekke 507, Cr. 6. **Very Choice Brown Unc. (Photo)** **($350-Up)**

3673 **1756. Gold ½ Ruble.** Fr. 83 ($225), Cr. 21. **VF.** **($150-Up)**
Elizabeth, 1741-62. Bust/monogram.

3674 **1756-Mb. Grivennik (=10Kopecks).** Cr. 16. **Unc. (Photo)** **($100-Up)**
Elizabeth, 1741-62. Bust/value and date on cartouche, crowned and wreathed. A lovely small silver coin in exceptional condition. Lustrous with multicolored toning, the bust a little duller than the fields (and thus highlighted). Some cabinet friction, most noticeably on Liz's breast. "5" of date weakly struck.

3675 **1756-CNB. 5 Kopecks.** Silver. Cr. 15. Nice **XF.** **($50-Up)**
Eagle on cloud, with Queen's monogram/same, with value. Nice planchet, nicely toned with some mint color remaining.

3676 **1762. Ruble.** Dav. 1683, Sev. 1899. **VF.** **($75-Up)**
Catherine II ("the Great"), 1762-96. Popular first year of reign. Mantled but imperial eagle. A pair of small laminations in the obverse fields, otherwise better than VF. St. Petersburg mint.

3677 **1777. Gold ½ Ruble.** Fr. 101 ($145), Cr. 75 ($95 VF). **XF/AU** or better. **($150-Up)**
Catherine the Great, 1762-96. Bust/monogram. Slightly mistruck, a couple obverse letters showing on reverse (in relief).

THE FABULOUS PORTRAIT RUBLE OF PAUL

3678 **1796. Pattern Ruble. Silver.** Plain edge restrike, designated by Severin as #2379 and described as **extremely rare.** By Leberecht. **VF-XF. (Photo)** **($7,500-Up)**
Paul I, 1796-1801 (assassinated). **Obverse:** Shoulder-length bust with queued hair, "C.L.F." on truncation, "CHb" mintmark at bottom. **Reverse:** Imperial eagle on circle, four crowned monograms in cruciform around the circle. Obverse fields bulged, as on all but the excessively rare, probably uncollectible originals.
Regular-issue coins of Paul do not bear his portrait. **This pattern is the second rarest, sold for $2,500, ten years ago.** We consider this piece to be of far greater importance than the rarities of the gold and platinum coinages, and expect serious bids from both crown collectors and Russian specialists.

THE FABULOUS MEDALLIC CORONATION RUBLE-STRUCK IN GOLD!!

3679 **N.D.** (1796-97). **Coronation medal in gold.** 39mm. Signed C. M. F. (Carl Meissner fecit). Severin (Silver . . .) #2388, Severin (Gold . . .) #361; Mich. 337. **Proof,** with hairlines. **(Photo)** **($3,500-Up)**
Fine bust of the new emperor/cross in plain field. Commissioned by Maria Fedorovna, the Empress. According to Severin, gold strikes were for **presentation purposes.** This explains not only the rarity of this piece, but also its particular rarity in the West (as late as 1930 this medal was unknown to Forrer.)
Among the many admirers of this piece was Paul's successor, Alexander I (1801-25), who had Kuchler prepare a pattern portrait ruble of himself, after Meissner's design. These were struck by Matthew Boulton. A specimen in copper brought $450 in WR1.
A silver example of this coronation piece was catalogued for the C.O.I.N. auction last June, estimated at $4000. **This gold specimen should be worth much more.**

3680 **1797AM. Polushka.** Cr. 92, Brekke 5. Red & Brown **Unc.** **($75-Up)**
Crowned monogram/value over date. Some mottled darker tone. Scarce condition. Krause $35 in only XF.

3681 **1798-CM/Mb. 5 Kopecks.** (Silver) CN96. **Choice toned XF+.** **($125-Up)**
Crowned monogram of Paul I, 1796-1801/Value and date over branches.

3682 **1799. 1 Ruble.** Cr. 101a, Dav. 1688. **AU. (Photo) ($250-Up)**
"NOT UNTO US, NOT UNTO US, BUT INTO THY NAME" inscribed in tablet/Crowned cross of 4 "P's". Very scarce issue of Czar Paul I (1796-1801).

3683 **1800EM. 1 Kopeck.** Cr. 94, Brekke 56. Part-red **Unc.** Scarce condition. **($50-Up)**

3684 **1801. Gold 5 Rubles.** Fr. 106 ($1200), Cr. 104. **VF. ($200-Up)**
Monogram forming a cross, "5" in each angle/inscription on tablet. Badly scratched, small piece of edge clipped off.

3685 **1823.** 5 Kopecks (silver). Cr. 126. **AU.** **($20-Up)**
Eagle/value in wreath. St. Petersburg mintmark.

3686 **1827. Ruble.** Cr. 161. Nice **Unc., full Proof surfaces.** **($200-Up)**
Imperial eagle/inscr. in wreath. Mirror surfaces, although the coin as a whole falls short of proof quality. An exceptional piece for condition, and a scarcer date. Hairlined.

RARE RUSSIAN GOLD MEDAL

3687 **1828.** Medal on the death of Maria Theodorovna of Hesse-Darmstadt, wife of Czar Alexander II. 68mm. **Gold, 206.8 Grams** (nearly **6½ ounces!!**) By R. P. Utkin and H. Gube. **VF+-EF**, Rare. **(Photo)** **(——)**
Fine bust left of Marie, wearing oak wreath above diadem/two children flanking an angel who is pointing to "MARIA" in starry circle in Heaven. One bruise on angel's right shin, and a few nicks in obverse field; otherwise in excellent shape for such a large, heavy piece (gold of this size wears down through sheer weight of the piece lying on its own high points.) **An outstanding opportunity for the Russian specialist!!**

3688 **1830.** 5 Kopecks (silver). Cr. 156. **Unc.** **($35-Up)**

3689 **1830. Gold. 5 Rubles.** Fr. 117, Schl. 29. **VF/XF. ($150-Up)**
Eagle and inscription of Nicholas I/Legend in four lines. Evidence of planchet lamination.

We respectfully call your attention to item number 1 in our Terms of Sale regarding our "Buyer's Charge."

Lot 3687

3690 **1832-C. Platinum 6 Rubles.** Fr. 122, Cr. 178. **Rare. VF. (Photo)** **($750-Up)**
Imperial eagle/inscr. Friedberg and Krause price at $3000 (VF) as a type coin. **Only 1502 struck this year,** total mintage for this denomination under 15,000. much rarer than the platinum 3 Rubles. Krause, for example, catalogs the 3 Rubles for only $250. Unfortunately, this piece was mounted at top, the edge and denticles being re-engraved. There is some other slight surface damage from jewelry use, and a couple small edge knocks at bottom.

RARE RUSSIAN BRIDGE MEDAL

3691 **1850.** On completion of a great bridge, perhaps over the Vistula? **75mm. Gold. 223.2 Grams,** (over 7 oz.) **Obv.** by Klepikov; **Rev.** by Tolstoy and Lialin. **EF,** Rare. **(Photo)** **(——)**

Fine view of the bridge with starting and completion dates, imperial eagle flying above carrying thunderbolt and wreath, shield showing St. George and the dragon on his breast/River Goddess reclining at right, pouring water from a vase. Athena in center is guiding Hercules, at left, over the stream on a bridge formed by his club. Hercules has finely modeled Romanov features, perhaps intended as a portrait of Czar Nicholas I (ruler in 1850.) A few field nicks, particularly on obv., but otherwise in excellent condition. **The reverse is one of the nicest and best-executed allegorical scenes we can recall.**

3692 **1868. Ruble** Y. 25. **Unc.,** prooflike. **($75-Up)**

Imperial eagle/"PYbAb" and date in wreath.

3693 **1871. 5 Rubles.** Fr. 126. **XF.** **($100-Up)**

Crowned double eagle/Value, date, inscription of Alexander II.

3694 **1877-96. Set of 2 Silver Rubles.** 2 pcs. **($100-Up)**

(1) 1877. Alexander II. Dav. 289. AU. (2) 1896. Nicholas II Coronation Ruble. Dav. 294. Unc. and very scarce in this superior grade.

3700 **1927. 50 Kopecks Silver.** Y. 89. **Unc.** **($15-Up)**

RUSSIA-GEORGIA

THE SCARCE 1807 40 KOPECKS SILVER

3701 **1807. 40 Kopecks** (400 Dinars). Silver. Cr. 86. **XF. ($125-Up)**

Crown over inscription/Inscription. Very scarce—the key date in the 40 kopecks series. Extremely elusive in this superior grade.

A NICE RUN OF GEORGIAN SILVER COINS

All are 2 Abazi (=400 Dinars=40 Kopecks). **Obverse:** 1-line native inscription between castle-crown and palm-and-laurel sprays. Reverse: Native inscription and date in four lines, mintmaster's initials in exergue. **Scarce coins.** These sold well over catalog in WR1, with a copper coin which catalogs $10 in Craig (VG) bringing $105 in F-VF. These are seldom offered, especially at auction, and never appear in hoards, so this is a good opportunity for collectors.

3702 **1808. 2 Abazi** (=40 Kopecks). Cr. 86. **VG/F.** **($25-Up)**

3703 **1809. 2 Abazi** (=40 Kopecks). Cr. 86. **VG+.** **($20-Up)**

3704 **1816 (over 1815?). 2 Abazi** (=40 Kopecks). Cr. 86. **VF+.** **($35-Up)**

3705 **1820. 2 Abazi** (=40 Kopecks). Cr. 86. **Fine,** pair of planchet flaws. **($35-Up)**

3706 **1824. 2 Abazi** (=40 Kopecks). Cr. 86. Mintage only 32,000. **VG+.** **($35-Up)**

3707 **1831. 2 Abazi** (=40 Kopecks). Cr. 86. **Fine.** **($35-Up)**

3708 **1832. 2 Abazi** (=40 Kopecks). Cr. 86. **Fine+.** **($40-Up)**

3709 **Two pieces as above. 1809, VG, 1831, Abt. Fine. 2 pcs.** **($50-Up)**

RUSSIA-SIBERIA

3710 **1775KM. 10 Kopecks.** Brekke 517, Cr. 6. 47mm. **XF.** **($150-Up)**

Light scratch in reverse field, but glossy, sharply struck, perfect planchet and edge.

3711 **1776KM. 10 Kopecks.** Brekke 520, Cr. 6. **VF,** edge perfect. **($110-Up)**

3712 **1767. 5 Kopecks.** Lettered edge. Very Rare. Brekke 458. Choice. **VF+.** **($300-Up)**

Greenish patination on obv. and rev., thicker in some spots. Lamination peel on reverse.

3713 **1767. 5 Kopecks.** Brekke 459 ("Rare"). **Fine.** **($100-Up)**

Patination and some corrosion on obv. and rev.

3714 **1770KM. 5 Kopecks.** Brekke 466, Cr. 5. **Fine.** **($35-Up)**
Rims unmarked. Brought $40 in this grade in Wayte Raymond I.

3715 **1774KM. 5 Kopecks.** Brekke 474, Cr. 5. **VF+.** **($55-Up)**

3716 **1773KM. 2 Kopecks.** Brekke 434, Cr. 4. **VF.** **($40-Up)**
Similar to last. Glossy dark patina, very bold obverse.

3717 **1771KM. 1 Kopeck.** Brekke 396, Cr. 3. **Fine.** **($25-Up)**
Value and date on oval, crowned and supported by sables/crowned monogram of Catherine II in wreath.

RUSSIAN TURKESTAN

3718 **A.H. 1339. (1921). 500 Roubles.** Bronze. Y. 4a. Usual irregular planchet, edge nick, but basically a nice **VF.** **($50-Up)**
Inscriptions/Value. Very scarce. Issue of the Khwarzem People's Republic.

ST. BARTHOLOMEW

3719 **("1808"). 9 Stivers. "Crown/9/m" cstp in oval indent on silver coin.** Cr. 26 ($200), Byrne 988. Contemporary counterfeit. Coin **VG,** stamp **Fine. (Photo)** **(——)**
Pridmore attributes to Montserrat, 1811-16. The host coin is unusual, an Irish bank token, 1805 5 Pence, Cr. 8. The stamp is larger than on genuine specimens, and the crown and "M" are weak.
This is an example of one of the very few Swedish colonial issues, and, even though a forgery, should bring a good price.

ST. CROIX

3720 **(1830's). 1833 U.S. ½ Cent, cstpd "crowned X".** Gibbs 1748 (brought $80 in 1966!). Numismatist July 1922. Coin **VF,** stamp at least **XF.** Plus two additional cstpd Half Cents. **3 Pcs.** **($150-Up)**
The cstp directly on the Bust of Liberty. We are uncertain about Gibbs' attribution, but the piece is very likely for moneta y use. The note in the Numismatist was to this effect, but did not assign a location. See also a related piece, Byrne 1243 ($40). Byrne 1243 was redescribed when it appeared in a recent Christensen auction, the "S.M." cstp now though to be "S.C." (St. Croix? Brought $55).
The two additional pieces are an 1834 cstpd with a neat, heavy incuse "M" on bust, quite possibly for circulation in a West Indies island, and an 1857 with a sun in a small, denticled circle. Coins VF, latter a scarce date.

SAINT EUSTACIUS

3721 **N.D. (1809-12). "P" and "raised SE" cstps on 1789 Cayenne 2 Sous.** Cr. 8, Scholten 1428. **($40-Up)**
The "SE" stamp matches that on Byrne 998. The stamps are reasonably clear, and the undertype quite clear. Certainly above average. These brought as high as $85 in the Byrne sale.

ST. HELENA

3722 **1821. Halfpenny.** Cr. 1, Fr. 4. Choice **Proof.** Blazing mint lustre. **($90-Up)**
Value, date within wreath/Shield supported by two lions. Extremely scarce.

3723 **1821. Halfpenny.** Cr. 1, Fr. 4 **Proof.** **($80-Up)**
Same type as above.

3724 **1829. U.S. Cent, cstpd SH (Raised) in incused heart.** Gibbs 1756. ($20 in 1966). Coin **Fine,** stamp **VF.** **($30-Up)**
Not from the identical punch as the Gibbs specimen. The attribution to Saint Helena is unsupported, as best we can determine, but the piece is probably not whimsical.

ST. LUCIA

3725 **(1813). 2 Livres, 5 Sols. "S Lucie" cstp on cut segment of 8 Reales.** Cr. 44, Prid. 10, VG1162. Byrne 1017-18. Stamp **Abt. Fine.** **($75-Up)**
The coin is cut in a straight line, just inside the pillar. The cstp is in a keyshaped indent. Christensen sale. 4/7/78, estimates a piece a grade and a half better at $150-200.

ST. MAARTEN

3726 **Ca. 1805. Stuiver.** Cr. 1e (RR), Pridmore fig. 32, Byrne 1060. **VG** (?) for type. **($100-Up)**
Consists of a Cayenne Sou, cstpd "STM" in beaded circle, and large fleur-de-lis. Much undervalued. See also Suholten and V. Guilloteau. **An example brought $135** in the 4/7/78 Christensen sale.

SALVADOR

3727 **1828-F. Provisional 2 Reales.** Cr. 16. **VF.** **($45-Up)**
Smoking volcano over waves/column, Liberty cap above and waves below. Obverse legend full but partly weak, especially "18" of date. 60% of reverse legend bold, balance illegible. Numerous light to moderate scratches.

3728 **1833-RL. Provisional 2 Reales.** Cr. 17. **VF.** **($60-Up)**
Volcano, star above and "S.-S." to sides (second "S" not struck up)/column, liberty cap above. Full legends. A fair number of light to moderate scratches.

3729 **1839. "Volcano over 1839" cstp on Peru 1 Real.** Cr. 22 (unpriced) **Good,** holed; stamp **Fine.** **($100-Up)**
The date in the counterstamp has the "3" recut over a retrograde 3 or an "8". The tail of the "9" is very short. A rariety of this stamp, dated 1830, on a 4 Reales, brought $4500 in WR1. This rare coin should be well worth 5% or so of that auspicious amount.

3730 **N.D. (Circa 1841.) Pair of 1-Real coins, cstpd with nat'l arms. 2 Pcs. Abt. VG.** **($25-Up)**
1) On worn Mexican Republic coin; 2) on (1) 74 (5?) cob, rather heart-shaped flan, holed through edge of cstp. The first piece appears to show a date (1841?) at 11:00 of the stamp.

3731 **1892. Centavo.** Y. 3. Rare. **Unc. (Photo)** **($300-Up)**
Cap in plain field/value in wreath. Glossy brown. Traces of handling or drop mark at 11:30 obverse.

THE EXTREMELY RARE CENTAVO OF 1893

3732 **1893. Centavo.** Y. 3. Krause states "3 known". **VF+. (Photo)** **(——)**
Liberty cap, "REPUBLICA DEL SALVADOR", date at bottom "UN CENTAVO" in two lines in wreath, "CENTRAL AMERICA" around top. Glossy brown surfaces suggest a higher grade. Our consignor states that six pieces are now known. The 1892 date of this type, with a mintage of 180,000 catalogs $175 in VF (Krause) and has long been recognized as one of the rarest copper types for the modern world coin collector. This date was only discovered within the last decade or so, and is rightfully considered one of the rarest coppers of all Latin America. Most of the six known pieces will probably never be available to U.S. collectors, and an appearance of an example in a U.S. auction will probably not occur again for many years.

3733 **1925-Mo. Colon.** W. Raymond 3, Y. 30. **BU. (Photo)** **($200-Up)**
Conjoined busts of Alvarado (1525) and President Quinonez (1925), Marks the 400th anniv. of San Salvador Mex. City Mint.

3734 **1925. Colon.** Wayte Raymond 3, Y. 30. **AU. (Photo)** **($150-Up)**
Busts of Alvarado (1525) and President Quinonez (1925)/Arms with draped flags. Marks the 400th anniv. of Salvador. Struck at Mexico City—mintage only 2,000.

Y. 4. **VF.** (5) **1937-R. 10 Lire.** Silver Y. 10. **Unc.** (6) **1938-R. 5 Lire.** Silver. **Unc.** All low mintage, very scarce, especially so in these higher grades.

3736 **1898. 50 Centesimi, 1, 2, 5, Lire.** Y. 3-6. **VF-XF, Unc., Unc., AU. Rare set. 4 Pcs. (Photo)** **($750-Up)**

Standing figure of St. Marinus/Crowned oval shield in wreath. Very low mintage and rare in this superior grade.

3741 **1906. Lira.** Y. 4. Mintage 30,000. **Unc.,** reverse sligthly dull. **($90-Up)**

3742 **1906. 2 Lire.** Y. 5. Mintage only 15,000. **Unc.** **($175-Up)**
Very faintly prooflike, touches of light golden peripheral toning. One of the rarest coins of this country in mint state.

3743 **1925. Gold 10 Lire.** Fr. 2 ($2250), Y. 12. **Unc. (Photo)** **($750-Up)**
Standing saint/3 towers on mountain peaks, behind wall. Despite a seeming "high" mintage of 20,000, this coin is rarely offered, and in fact much scarcer than any of the several San Marino silver coins with mintages of 10,000. Possibly, some strikes were melted.

3744 **1931. 20 Lire.** Y. 11. **Mintage only 10,000. AU.** **($200-Up)**
Half-length facing bust of St. Marinus, holding the entire country in one arm/three plumes over wall. Much underrated.

3745 **1931. As last.** Mintage only 10,000. **XF.** **($60-Up)**

3747 **1933. 20 Lire.** As above, but **marked "PROVA"** in raised letters, left reverse field. Pagani=R2. **Unc. (Photo)** **($300-Up)**

3748 **1933-R. 20 Lire.** Silver. Y. 11. **Unc.** **($150-Up)**
Low mintage, very scarce in top grades.

3749 **1935. Uncirculated set: 5, 10 Centesimi, 5, 10 Lire.** Y. 14-15, 9-10. **4 Pcs.** **($50-Up)**
The 10 Centesimi is badly discolored, the 5 Centesimi is mostly brown. The silver values are much undervalued today.

3750 **1936-R. 5 Lire.** Silver. Y. 9. **Unc.** **($25-Up)**

3751 **1936. 10 Lire.** As regular issue, **marked "PROVA"** in raised letters in right reverse field. Pagani=R2. **Unc. (Photo)** **($200-Up)**

3752 **1937. Uncirculated Set: 5, 10 Centesimi, 5, 10 Lire.** Y. 14-15, 9-10. **4 Pcs.** **($55-Up)**

SANTO DOMINGO

3753 **N.D. (c. 1506-1516). 4 Maravedis of Carlos of Johanna.** 1506-16. C-C. type 8, #831. Guttag 4630-38. **VF+. (Photo)** **($100-Up)**
An exceptional example!! From the H. D. Gibbs collection, with Gibbs' envelope explaining that he got it from the Charles Clapp collection. Some trifling verdigris on the rev. Of the 43 letters in the legends, 34 are bold and only two are illegible. Over 2/3 of the outer beading is present. Obverse: A monogram, apparently crossed J's, each crowned. A lis above and below, "F" and "IIII" to left and right (a small "o" above "IIII"). A small dot in the center. All in a beaded circle. "+CAROLVS.ET. IhOANNA.RE.ESPS." Reverse: Crowned pillars of Hercules, a fragmentary third pillar to the left (not the result of double-striking). "S" and "P" to left and right, a large dot above each letter. Three circles below. A small center dot. All in a beaded circle. "+CAROLVS.ET.(Ih) OANA.RAEGES.ISP." The legend stops as on obv. Doubtless this is one of the finest known of any variety.

3754 **Ca. 1550. 4 Maravedis,** in name of Carlos and Johanna. Cstpd with "key". Burzio 837, Byrne 1118. **2 Pcs.** **($50-Up)**
The coins are **Fair to Good** but the stamps are very clear. An admittedly nicer piece brought $50 in WR1.

3755 **N.D. (1808-22). ¼ Real.** Cr. 51. **VF.** **($50-Up)**
Crown over "F.7"/"SP" and "¼" in wreath. 26mm, 6.9 gms. Unusually large and choice for type. WR1 $65.

3762 **1896-H. Half Cent.** Y. 6, Fr. 10. **Proof,** nicely toned. **($100-Up)**
Portrait of Rajah Chas. Johnson Brooke/Value within wreath. Very scarce.

3776 **As last, but gilt copper. Proof. (Photo)** **($350-Up)**
Small spot on lion's left eye, a few other tiny spots, otherwise choice. Pair of linear die cracks from "S" of "SIERRA" to "A" of "AFRICA".

3777 **As last, but Bronzed Copper. Proof. (Photo)** **($300-Up)**
From a different die from last, without the long die cracks.

3778 **1791. Half Dollar.** Cr. 5. Currency **(Silver)** strike. **VF.** **($250-Up)**
Would grade about XF but there is some minor circulation damage-fine scratches and a small dig between L's of DOLLAR. Thus we have graded the coin only VF, overall. Almost a grade better than the piece which brought $220 in WR1 (interestingly, Krause's price is only $150 in XF!).

3779 **As last, but gilt copper.** Nice **Proof. (Photo)** **($400-Up)**

3780 **As last, but Bronzed Copper.** Nice **Proof. (Photo)** **($400-Up)**

3781 **1791. Dollar (=100 Cents).** Cr. 6a. Struck in **silver. Very Choice Proof. (Photo)** **($1,500-Up)**
Lovely blue and gold toning, raised part matte, silver grey. **First coinage to bear the value "Dollar".**

3783 **1791. Dollar-As last, but Bronzed Copper. Virtually Perfect Proof. (Photo)** **($750-Up)**
A copper striking, rather crude and only XF, brought $1050 in WR1.

RARE GOLD BANK COMMEMORATIVE

3784 **1964-1974. 1 Leone.** Bank of Sierra Leone, 10th Anniversary. Y. 12, but **struck in gold.** Unpublished in this metal? Proof in Royal Mint presentation case. **(Photo)** **($1,000-Up)**

Bust of Stevens/lion. Not in Krause in gold. **Probably a dozen pieces or less were struck, for presentation only.** The green case is gilt-inscribed "BANK/OF/SIERRA LEONE/1964-1974" on cover. 49.2gms. A 1975 10 Golde piece, another large Sierra Leone gold coin, was estimated bring $1000-Up in recent Money Company auction. Gold & essai strikings of the French 10 Francs sell for about $800-Surely this genuine rarity is worth much more.

Only 91,000 business strikes. Scarce, two-year type. Very dark violet to blackish toning on both sides, some dark foreign matter, perhaps merely a build up of the same dark patination, around the rev. legend. Handsome specimen.

ONE OF 14 PROOF STRIKES

3810 **1930. Shilling.** Y. 19a. **Proof. (Photo)** **($250-Up)**
George V bust/draped female figure before waves, her elbow on an anchor. Type issued 1926-30. **Only 30 proof pieces of the type were issued,** all for the sets of 1926 and 1930. **Unpriced in Krause.** The availability of an unimpaired piece outside complete sets is most unusual. Krause prices Unc. coins of the type at $60 minimum. Remick priced this proof at **$200 in 1971.** A good opportunity for an astute buyer.

The following four copper Proofs from 1931 were all very carefully lacquered long ago, probably in the 1930's. This was a common practice in those days, especially for copper Proofs, since in the days before air conditioning such pieces corroded rapidly in summer if left unprotected. The lacquer, thin transparent and fragile, has chipped or flaked in a few spots, producing small dark spots where the underlying coin was exposed to air.

3811 **1931. ½ Penny.** Bronze. Y. 24. **Proof. (Photo)** **($400-Up)**
Crowned bust of George V/Ship. Mintage 62, with this variety being a **proof only.** One of the great "keys" for South Africa date collectors. Lists at $750 in Krause.

3815 **1933. ½ Penny.** Y. 24. **BU.** **($70-Up)**
Mintage of only 63,435. One dealer offered this in a recent list for $82.50; Remick (1971) priced it at $60.

3816 **1936. ½ Penny.** Y. 24. Red and brown **Proof,** slightly spotted. **(Photo)** **($150-Up)**
Proof mintage of only 40. The reverse is red and brown. Unpriced in Krause, Remick (1971) $135. (By comparison, Remick listed the proof-only 1931 date at $300; Krause lists it for $750).

3827 **1961. 50 Cents.** Y. 77. Choice **Unc.** **($20-Up)**

3828 **N.D. Embossing Die From The National Bank.** 38.5mm. Fields nice, sunken design rusty. **(Photo)** **(——)**
Central design similar to 1892 5 Shillings. Legend: "SYNDICUS DER NATIONALBANK", around bottom "**Z.A.R.**". As the die has the legend "Z.A.R." (Zivd-Afrikaansche Republic), it is very possible that this is 19th century die.

3829 **N.D. Seal with value of 2 Shilling & 6 Pence. XF. (Photo)** **(——)**
36mm. Lead, bronzed. In center, arms of the Zuid-Afrikaansche Republic (as on 1892 5 Shilling and 1874 patterns). Outer "2 SHILLING & 6 PENCE", at bottom "*Z.A.R.*". Attached to a brass plate. Presumbly this piece and its female match were used to seal documents and attest to a fee. Like the preceeding lot, this could be an extremely valuable item.

We respectfully call your attention to item number 1 in our Terms of Sale regarding our "Buyer's Charge."

COMPLETE SERIES OF SOUTH AFRICAN GOLD PROOF SETS

Sophisticated collectors all over the world are aware of South African gold Proof Coinage. The Proof Sets were (and still are) packaged in special velvet-lined presentation cases. It is the longest-running contemporary series of legitimate Proof Sets with gold of any country in the world.

The Pretoria Mint, a branch of the Royal Mint, commenced minting British gold Sovereigns and Half Sovereigns in 1923, continuing to issue Sovereigns as late as 1932. A small "SA" mintmark was incorporated into the basic British Sovereign design. The only Proof Set **with gold** issued during this period is the famous 10-piece set of 1923, featuring King George V. Only 655 sets were issued - a classic rarity! No further Proof Sets (with gold coins) were minted until 1952, when an **11-piece** set was produced with the portrait of King George VI. Starting with the 1953 set, the coins showed the portrait of Queen Elizabeth II. This continued through 1960. In 1961 South Africa became an independent republic and the portrait of Jan van Riebeeck (Dutch founder of the nation in 1652) replaced the Queen's portrait on all South African coinage.

The beautiful Springbok (gazelle) has been featured on the reverse of the gold coins since 1952.

Proof Sets for many of the years of issue were produced in extremely limited numbers for legitimate collectors only. We have noted the specific mintage next to each set herein offered.

THE RARE 1923 PROOF SET
1 of 655 MINTED

3830 **1923. Proof set of 10 coins mounted in special presentation case inscribed** in gold lettering "FIRST COINAGE OF SOUTH AFRICAN MINT PRETORIA 1923." Denominations are: ¼, ½ and 1 Penny in bronze: 3 and 6 pence, shilling, florin, and half-crown in silver; and the ½ sovereign and 1 sovereign gold. Y. 11-13, 15, 16, 19-22, A21. **(Photo)** **($2,750-Up)**

Only 655 sets were minted, with the two gold pieces being in particular demand—the ½ sovereign dated 1923 was issued in proof only. The silver coins show attractive iridescent toning. George V portraits.

Very few complete 1923 proof sets are available today—many are permanently impounded in British Empire collections, while a considerable number have been broken up by type collectors. The presentation case (maroon leather on wood and purple plush) was produced by the prestigious firm of Mappin & Webb, boxmakers to the King of England. This is by far the finest complete set we have ever seen.

The "Feminists Half Real", famous in some circles and little known in most others, here published for the first time. The sobriquet stems from the omission of the King's title ("REX") from the legend, the result of muling two dies with non-complimentary legends. One of the finest known, if not the finest, of this charming variety. The coin is nicely toned and completely bold, except for a couple letters

3864 **N.D. (1474-04). 2 Reales.** Seville (mintmark to right). **VF.** **($60-Up)**

3865 **N.D. (1556-98.) 4 Reales.** Seville mint. CC. 2428 (21,600 Pesetas), Vicenti 526 (15,000). **XF. (Photo)** **($200-Up)**
Crowned arms/castles and lions. The rare variety on which the assayer's initial "P" appears twice on reverse. A bold, even strike with nearly full legends. A couple planchet flaws detract very little. The A's are unbarred, and "HISPA . . ." cut over "HISAN . . .".

3866 **As last. VF,** holed. Ex-Pena Collection. **($100-Up)**
Broad and rather round planchet. Virtually full legends, King's ordinal vague. The hole is in the field, near the value.

3867 **N.D. (Circa 1556-98.)** Majorca. **2 Reales,** Type of Vicenti 344. Double struck, second strike 30 percent off-center. Once cleaned, **VF+.** **($75-Up)**
Crowned bust of Philip II/Shield. An interesting vintage mint error.

3868 **1613-Sv/V. 4 Reales.** Pellicer 619 (R3). **Fine.** **($100-Up)**
Philip III, 1598-1621. Crowned arms/castles and lions. Obverse shows King's ordinal, mintmark and assayer, all very clearly. A look at Pellicer's illustrations proves just how nice for type this crude piece is. CC4928 (5500, 9600 Pesetas), Vicenti 527, estimated more realistically at 20,000.

3869 **1624. 4 Reales.** Toledo mint, assayer P. Pellier 777 (R2). **Fine.** **($100-Up)**
Arms/castles and lions. Very crude, reverse double-struck (180°) and showing date twice. Full King's ordinal on obverse. Flan almost diamond-shaped. Vicenti 17,5000 Pesetas, CC 9500. Pellicer $130 in 1971.

AN EXTREMELY RARE VARIETY OF THE VERY RARE 17 MARAVEDIS

3871 **N.D. (ca. 1651). 17 Maravedis (= ½ Real).** Segovia, Assayer I. Not in CC, type of Vicenti "Tipo 80". **Fourth example reported. VF/F. (Photo)** **(——)**
Obverse: Crowned PHILIPPVS monogram over mintmark and assayer initial (two-arched aqueduct and dotted "I"). Type used at Segovia 1622-51. Reverse: Castles and lions on quartered shield, crowned, assayer initial to left, "17" to right. Type used at Segovia, with a bust obverse, in 1631 and 1638 (Assayer "A").
Vicenti lists five rarieties of 17 Maravedis, comprising three types. (CC lists 3 varieties and two types). An undated piece of the type here offered, with assayer initial "P", is listed as #605 (Tipo 80). 17 Maravedos of assayer "I" are unlisted. A piece from these same dies was in the February 78 Lepczyk auction (lot 1601). Described as assayer "I" over assayer "R", it was stated: "Research in Spain indicates only three pieces known. We believe the piece is assayer "I" over assayer "P". The date 1651 is probably correctly assigned to this piece, as most coins of assayer "I" date from that year (a 1651-Sg/I 8 Reales is known, recut from the reverse die of 1630-Sg/P 8 Reales).
The listed variety of this type catalogues 90,000 Pesetas in Vicenti. This unlisted variety brought $550 in the Lepezyk sale. This piece is comparable condition

3872 **1663-Md. 16 Maravedis.** Bust/arms. **Unc.,** luster, crude. **($25-Up)**

3873 **1682-SG/M. 2 Reales.** One-year, one-mint type. CC8591, Vicenti 338. **XF.** **($50-Up)**

3874 **Lot of two ½ Reals and five 1 Reals of Philip V, 1700-46. Good+ to VF,** average **VG-F. 7 Pcs.** **($45-Up)**
One piece is holed. Includes a 1730-Sv 1 Real without assayer's initial (scarcer type) in VG/F.

1708 VG, holed at top; 1709 Good; 1711 AG, VG, VF/F; 1712 F/VF holed at top. Originally priced at $42, but the demand for Spanish coins is so high we decided to auction even the lower-priced coins in the Raymond inventory in small groups.

Carlos III, 1759-88. Crowned arms/castles and lions. This same piece in VF brought $275 in WR1.

3886 **1772-Sv/CF. 8 Reales.** Cr. 40. **Rare date and type. XF+. (Photo)** **($750-Up)**
Draped bust/crowned arms. A 1776-Sv/CF 8 Reales-a much commoner date brought $450 in WR1. That piece was at least two grades lower than this coin. Caston-Cayon prices at 125,000, 150,000 Pesetas; Vicenti at 85,000. Will likely cause runaway bidding.

3887 **1783-Md/JD. Gold ½ Escudo.** Fr. 145. **Fine.** **($50-Up)**

3888 **1784-Sv. 4 Reales.** Cr. 39. **VF.** Nicely toned. **($50-Up)**

Carlos IIII. Bust/crowned arms. **Vicenti 30,000 Pesetas.** This type is very seldom seen in the U.S., and for this reason very strong collector competition is expected. May top estimate considerably.

3893 **1808-Sv/CN. 8 Reales.** Cr. 136b. **VF. (Photo)** **($150-Up)**
Fernando VII, first year of reign (he deposed his father). Bust/crowned arms. Vicenti 17,500 Pesetas. Would grade higher, but there is some slight discolor in left reverse field.

A NEW VARIETY OF THE GERONA DURO

3894 **1808. Duro.** Type of Cr. L41 but **"GNA"** (for GeroNA) **missing. Unpublished. Excessively rare,** probably **unique** at present. **VF-XF. (Photo)** **(——)**
Obverse: (ornament)/FER/VII; all in relief within incuse rectangle (top rounded). The ornament appears to be a wig. **Reverse:** 1808/UNDURO: all in relief within a shaped incuse. Crude borders of slash lines, plain edge. Moderate porousity as is to be expected, edge nick at 7:00 reverse. **The basic grade may be higher than VF-XF.** These crude issues were struck immediately after Fernando VII was arrested by Napoleon. This piece is like the normal emergency issue of 1808 (which was struck from many dies), except for the **absence of "GNA" from the coin.** Close inspection reveals that the bottoms of these letters appear, faintly. This is not, however, simply a poor striking, the result of uneven pressure failing to bring up the details on the upper part of the die. **Rather, the die itself was defective.** GNA is positioned far above the date, and it is apparent that this die **could not produce a proper impression.** Neither the obverse nor reverse die is pictured in Calbeto or other references we have. It appears that this die was found unusable and discarded, which would account for the near-total absence of pieces struck from it. This piece has been examined by several leading collectors and dealers, none of whom had seen anything like it. Its owner has held it for a couple decades, having obtained it from another American collection. It is now offered for public sale for the first time. **We quite expect the bidding to reach four figures and perhaps go much higher.**

3895 **1809.** Valencia, **2 Reales.** Cr. L103. **VF.** **($35-Up)**

RARE PROOF

3917 **1856-Md. 20 Reales.** Y.31. **Proof!! (Photo)** **(——)**
Laureate bust, hair braided/crowned arms between pillars. A modicum of small surface marks, common to large coins, but no hairlining and nice toning. A Proof 5 Pesetas of 1871 brought $1500. The market for Spanish coins is so strong, we dare not estimate this piece.

THE EXTREMELY RARE CAMPILIONI GOLD TOKENS

4007 **1950. Gold 100 and 20 Lire, of the Italian enclave Campilioni in Switzerland.** See Farouk sale, #1007-8, and WR1 #2201. **Unc. 2 Pcs. (Photo)** **($1,100-Up)**
These strikingly beautiful gold pieces (described in the Farouk sale as casino tokens) were listed under Italy in WR1. Information brought to our attention recently has led to this minor re-attribution. These brought $1100 in WR1 and have been reconsigned to us. There is a good chance that these were Farouk's specimens.
The weights (32.2, 6.4gms) conform to the coinage standards common to Switzerland and Italy in the 19th and early 20th centuries. The pieces are extremely rare and two of the most impressive tokens we have ever seen. We know of comparably rare tokens in pewter, copper and even crack plastic which now bring $800 to $2000. We feel that the 20 Lire piece should be in a price class with such pieces. Accordingly, our estimate for the two pieces should be very moderate.

We respectfully call your attention to item number 1 in our Terms of Sale regarding our "Buyer's Charge."

TORTOLA

(BRITISH VIRGIN ISLANDS)

4031 **ca. 1792-1811. Token "Black Dogg" of Arthur Hodge.** Pridmore 19a, Byrne 1174-75. Quite scarce. Stamp bold. **($50-Up)**

"Hin diamond" cstpd on Cayenne sous. Hodge, a plantation owner, was hung for murder in 1811. We last saw this piece in a dealer's tray, priced $75.

4032 **(1801). Shilling. "TORTOLA" cstp on ⅛-cut of an 8 Reales.** Cr. 6, Pridmore 4 ("rare"). **Not in Byrne sale. ($150-Up)**

The official issue. Segment rather worn, stamp Fine but "LA" and top of second "O" not struck up. It is somewhat unusual for Pridmore to describe a piece as rare. If this rare piece is suddenly appreciated by Commonwealth collectors, the coin will bring multiples of estimate.

4033 **(1801). Quarter Dollar. "TORTOLA" cstp on quarter-cut of 1769 8 Reales.** Cr. 7, Pr. 3. Coin **Good,** stamp **VG.** **($75-Up)**

Official issue, scarcer than later issues. The counterstamping punch is becoming worn, so we have only graded it VG. A piece of about this quality brought $90 in the Byrne sale, but this dated pillar cut may sell higher.

4034 **N.D. (1805-24). Quarter Dollar. "TIRTILA" cspt on "quarter"-cut of 8 Reales.** Cr. 19, Pridmore 13. Scarce. Stamp is a good **Fine.** **($75-Up)**

This stamp, Pridmore type III, nos. (12-15), is scarcer than type two (nos. 8-11). Craig does not separate the two varieties.

4035 **N.D. (1805-24). Half Dollar. Cstp on half-cut of Mexico 8 Reales.** Cr. 20, Pridmore 8. Coin **Good,** stamp better than **VF.** **($50-Up)**

Stamped "TIRTILA" in a key-shaped indent, 18mm long. Cf. Christensen, 4/7/78, lots 148, 149, est. $125-175 and $100-150; this piece has some tiny scratches above the "T", but we still feel it is as nice or better than either piece in that sale.

Rather dull color. Some planchet porosity, resulting in "ENTAL" being weak. Two small edge nicks. On this die, a large ray points to "R" of "URUGUAY."

4155 **1854/40. 5 Centesimos.** Y. 1. **AU,** some mint red remaining. **($125-Up)**
This is an especially nice piece in that there are no planchet or striking flaws. Although struck from an altered 1840 die, there is no trace of the "40" remaining on the die. The "54" is actually struck over a raised oval which completely obliterates the "40."

4156 **1857-D. 20 Centesimos.** Y. 5. **BU.** **($75-Up)**
Sunface/value on shaded circle within wreath. A brown Unc. with minor spots brought $70 in WR1. This coin could launch bloody bidding.

4157 **1857-D. 40 Centesimos.** Y. 6. **Unc.,** about half red. **($70-Up)**
Sunface/value on shaded circle within wreath. Much nicer than the Unc. which brought $75 in R1.

4158 **1857-1894. Lot of 6 coins.** **($30-Up)**
1-3) 50 Centavos, Y. 13. 1893/73. Fine and VF. 1894 AVF; 4-5) 1869-H 4 and 2 Centavos, Y. 8-9. Both Choice XF. 6) 1857-D. 40 Centavos. Y. 6. Good.

4159 **1869-H. Centesimo.** Copper. Y. 7. **Unc.** **($40-Up)**
Rayed personified sun/Value in circle within wreath. "Tasset" at left of "H" mintmark. Very scarce.

4160 **1877. 10 Centesimos.** Y. 11. **AU.** Scarce. **($25-Up)**

4161 **1877-A. Silver Peso.** W. Raymond 2, Y. 14. **VF/XF.** **($40-Up)**

4162 **N.D. (c. 1900). Proclamation medal,** silver-plated brass. 37mm. **VF+,** damaged. **(——)**

4163 **1917. Silver Peso.** W. Raymond 3, Y. 23. **VF** **($25-Up)**

4164 **1930. Commemorative 5 Pesos, 20 and 10 Centavos.** Y. 24 (Fr. 6), 20, 18. **Essais** in Aluminum-bronze. **Very Rare. Unc., 3 Pcs. (Photo)** **($300-Up)**
Independence Centenary. Exactly like the beautiful regular issues, except they bear the word "ESSAI" in raised letters. Paris mint products. **Unlisted in Almanzar-Seppa.** The 5 pesos has a lettered edge reading: "CON LIBERTAD NI OFENDO NI TEMO * * *". All three very lightly spotted. Krause $270 for the regular issues.

4165 **1943. 2 Centesimos.** As Y. 16a, but gold-plated. **Unc.(——)**

4166 **1969. FAO 1000 Pesos.** Silver. Y. 53. Brilliant 2-tone **Proof.** **(——)**
Only 250 Proofs struck. Unpriced in Krause. Sunface in ultra-modern style/agriculture symbols, similar style. By Matto. Santiago mint.

4167 **1975. 5 New Pesos.** As Y. 59, but **struck in silver. Ex. Rare. VF.** **(——)**
Commemorates 150th anniversary of revolutionary movement. Artigas bust in rectangle/sword and banner. Reeded edge. Polished.

VENEZUELA

4168 **1818-? Two early copper coins.** Cr. 2, 41. **VG-F.** **($30-Up)**
(1). 1818. ¼ Real. Cr. 2. Fine. (2). Guayana. 181 x ½ Real. Cr. 41. VG.

Quartered shield/Value between pillars. Struck at Caracas.

4170 **1843. ¼ Centavo.** Y. 2. **VF-XF,** nice purple toning. **1843. 1 Centavo.** Y. 3. **Abt. XF. 2 Pcs.** **($75-Up)**

4171 **1858. Centavo.** Y. 7. Choice **AU.** **($30-Up)**
Liberty head/value in wreath. "LIBERTAD" incuse, engrailed edge.

4172 **1874-A. 20 Centavos.** Y. 14. Extremely Choice **Unc. (Photo)** **($300-Up)**
Head of Bolivar/arms. Lovely toning, fairly prooflike, perfectly struck, virtually perfect surfaces. Our estimate is **conservative** for this quality—a finer piece may not exist.

4173 **1874-A. 10 Centavos.** Y. 13. Choice **Unc. (Photo)** **($200-Up)**
Similar to last. Reverse somewhat prooflike. Well struck. Toning matches that of the 20 Centavos.

4174 **1876-1936. 1 Venezolano (1876)** and **5 Bolivares, 1879-1936,** complete date set. Y. 16, 24. Average circulated. **22 Pcs.** **($200-Up)**

The **rare 1876** is Good, the 1879 AG-G, 1901 VG, 1929 VF. These coins—the 1876 excepted—are disproportionately cheap in grades below XF, and the lot is a real buy at our estimate. **Sold As Is-No Returns.**

4175 **1900. Silver 5 Bolivares.** W. Raymond 2, Y. 24. **VF+/XF.** **($15-Up)**

NORTH VIETNAM

4176 **1946. 2 Dong** (bronze). Y. 4. Some nicks, still **VF,** nice. **($35-Up)**

1) "Philipsburg", raised "P" in incuse sawtoothed box, cstpd on 1724 English halfpenny. Coin and stamp clear; 2) St. Martin. Large fleur-de-lis on old French half sou. Compare VG1085; 3) "STx('')" cstpd on 1790 Wilkinson token. Attributed to St. Pierre. 4) French 5 Centimes, L' an 8-A, XF, with fleur-de-lis cstp. Attributed to Guadeloupe. These comprise lots 1397, 1519, 1686 and 1804 of Schulman's March 1966 auction. We cannot confirm Gibbs' attributions but these are very interesting pieces, #3 is ex-O. K. Rumble, #4 ex-Farouk. **Sold as is, no returns.**

4179 **1810. Counterfeit Spanish Pistareen.** Debased silver. **Fine,** lightly cleaned. **($20-Up)**

Type of Philip V (1700-46), several legend errors. Likely made ca. 1810. Ex-B.G. Johnson, 1933, at 10c! In a class with the 1791-Zs 2 Reales.

1) LasPalmas (Chile). Gibbs 959 ($24). 1817. "H&N" in sawtoothed box and "L.P." (single punch). 2) LesSaints. Gibbs 1701-A ($30). Draped bust cent, date worn. LS in rectangle, all within sawtoothed rectangle. Possibly a contemporary counterfeit of Cr. 51 (compare illustration in VGuilloteau); 3) Saint Lucia. Gibbs 1764 ($27). 1817. "SL" (?) monogram. Coin Fine; 4) Windward Isles. Gibbs 1973 ($15). 1802, badly clipped coin. "I.W" in sawtoothed box, very crude. Obviously false attribution; 5) Unattributed. Gibbs 1979 ($(). 1816. "J & B" in sawtoothed rectangle. No modern research confirms these attributions. The pieces are old and rare, and should attract great interest.
